Table of Contents

Unit I: SQL

Chapter 1: Introduction to SQL 3

Components of SQL 6

Data Definition Language 6

Data Manipulation Language 6

Query Language 7

Data Control Language 7

Transaction Control, Session Control, and System Control 8

Starting SQLPLUS 8

Data Definition Language 9

Data Manipulation Language 12

Inserting Data in Table 12

Inserting Null Values 13

Retrieving Data 15

Retrieving Data from a Single Table 15

Retrieving Data of Selected Columns 16

Writing a Query 18

Understanding Datatypes 20

TIMEZONE and **TIMESTAMP** 25

Table Limits 26

Modifying a Table 26

Chapter 2: Set Operations 31

Basic Set Operations 33

Union Operation 33

Intersect Operation 34

Minus Operation 34
Other Set Operations 38
The **In** Clause 38
The **EXISTS** Clause 41
Using Multicolumn Subqueries 45
Retrieving Data from Multiple Tables 46
Using Cartesian Product 46
Self Join (Using Alias of Tables) 51

Chapter 3: SQL Operators 55
SQL Value Operators 57
SQL Logical Operators 59
SQL Query Expression Operators 64
SQL Functions 65
Number Functions 66
Character Functions 67
Date Function 69
Other Functions 70
Pseudo-Columns 71
Pseudo-Column **LEVEL** 71
Pseudo-Column **ROWID** 71
Pseudo-Column **ROWNUM** 72
Pseudo-Column **ROWSCN** 73
Pseudo-Column **SYSDATE** 74
Pseudo-Column **UID** 74
Pseudo-Column **USER** 74
Defining Single and Double '&' Variables 75

Chapter 4: Aggregate Functions and Group By Clause 77
Aggregate Functions 79
Group By Clause 82
Having Clause 83
Using **With** Clause 85
Order By clause 85

Chapter 5: Updating and Deleting Data in Existing Table (DML) 89
The **Update** Statement 91
The **Delete** Statement 95

Deleting Row from a Table (DML) 95
Dropping the Table 96
Renaming the Table 96
Inserting Data Using Query (DML) 97
Creating Table Using Query 98

Chapter 6: Views 99
Creating Views 101
Synonyms 103
Miscellaneous Facilities of **Sqlplus** 104
Creating Reports with **Sqlplus** 104
Giving Title Output 104
Showing Timing in Output 107
Outputting Data to File or Printer 107
Computing Data at the Time of Output 109
Defining Specification for Printing Columns 110
Formatting Data 112
Formats 112
Footer of the Report 114
Performing Action During Printing 115

Chapter 7: Assignment-I 117
Assignment No. 1 119
Assignment No. 2 120
Assignment No. 3 121
Join or Cartesian Product 121
Assignment No. 4 123
Assignment No. 5 126
Assignment No. 6 128
Assignment No. 7 130
Assignment No. 8 133

Chapter 8: Assignment-II 137
Inserting Data into the Tables 143
Simple Exercises 145
Cartesian Product Exercises 150
Renaming Exercises 153

IN/EXIST Exercises 155
Aggregate Function Exercises 159
Date Function Exercises 164
SQL Function Exercises 166
Delete/Update Exercises 169

Chapter 9: Advanced Queries 165
Hierarchical Queries 167
Using Pseudocolumns 171
Advanced Queries 181
Running **sum** 181
Additional Queries Based on Running **Sum** 185
Data Transformation using **DECODE** 190

Chapter 10: Integrity Constraints 193
Domain Constraints 195
Key Constraints 197
Primary Key 198
Unique Key 198
Foreign Key 200
Implementation of Foreign Key 202
Enabling/Disabling a Constraint 204
Enabling a constraint 205
Novalidate Clause 207
Initially Immediate Deferrable 207
Updatable Join Views 208

Chapter 11: Analytical Queries 211
Analytical Functions 213
RANK Function 214
Syntax of **RANK** 215
Use of Partition 217
DENSE_RANK Function 217
Ordering on Multiple Expressions 218
TOP_N Function 218
CUME_DIST Function 219
PERCENT_RANK Function 219

NTILE(N) Function 220
ROW_NUMBER Function 220
Windowing Functions 221
Syntax of Windowing Functions 221
Finding the Cumulative Sum of Amount Channel Wise 223
Finding the Sales of Last Date Channel Wise 224
Finding the Moving Average 224
Calculate 7 Days' Moving Average 225
Calculating Average of Previous Row and Current Row 225
Variable-Size Window 226
Reporting Functions 227
Syntax of Reporting Function 227
Finding Out the Ratio of Channel Sale to Maximum Sale 228
RATIO_TO_REPORT Function 228
Syntax of **RATIO_TO_REPORT** 228
LAG/LEAD Functions 229
Syntax of **LAG/LEAD** function 229
FIRST/LAST Functions 231
Syntax of **FIRST/LAST** 231
Regression 232
Inverse Percentile Functions 234
Syntax of **PERCENTILE** functions 235
Hypothetical Rank 236
Syntax of the Hypothetical Rank 236

