

# Table of Contents

<b>Introduction</b> .....	<b>xxvii</b>
<b>Chapter 1: Overview of SQL Server 2005</b> .....	<b>1</b>
Features of SQL Server 2005.....	1
Enhancements in SQL Server 2005.....	2
Functional Enhancements.....	3
Indexing Enhancements.....	5
Table and Views Enhancements.....	9
Table and Index Partitioning.....	11
Snapshots.....	14
Enhancements to Data Integrity .....	28
Page Verification Scheme .....	28
ADO.NET Enhancements .....	29
Server-Side Cursors .....	29
<b>Chapter 2: Installing and Upgrading to Microsoft SQL Server 2005</b> .....	<b>33</b>
SQL Server Instances .....	33
Default Instance.....	33
Named Instance.....	33
SQL Server Services .....	35
SQL Server Editions.....	36
MS SQL Server 2005 Installation .....	36
System Requirements .....	37
Pre-Installation .....	37
Installation Process .....	38
SQL Server Program Suite .....	48
Upgrading to SQL Server 2005 from Previous SQL Versions .....	49
Rebuilding the Master Database .....	51
Unattended Installation .....	51
Uninstalling SQL Server 2005 .....	54
Control Panel .....	54
Registry .....	54

<b>Chapter 3: SQL Server Tools .....</b>	<b>55</b>
SQL Server Management Studio .....	55
Tool Windows in SQL Server Management Studio .....	56
Managing Servers .....	62
Registering a Server .....	62
Editing the Properties of a Previously Registered Server .....	64
SQL Server Properties .....	65
Exploring the Components of Object Explorer .....	66
Databases .....	66
Security .....	68
Notification Services .....	69
Replication .....	69
Management .....	69
Support Services .....	72
Configuring Multiserver Administration .....	73
Creating a Database .....	74
Database Properties .....	74
Creating Database Diagram .....	81
Creating a New Table .....	82
Creating a New Database View .....	83
Creating a Synonym .....	85
Creating a Database User .....	86
Importing and Exporting Data .....	87
Generating SQL Scripts .....	87
Backing up a Database .....	87
Restoring a Database .....	89
Shrinking the Database .....	90
Business Intelligence Development Studio (BIDS) .....	91
SQL Server Configuration Manager .....	94
Managing Services of SQL Server .....	95
Managing Server and Client Network Protocols .....	96
Changing the Service Accounts .....	96
Analysis Services Tools .....	96
Deployment Wizard .....	96
The Instance Rename Tool .....	97
Analysis Services Migration Wizard .....	97
SQL Server Surface Area Configuration .....	99
Reporting Services Configuration .....	100
<b>Chapter 4: Database Design .....</b>	<b>101</b>
<i>In Depth</i> .....	<b>103</b>
Entities, Relationships, and Attributes Model .....	103
Entities .....	103
Relationships .....	103

---

Attributes.....	103
Data Integrity .....	104
Entity Integrity .....	104
Domain Integrity.....	104
Relational Integrity .....	104
Estimating Database Size.....	105
Rules of Normalization .....	106
First Normal Form .....	106
Second Normal Form .....	107
Third Normal Form.....	107
Fourth Normal Form.....	107
Fifth Normal Form.....	107
Key Values.....	108
Indexing Decisions.....	108
Sort Order Selection.....	109
<b>Immediate Solutions .....</b>	<b>110</b>
Database Design Steps .....	110
Research and Information Gathering .....	110
Identify the Objects.....	111
Create a Model of the Objects .....	111
Identify the Attributes of Each Object .....	111
Identify the Relationships between the Objects .....	112
Repeat and Review All Design Steps.....	112
Creating Primary and Foreign Keys .....	112
Indexing Strategies to Support the Data Model.....	113
Estimating Database Size.....	114
<b>Chapter 5: Introducing Structured Query Language (SQL).....</b>	<b>123</b>
<b>In Depth .....</b>	<b>125</b>
ANSI-Compliant SQL.....	125
SQL Syntax.....	126
Comments in SQL.....	126
Formatting in SQL .....	127
<b>SELECT</b> Statements.....	127
<b>FROM</b> Clause Enhancement.....	131
<b>Where</b> Clause.....	131
<b>ORDER BY</b> Clause .....	133
<b>GROUP BY</b> Clause.....	134
<b>OUTPUT</b> Clause .....	136
<b>EXCEPT</b> and <b>INTERSECT</b> Clauses .....	137
<b>JOIN</b> Conditions .....	138
Aliases .....	140
Aggregate and Functions.....	141
<b>SUM()</b> Function.....	141

