

CONTENTS

Preface

UNIT 1 INTRODUCTION TO QUALITY MANAGEMENT

- 1.1. Quality Management
- 1.2. A Shift to Quality
- 1.3. The Quality Hierarchy
 - 1.3.1. Total Quality Management
 - 1.3.2. Basic Tenets of TQM
 - 1.3.3. The Three Cís of TQM
 - 1.3.4. The TQM System
 - 1.3.5. Fundamental factors affecting Quality-(9 Mís)
 - 1.3.6. Traditional Approach Vs TQM
 - 1.3.7. Benefits of TQM
 - 1.3.8. TQM Framework
 - 1.3.9. Principles of TQM
- 1.4. Leadership
 - 1.4.1. Characteristics of Quality Leaders
- 1.5. Quality Statements
- 1.6. Strategic Quality Planning
- 1.7. Awareness of TQM
- 1.8. Implementation of TQM
 - 1.8.1. Key Elements of TQM
 - 1.8.2. Obstacles to TQM Implementation
- 1.9. Customer Focus in Quality Management
 - 1.9.1. Customer Perception of Quality
- 1.10. Translating Needs into Requirements
- 1.11. Requirements Management
- 1.12. Customer Retention
- 1.13. Dimensions of Product and Service Quality
- 1.14. Cost of Quality

QUESTIONS

UNIT 2 PRINCIPLES AND PHILOSOPHIES OF QUALITY MANAGEMENT

- 2.1. Historical Review of Quality Management
- 2.2. Quality Movement in India

- 2.3. Contributions of Quality Gurus
- 2.4. Contributions of W. Edwards Deming
- 2.5. Contribution of Joseph M Juran
- 2.6. Contribution of Philip B Crosby
- 2.7. Contribution of Masaki Imai
- 2.8. Elements of JIT
- 2.9. Contribution of Armand V Feigenbaum
- 2.10. Contribution of Kaoru Ishikawa
- 2.11. Contribution of Genichi Taguchi
- 2.12. Contribution of Shigeo Shingo
- 2.13. Contribution of Walter A Shewhart
- 2.14. Concept of Quality Circle
- 2.15. Japanese 5S Principle
- 2.16. 8D Methodology

QUESTIONS

UNIT 3 STATISTICAL PROCESS CONTROL AND PROCESS CAPABILITY

- 3.1. Control Charts for Variables
 - 3.1.1. The General Theory of Control Chart
- 3.2. Variations due to assignable causes
 - 3.2.1. Chance Variations (Random Variations)
- 3.3. Definition of Control Chart
- 3.4. Commonly Used Control Charts for Variables
 - 3.4.1. Some possible Objectives of the Control Charts
- 3.5. Control Charts for Variables : Frequency of Sampling
 - 3.5.1. Control Limits
 - 3.5.2. Chance of Making an Error
 - 3.5.3. Starting the Control Charts
- 3.6. Some Control Chart Patterns
- 3.7. Process Capability Analysis
 - 3.7.1. Control limits versus specification limits
 - 3.7.2. Process Capability
 - 3.7.3. Methods of Calculating Process Capability
 - 3.7.4. Basis of Process Capability Study
 - 3.7.5. **Problems and Solutions**
- 3.8. Comparison of X and R chart with P chart
- 3.9. Control Charts for Defects
 - 3.9.1. **Problems and Solutions**

- 3.10. Reliability
 - 3.10.1. Quality Control and Reliability
 - 3.10.2. Need for a reliable product
 - 3.10.3. Definitions of Reliability
 - 3.10.4. Elements of Reliability
 - 3.10.5. Failure Pattern for Complex Product
 - 3.10.6. Methods for Improving Design Reliability
 - 3.10.7. Cost of Reliability
- 3.11. Maintenance and Reliability
- 3.12. Availability
- 3.13. Quality and Reliability
- 3.14. System Reliability
 - 3.14.1. **Problems and Solutions**
- 3.15. TQM and Predictive Maintenance (TPM)
 - 3.15.1. Condition - Monitoring
 - 3.15.2. Methods for CBM (Condition-Based Maintenance)
for Monitoring Quality in the Process
 - 3.15.3. Choice of Equipment for CBM
 - 3.15.4. Vibration Monitoring in CBM
- 3.16. Control System for Planned Maintenance
- 3.17. Calibration for Maintenance
- 3.18. Total Quality of Maintenance
 - 3.18.1. Total Preventative Maintenance (TPM)
- 3.19. TQM and Total Safety Systems (TSS)
 - 3.19.1. TQM Based Approach to Safety Systems
 - 3.19.2. Combining TQM and Safety with TPM
- 3.20. Business Process Reengineering
 - 3.20.1. What is Reengineering ?
 - 3.20.2. Why Reengineering ?
- 3.21. History and Development of Business Process Reengineering
- 3.22. Principles of Reengineering
 - 3.22.1. Application of Reengineering
 - 3.22.2. Process Reengineering in a Manufacturing Organisation
 - 3.22.3. BPR project at Ford Motor Company
 - 3.22.4. The Essence of Reengineering
- 3.23. The Three R's Reengineering
- 3.24. Requirement of Reengineering Process