Chapter 12: Understanding ROLLUP and CUBE 239
Understanding **ROLLUP** 241
Using Partial Rollup 243
Understanding **CUBE** 245
Using Partial Cube 246
Grouping Set 247
Grouping Clause 248

Chapter 13: Understanding Joins 251
Natural Join 253
Cross Join 254
Using(Column) Clause 255

On Clause 256
Outer Join 257
Full Outer Join 259
Generating Histogram Using Decode 259

Chapter 14: Scalar Subqueries 261
Use of Scalar Subquery in **SELECT** Clause 263
Use of Scalar Subquery in **WHERE** Clause 263
Use of Scalar Subquery in **Order by** Clause 264

Chapter 15: Case Expressions 265
Simple **CASE** Statement 267
Searched **CASE** Statement 268
NULLIF Function 268
COALESCE Function 268

Chapter 16: Multitable Insert and Merge 271
Multitable **Insert** Statement 273
Unconditional **Insert** Statement 273
Pivoting **Insert** Statement 275
Conditional **INSERT** Statement 275
INSERT FIRST Statement 277
Merge Statement 277

Chapter 17: Regular Expression 281
Specifying Patterns using Regular Expressions 283
Metacharacters 283
Using **REGEXP_SUBSTR** FUNCTION 288
Using **REGEXP_REPLACE** Function 292
Using **REGEXP_LIKE** 295

Chapter 18: Statistical Functions 297
Variance 299
Covarince 300
Correlation 301
Spearman Rank-Correlation Coefficient 301
Other Correlation Coefficients 304
Analysis of Variance (ANOVA) 305

Chi-Square 308
F_Test 310
KS_TEST (Kolmogorov-Smirnov Test) 312
MODE 313
Mann-Whitney Test (**MW_TEST**) 313
Wilcoxon Signed-Rank Test (**WSR_TEST**) 316
BIONOMIAL_TEST 319

Chapter 19: Model Queries **321**
Construction of Model Query 323
Additional Clauses in Model Query 324

Chapter 20: SQL Quiz **333**
DATATYPES 335
JOINS 335
SET Operation 335
Miscellaneous 335
All about **UPDATE**, **DELETE**, **INSERT** 336
CONSTRAINTS 336
Analysis Queries 337
VIEWS 337
JOINS, **Scaler** Subqueries, **MERGE** Statement 337

Unit II: PL/SQL

Chapter 21: PL/SQL Program Features **341**
Block-Structured Language 344
Block Structure 344
Declarative Part 345
Work area **Cursor** 346
FOR Loop in Cursor 346
Cursor Variables 346
What are Attributes? 347
About Control Structures 348
Conditional Control 348
Interative Control 348
Modularity 350

External Procedures....351
Package....351
Data Abstraction....352
Collections....353
Records....353
Object types....354
Information Hiding....354
Information Hiding for Algorithm....354
Information Hiding for Data structures....354
Error Handling....355
Architecture of PL/SQL....355
PL/SQL Engine in the Oracle Sever....355
Database Triggers....356
PL/SQL Engine in Oracle Tools....356
Advantages of PL/SQL....356
Support for SQL....356
Support for Object Oriented Programs....356
Better Performance....356
Portability....357
Higher Productivity....357
Integration with Oracle....357

Chapter 22: PL/SQL Datatypes....359

Lexical Units....361
Delimiters....362
Identifiers....363
Reserved Words....364
Predefined Identifiers....365
Quoted Identifiers....365
Literals....365
Comments....366
Datatypes....367
Scalar Datatypes....368
LOB types....374
User Defined Subtypes....375
Defining Subtypes....375
Using Subtypes....376

Type Compatibility 376
Datatype Conversion 377
Explicit Conversion 377
Implicit Conversion 377
Implicit vs. Explicit Conversion 378
Declarations 379
DEFAULT Value 379
NOT NULL Type 379
Forward Reference 380
Using %**Type** 380
Using %**ROWTYPE** 381
Aggregate Assignment 381
Using Aliases 382
Restrictions on Forward References 383
Naming Conventions 383
Scoping 383
Case Sensitivity 384
Name Resolution 384
Scope and Visibility 385
Assignment 387
Database Value 388
Expressions and Comparisons 388
Logical Operators 389
Order of Evaluation in **AND** 389
Order of Evaluation in **OR** 390
Comparison Operator 390
Relational Operator 390
IS NULL Operator 391
LIKE Operator 391
BETWEEN Operator 391
In Operator 391
Concatenation Operator 392
Boolean Expression 392
Functions 395
Built-in Functions in PL/SQL 395