## Table of Contents

---

MAX() Function .....	142
MIN() Function .....	142
AVG() Function.....	142
COUNT() Function.....	142
CONVERT() Function .....	142
GETDATE() Function .....	143
DATEDIFF() Function .....	143
DATEPART() Function .....	143
SOUNDEX() Function .....	143
SUBSTRING() Function.....	143
LEFT() and RIGHT() Functions .....	143
UPPER() Function.....	144
CHARINDEX() Function .....	144
RTRIM() and LTRIM() Functions .....	144
LEN() Function .....	144
REPLICATE() Function .....	144
SPACE() Function.....	144
REPLACE() Function .....	144
STR() Function .....	145
CHAR() Function.....	145
ASCII() Function.....	145
System Functions .....	145
ISNULL() Function.....	145
COALESCE() Function.....	145
USER_ID() Function .....	146
USER_NAME() Function .....	146
DATALENGTH() Function .....	146
COL_LENGTH() Function.....	146
CONVERT() Function .....	146
Ranking Functions .....	146
Calculated Values .....	147
Optimizer Hints.....	149
Subqueries .....	151
UNION Operator.....	152
INSERT Statements.....	152
Identity Column.....	154
Stored Procedures .....	155
Triggers.....	155
UPDATE Statements .....	155
DELETE Statements .....	156
Common Table Expressions.....	157
PIVOT and UNPIVOT Operators .....	158
Working with Synonyms .....	159

EXECUTE Command .....	160
Batches .....	160
Cursors .....	162
Using TOP Operator .....	165
<b>Immediate Solutions .....</b>	<b>166</b>
Using GROUP BY and HAVING .....	166
Joining Tables .....	167
Cross-Databases Joins .....	168
Using INSERT/SELECT .....	169
Creating a Worktable using SELECT INTO .....	170
Using CTEs to Execute Complex Queries .....	171
<b>Chapter 6: Databases in SQL Server 2005 .....</b>	<b>173</b>
<b>In Depth .....</b>	<b>175</b>
Entities .....	175
Relationships .....	175
Attributes .....	176
Clustered Indexes .....	176
Primary and Foreign Keys .....	176
Address Database .....	177
Tbl_AddressDN Entity .....	178
Tbl_Address Entity .....	180
Tbl_City Entity .....	181
Tbl_State Entity .....	181
Tbl_ZipCode Entity .....	182
Employee Database .....	183
Tbl_Employee Entity .....	184
Tbl_EmployeeRates Entity .....	186
Tbl_Meeting Entity .....	187
Tbl_MeetingPeople Entity .....	188
Tbl_EmployeeAdressXref Entity .....	189
Utility Database .....	189
Tbl_Codes Entity .....	191
Tbl_CodeGroup Entity .....	192
Tbl_Registry Entity .....	193
Tbl_ErrorDetail Entity .....	194
Tbl_Errorlog Entity .....	195
Tbl_ErrorNotifyXref Entity .....	196
Tbl_Process Entity .....	197
Tbl_ProcessLog Entity .....	199
Tbl_ProcessSteps Entity .....	200
Tbl_ProcessStepsLog Entity .....	202
<b>Immediate Solutions .....</b>	<b>204</b>
Installing the Databases from Scripts .....	204