- 3.25. Reengineering in the Service Industry
 - 3.25.1. The Impact of Reengineering on the Service Industry
- 3.26. Quality and Reengineering
 - 3.26.1. The Reengineering Process
 - 3.26.2. iSi Kaizen Movement of Japanese 5 iSi approach
 - 3.26.3. MUis Checklist
- 3.27. Value Analysis (VA)
- 3.28. Measures of Design Quality

QUESTIONS

UNIT 4 TOOLS AND TECHNIQUES FOR QUALITY MANAGEMENT

- 4.1. Quality Function Deployment (QFD)
 - 4.1.1. Introduction of Quality Function Deployment (QFD)
 - 4.1.2. Definition of QFD
 - 4.1.3. Objectives of QFD
 - 4.1.4. Process of QFD
 - 4.1.5. Benefits of QFD
- 4.2. The House of Quality (HOQ)
- 4.3. QFD Methodology
 - 4.3.1. Constructing the House of Quality
- 4.4. Failure Mode and Effect Analysis (FMEA)
 - 4.4.1. About FMEA
 - 4.4.2. FMEA Methodology
 - 4.4.3. FMEA Analysis
 - 4.4.4. Output of FMEA
 - 4.4.5. The Concept of RPN
 - 4.4.6. Examples of Failure Mode and Effects Analysis (FMEA)
- 4.5. Fault Tree Analysis (FTA)
 - 4.5.1. Steps in FTA
 - 4.5.2. Symbols in FTA
 - 4.5.3. Estimation of Failure Probabilities
- 4.6. Taguchiís Approach
 - 4.6.1. Taguchiís Off-Line Approach to Quality
 - 4.6.2. Design of Experiments (DoE)
- 4.7. Tool Kit for TQM
 - 4.7.1. Tools for Process Management (Problem Solving)
 - 4.7.2. Seven Old Statistical tools
- 4.8. New Q-7 Tools

- 4.9. Benchmarking
 - 4.9.1. Definition of Benchmarking
 - 4.9.2. Development of Benchmarking
 - 4.9.3. Types of Benchmarking
 - 4.9.4. Processes involved in Benchmarking
 - 4.9.5. Benefit from Benchmarking
- 4.10. Poka Yoke
 - 4.10.1. Characteristics of Poka Yoke
 - 4.10.2. Levels of Poka Yoke
 - 4.10.3. Classification of Poka Yoke
 - 4.10.4. Principles of Poka Yoke
 - 4.10.5. Poka Yoke devices
 - 4.10.6. Steps of Poka Yoke
 - 4.10.7. Benefits of Poka Yoke
 - 4.10.8. Limitations of Poka Yoke

QUESTIONS

UNIT 5 **QUALITY SYSTEMS ORGANIZING AND IMPLEMENTATION**

- 5.1. Introduction to ISO
- 5.2. ISO 9000 Standards
- 5.3. Steps in ISO 9000 Registration
- 5.4. Benefits of ISO 9000 series
- 5.5. ISO 9004:2000
- 5.6. Implementing a quality system
- 5.7. Quality Audit
- 5.8. TQM Culture
- 5.9. Quality Council
- 5.10. Employee Involvement
 - 5.10.1. Employee Motivation
 - 5.10.2. Employee Empowerment
 - 5.10.3. Recognition and Reward
- 5.11. Role of Information Technology in Quality Management
 - 5.11.1. Computers and Quality Functions
 - 5.11.2. Internet and Electronic Communications
 - 5.11.3. Quality Information System (QIS)
 - 5.11.4. Information Quality Issues

QUESTIONS

CASES

- Case 1 Implementing TQM in the Classroom : Removing Fear
- Case 2 MLE Consulting
- Case 3 Introduction and Implementation of Total Quality Management (TQM)
- Case 4 Six Sigma Case Study : Converting Paper to Electronic Documents

APPENDIX : IMPORTANT CONCEPTS IN TQM

MODEL QUESTION PAPER