Chapter 23: Understanding Control Structure 397

Conditional Control Statements 399

IF.....THEN.....ENDIF Statement 399

IF…..THEN…..ELSE Statement 401

IF…..THEN…..ELSIF Statement 401

Iterative Statements 404

FOR.....LOOP.....END LOOP Statement 404

EXIT Statement 409

WHILE.....LOOP.....END LOOP 410

LOOP ….. END LOOP Statement 411

Unconditional Branching Statement 413

Sequential Control Statement 416

Chapter 24: Interaction with Oracle 419

SELECT.....INTO Statement 421

Cursor 424

Cursor Declaration 424

Opening a Cursor 425

Understanding the Code 425

Fetching Rows from **Cursor** 426

Closing a **Cursor** 428

Using Cursor **FOR** Loops 429

Substituting Subqueries in Place of Cursor 432

Using Aliases for Fields 433

Passing Parameters for Cursor 433

Cursor Attributes 435

%FOUND Attribute 436

%NOTFOUND Attribute 438

%ISOPEN Attribute 438

%ROWCOUNT Attribute 439

Implicit **Cursor** Attributes 440

%FOUND Attribute 440

SQL%ISOPEN Attribute 442

SQL%NOTFOUND Attribute 442

SQL%ROWCOUNT Attribute 442

Cursor Variables 443

Understanding the Code 444

Weakly Typed **Cursor** 445
Opening a **Cursor** Variable in Stored Procedure 446
Fetching Data from **Cursor** 450
Closing the **Cursor** 450
Reducing Network Traffic by using **Cursor** Variables 450
Cursor Expressions 459
DDL and Dynamic SQL 461
Transaction Control Statements 461
Rollback Statement 463
Statement **Rollback** 464
Save Point 465
Read Only Transactions 466
Restrictions 467
Returning Clause and Single Set Aggregate 471
Using **WITH CHECK OPTION** 473
SQL Facility in PL/SQL 473
Exercises 474

Chapter 25: Collections and Records 477

Varray and Nested Table Structure 479
Declaring Collections 481
Initializing Collections 482
Referencing Collection Elements 485
Assignment Operation 486
Comparing Collections 488
Operation on Whole Collections 488
INSERT Operations 489
UPDATE Statement 489
DELETE Statement 490
SELECT.....INTO Statement 490
Operations on **VARRAY** 491
INSERT Statement 491
UPDATE Statement 491
DELETE Statement 492
SELECT..... INTO Statement 492
Manipulating Individual Element in Nested Table 493
INSERT Statement 493

UPDATE Statement 493
DELETE Statement 493
SELECT.....INTO Statement 494
Manipulating Individual Elements in **VARRAY** 494
INSERT Operation 494
UPDATE Statement 495
DELETE Statement 496
Retrieving Elements 497
Collection Methods 497
EXISTS (n) Function 498
COUNT Function 498
LIMIT Function 498
FIRST Funtion 499
LAST Function 499
PRIOR(n) Function 499
NEXT(n) Function 499
EXTEND(n,i) Function 501
TRIM(n) Function 502
DELETE(m, n) Function 503
Use of Methods to Parameters 505
Built-in Exceptions 505
Records 506
Record Definition 506
Accessing Fields in the Record 507
Operations on Records 508
Using Collections as Input and Output 510
PL/SQL Table or Associative Array 513
Bulk Operations 514
Concept of Bulk operations 514
Use of **FORALL** Statement 514
FORALL Statement for Object Tables 516
Use of **%BULK_ROWCOUNT** 517
Fetching into Multiple Collections 519
Cast and Multiset operators 521

Chapter 26: LOB, BFILE, and DBMS_LOB 525
New Data types (**LOB**) 527
BLOB Datatype 527

CLOB and **NCLOB** 527
BFILE 527
Creating **LOB** 527
Inserting **LOB** Columns 528
Copying **LOB**s 528
LOB Locator 529
Reading **LOB** value 529
Deleting **LOB** 529
Updating **LOB** 529
LOB Locators Across Transactions (For Read Operation) 533
LOB Locators Across Transactions (For Write Operation) 534
EMPTY_BLOB and **EMPTY_CLOB** Functions 536
BFILE 536
Creating **BFILE** 537
Updating **BFILE** 537
Deleting **BFILE** 537
Scope of a **BFILE** Locator 537
Directory Object 537
Information about Directories 538
Guidelines for **DIRECTORY** Usage 538
BFILENAME() Function—Use of Directory Object 538
The **DBMS_LOB** Package 539
Exceptions 540
Procedures/Functions 541
Hints for Using **DBMS_LOB** Package 550