## Table of Contents

---

Installing <b>Address</b> Database .....	204
Installing <b>Employee</b> Database .....	206
Installing <b>Utility</b> Database .....	208
Refreshing the Databases from CD .....	209
Detaching a Database .....	210
Copying a Database .....	211
Attaching a Database .....	212
Reverse Engineering a Database Diagram .....	214
Creating <b>Address</b> Databases .....	214
Populating Data with Scripts .....	216
Populating Address .....	216
Populating Employee .....	217
Utility .....	218
Scripting Database Objects .....	218
Transferring Objects with Scripts .....	220
Using a Codes Table .....	220
Using Registry Table .....	221
<b>Chapter 7: Introducing T-SQL .....</b>	<b>223</b>
<b><i>In Depth</i> .....</b>	<b>225</b>
The Power of Transact-SQL .....	225
List Driven Processing .....	225
Using an <b>IN</b> List .....	225
Using <b>Cross-Join</b> .....	227
Using <b>INNER JOIN</b> .....	228
Using <b>OUTER JOIN</b> .....	229
Using <b>LEFT OUTER JOIN</b> .....	229
Using <b>RIGHT OUTER JOIN</b> .....	229
Using <b>FULL OUTER JOIN</b> .....	230
Performing Self-Join .....	230
Using Derived Tables .....	230
Merging Resultsets with <b>Union</b> .....	231
Getting More from <b>WHILE</b> Loops .....	231
Using <b>APPLY</b> .....	234
Using <b>CROSS APPLY</b> .....	235
Using <b>OUTER APPLY</b> .....	236
Summarizing Data .....	236
Using <b>WITH CUBE</b> .....	237
Using <b>WITH CUBE</b> in <b>GROUPING</b> .....	237
Padding and Justifying Data .....	238
Formatting Output .....	239
Building a Report String .....	239
Using a <b>CASE</b> Statement to Translate Code Values .....	241
Using the <b>HAVING</b> Clause .....	242

Generating Test Data .....	243
Finding Orphaned Records .....	248
Debugging SQL Code.....	249
<b>Immediate Solutions .....</b>	<b>250</b>
Building and Executing Dynamic SQL.....	250
Importing Data from a Denormalized Table to a Normalized Structure .....	252
Consolidating Worktable Values using a <b>CASE</b> Statement .....	255
Creating an Impact Analysis Stored Procedure.....	258
Using <b>WITH ROLLUP</b> to Summarize Data .....	260
Data Scrubbing Techniques.....	261
<b>Chapter 8: Introducing Cursors.....</b>	<b>265</b>
<b>In Depth.....</b>	<b>267</b>
Cursor Basics.....	267
A Look at The Past.....	267
Enter the Relational Database .....	268
Meeting in the Middle.....	268
Writing ISAM Style Applications for SQL Server .....	269
Understanding the Cursor Models .....	269
API Cursors.....	270
Client-Side Cursors.....	271
Server-Side Cursors .....	271
Transact-SQL Cursors .....	272
Cursor Types.....	272
Base Table Cursors.....	272
<b>Static</b> Cursors .....	273
<b>FORWARD_ONLY</b> Cursors.....	273
<b>Keyset-Driven</b> Cursors.....	274
Dynamic Cursors .....	274
Implicit Type Conversion Warnings .....	275
Local and Global Cursors .....	276
Transact-SQL Syntax .....	277
<b>DECLARE</b> Cursor.....	277
<b>OPEN</b> Command .....	280
<b>FETCH</b> Command .....	280
<b>CLOSE</b> Cursor.....	281
<b>DEALLOCATE</b> Cursor.....	282
System Functions That Support Cursors.....	282
<b>CURSOR_STATUS</b> Function.....	283
<b>@@Cursor_Rows</b> Variable.....	284
<b>@@Fetch_Status</b> Variable .....	284
System Stored Procedures that Support Cursors .....	285
<b>sp_cursor_list</b> Stored Procedure .....	286
<b>sp_describe_cursor</b> Procedure .....	290