Chapter 27: Objects and Object Types 551

Concept of Object 553
Methods 554
Constructor Method 554
Comparison Method 554
Using Static Methods and Attributes 558
Inheritance in PL/SQL 558
Method Overriding 560
The **Not Instantiable** Clause 562
Object Table 563
REF Datatype 565

Creating Table of **REF** 566
Name Resolution....573
Table Function 574
Pragma Restrict References 576

Chapter 28: Sample Programs-I....577

Chapter 29: Sample Programs-II....595

Chapter 30: Error Handling 605
Exceptions.... 607
Utility of Exceptions 608
Built-in Exceptions.... 609
User-defined Exceptions 611
Declaring an Exception 611
Scope Rules 612
Pragma **EXCEPTION_INIT**.... 613
RAISE_APPLICATION_ERROR Procedure.... 614
Raising an Exception 615
Propagation of an Exception 616
Case 1—When the Exception is Handled in the Current Block 616
Case 2—When an Exception is Handled in the Outer Block 617
Case 3—Unhandled Exception 617
Case 4—Propagation of Exception that is not Declared 617
Reraising Exception.... 618
Handling Exceptions.... 618
Exceptions Raised in Declarations.... 620
Exception Raised in Handler....620
Use of **GOTO** Statement in Exception Handler....621
SQLCODE and **SQLERRM** Function 621
Unhandled Exceptions.... 623
Guidelines for Handling Errors 623
Continuing after Error has Occurred....623
Using Locator Variable....624
Retrying Transactions....625

Chapter 31: Subprograms in PL/SQL....627
Procedure.... 630

Functions ... 631
Subprogram Declaration ... 633
Forward Declaration ... 633
Subprogram Declaration in Package ... 634
Stored Subprograms ... 635
Parameters ... 635
Method for Passing Actual Parameters ... 636
Mode of Passing Parameters ... 637
Default Values ... 639
Aliasing ... 640
Overloading ... 641
Restrictions While Overloading ... 642
Resolving Subprograms Calls ... 643
Built-in Functions ... 644
Recursion ... 644

Chapter 32: Package ... 667

Package ... 672
Package Body ... 672
Advantages of Packages ... 673
Package Specification ... 673
Referencing Package Element ... 674
Overloading ... 675
Serially Reusable Packages ... 677
Packages Supplied by Oracle ... 680

Chapter 33: Trigger (Database) ... 683

Sample Trigger ... 685
Referring **:new** and **:old** Values ... 686
Trigger Concept ... 688
Statement-Level Atomicity ... 689
Savepoint ... 689
Restriction on Trigger Code ... 690
Row Evaluation Order ... 690
Mutating and Constraining Table ... 693
Case Studies ... 695
Generating Primary Key Based on Max Value of Column ... 695

Implementing Update Cascade Functionality Using Trigger....697
Reversing Update....699
Deleting Cascade....700
Altering Trigger....701
Enabling and Disabling Trigger....701
Information on Triggers....702

Chapter 34: Autonomous Transaction....703
Concept of Autonomous Transaction....705
Behavior of **SERIALIZABLE** Transaction....707
Autonomous Triggers....709
Calling Autonomous Functions from SQL....710

Chapter 35: Important PL/SQL Packages....713
DBMS_SQL Package....715
Deciding Procedure Execution at Runtime....717
Dynamic SQL Using Native Dynamic SQL....719
Using DDL in PL/SQL Program....720
Dynamic Single Row Query....721
Dynamic Multiple Row Query....722
Native Dynamic SQL and the **DBMS_SQL** Package....723
DBMS_SESSION Package....728
DBMS_SESSION Procedures and Functions....728
DBMS_PIPE Package....731
Writing and Reading Pipes....733
Private Pipes....733
Uses of Pipe....733
DBMS_PIPE Procedures and Functions....734
DBMS_ALERT Package....736
DBMS_ALERT Procedures and Functions....738
DBMS_JOB Package....739
DBMS_JOB Procedures....740
UTL_FILE Package....741

Chapter 36: Object Views....743
Column Types in View....747
Object Datatype....747
Nested Table Datatype....748

REF Datatype....751
VARRAY Datatype....752

Chapter 37: Transaction Processing in Oracle....757
Concept of Transaction....759
Properties of Transaction (ACID)....759
Transaction in Oracle....760
Transaction States....760
Durability of Transaction....761
Problems in Providing Durability....761
Size of Volatile Storage....762
General Buffer Management....763
Writing of DBWR....764
Solution of Durability or Implementation of Commit....764
Concepts of Log File....765
Transaction Recovery Using Log File....765
Two Modes of Using Log Files....765
How Log File Decreases Disk Writes....766
Isolation Level Serializable....772
Serial Schedule....772
Non-Serial Schedules....772
Serializable....772
Read Only Transaction....776
Discrete Transaction....776

Chapter 38: Locking in Oracle....777
Basic Concept of Locking....779
Deadlock....780
Detecting Blocking Transactions....782
Using Package **DBMS_LOCK**....784

Chapter 39: Rollback Segments....787
What is Rollback Segment?....789
Implementation of Read Consistency....790
Operation....790
Rollback Segment States....792
Space Allocation in Rollback Segments....794
Administrative Aspects in Rollback Segment....796

The Role of **OPTIMAL** Parameter in **Rollback** Segment....797
Rollback Segments Allocated to Each Session....798
Making **ACTIVE ROLLBACK SEGMENT** Offline....799

Chapter 40: UNDO Tablespace....803
Manual Mode....805
Auto **UNDO** Management (AUM)....805
Configuration....806
Management of **UNDO** Tablespace....806
Creating **UNDO** Tablespace....807
Using **CREATE DATABASE**....807
Using **CREATE UNDO TABLESPACE**....807
Altering **UNDO** Tablespace....808
Switching **UNDO** Tablespace....808
Dropping **UNDO** Tablespace....809
UNDO Retention....809
UNDO_suppress_errors....810
Performance Views....810
V$UNDOSTAT....810
V$ROLLSTAT View....811
V$TRANSACTION View....811
DBA_UNDO_EXTENTS View....811
Dictionary Managed Tablespaces....811
Why **UNDO** Tablespaces....811
Case1: Using Dictionary Managed **Roll Back Segment**....812
Case2: Using Rollback Segment in **UNDO** Tablespace....813
DDL Statements on Dictionary/Locally Managed Tablespaces....816
Tracking Changes in Database Using Triggers....817

Chapter 41: Invoker Rights and NOCOPY Clause....821
Understanding Invoker Rights....823
NOCOPY Clause....825

Chapter 42: Dependency Tracking in Oracle....829
Concept of Dependency....831
Understanding Scripts for Dependency Tracking....831

Chapter 43: FlashBack Queries 835
Use of Flashback Queries 837
Concept of Flashback Queries 837
Advantages of Flashback Queries 837
Flashback Table 843
Using Recycle Bin 849

Chapter 44: Sequence 855
Sequence Usage 857

Chapter 45: PL/SQL Wrapper 859
Utility of PL/SQL Wrapper 861
Wrapping Code Using PL/SQL Wrapper 861

Chapter 46: Oracle Expression Filter 863
Using Expression Filter 865
Experimentation 868

Chapter 47: Server Model for Bill Entry System 871
Table Definition 873
Customer Table 873
Items Table 873
Billcustomer Table 874
Billitems Table 875
Table Scripting 877
Creating Table **BILLITEMS – BILL.tab** 877
Creating Primary Key on **BILLITEMS – BILL.con** 878
Functionality 879
Sample Scripts 879
Package Specification for Table **BILLCUSTOMER – Billcust.pks** 879
Package Body for Table **BILLCUSTOMER – Billcust.pkb** 881
Package for Table BILLCUSTOMER – **billcust.trg** 902

Chapter 48: Security and Auditing 913
Creating User 915
External System Authentication 916
License Parameters 916
Privileges 917
List of Privileges 919

Role 928
Predefined Oracle Roles 935
Activation of System Privileges, Object Privileges, and Roles 936
Effect of Revoking Privilege and Dropping User 939
Profile 942
Creation of Profile 943
Composite Limit 944
Setting Password Parameters 945
Auditing 947
Setting Parameter **AUDIT_TRAIL** 947
Type of Auditing 949
The **DBA_STMT_AUDIT_OPTS** View 956

Chapter 49: PL/SQL Questions 957
Datatypes 959
Control Structure 959
Collections 959
Interaction with Oracle 959
Triggers 959
Procedures, Packages, and Objects 960
PL/SQL Packages 961
Autonomous Transactions 961
Exception 962
Transactions 962
RBS, UNDO 962
Locks 963
Flashback, Invoker Rights, Nocopy, PL/SQLwrapper 963
Security and Auditing 964

Appendix A: Tables 965

Index 977