## Table of Contents

---

<b>sp_describe_cursor_columns</b> Procedure .....	291
<b>sp_describe_cursor_tables</b> Procedure.....	297
Cursor Related Database Options .....	300
Setting <b>CURSOR_CLOSE_ON_COMMIT</b> Option.....	300
Setting <b>CURSOR_DEFAULT LOCAL/GLOBAL</b> .....	301
Concurrency and Locking .....	301
<b>READ_ONLY</b> .....	301
<b>OPTIMISTIC WITH VALUES</b> .....	301
<b>OPTIMISTIC WITH ROW VERSIONING</b> .....	302
<b>SCROLL LOCKS</b> Option .....	302
Positional Updates and Deletes .....	302
<b>CURSOR_THRESHOLD</b> Option.....	303
Cursor Transaction Isolation Levels .....	303
Read Committed .....	303
Read Uncommitted.....	303
Repeatable Read or Serializable.....	304
Templates .....	304
<b>Immediate Solutions</b> .....	<b>305</b>
Updating Index Statistics on Multiple Tables .....	305
Performing Maintenance Tasks on Multiple Databases .....	307
Identifying Autogenerated Statistics on All User Tables .....	310
Performing Positioned Updates .....	314
Performing Positioned Deletes .....	318
Selecting a Random Employee .....	320
<b>Chapter 9: Stored Procedures</b> .....	<b>325</b>
<b>In Depth</b> .....	<b>327</b>
Consistent Data Manipulation.....	327
Entering Stored Procedures.....	327
Establishing Standards.....	327
Getting Data.....	329
Modifying Data .....	329
Modular Programming.....	330
Reduced Client Processing.....	330
Network Traffic.....	331
Statement-level Recompilation.....	331
Calling a Stored Procedure.....	332
Query Optimizer .....	333
Query Plan .....	333
Parameters.....	334
Variables.....	334
Windows NT Server Registry .....	336
Maintenance.....	337
Return Codes .....	338

Additional Rules .....	338
Nesting and Recursion.....	339
System Stored Procedures .....	339
Custom Stored Procedures.....	342
External Stored Procedures .....	344
Remote Stored Procedures .....	345
Startup Stored Procedures.....	345
<b>Immediate Solutions .....</b>	<b>347</b>
Registry Procedures.....	347
usp_GetKey Procedure .....	347
usp_GetKeyOut Procedure .....	347
usp_GetKeyList Procedure.....	348
usp_UPDKey Procedure .....	348
usp_DELKey Procedure.....	350
Code Table Procedures .....	351
usp_Add_Code Stored Procedure .....	351
usp_Delete_Code Procedure.....	352
usp_Add_Code_Group Procedure.....	353
usp_Delete_Code_Group Procedure.....	354
Address Procedures.....	355
usp_Add_Address Procedure .....	355
usp_Get_Zip_ID Procedure .....	356
usp_Get_State_ID Procedure.....	357
usp_Get_City_ID Procedure .....	358
usp_Delete_Address Procedure .....	359
Utility Procedures and Scripts .....	360
usp_BlockingProcs Procedure .....	360
usp_GetToken Procedure .....	362
sp_MSforeachdb Procedure.....	364
sp_MSforeachtable Procedure.....	365
sp_MSuniqueName Procedure .....	366
sp_MSindexspace Procedure .....	367
sp_MStablespace Procedure .....	367
xp_dirtree Procedure.....	368
xp_subdirs Procedure .....	369
xp_fixedrives Procedure.....	369
xp_fileexist Procedure.....	370
ChangePassword.sql Procedure.....	370
<b>Chapter 10: Triggers in SQL Server 2005 .....</b>	<b>373</b>
<b>In Depth .....</b>	<b>375</b>
Creating Triggers .....	375
Trigger Limitations .....	378
Transact-SQL Limitations.....	378

## Table of Contents

---

Altering Existing Triggers .....	378
Deleting Triggers.....	379
Creating Multiple Triggers.....	380
Specifying the Execution Order for <b>AFTER</b> Triggers .....	380
<b>INSTEAD OF</b> Triggers .....	381
<b>INSTEAD OF DELETE</b> Trigger .....	381
<b>INSTEAD OF INSERT</b> Trigger .....	382
<b>INSTEAD OF UPDATE</b> Trigger.....	382
DDL Triggers .....	383
Choosing a Particular DDL Statement to Fire a DDL Trigger .....	383
Choosing a Pre-Defined Group of DDL Statements to Fire a DDL Trigger.....	384
Nested Triggers .....	384
When Not to Use Triggers.....	384
Federated Data .....	385
Auditing.....	386
Monitoring and Notifications .....	386
Running Totals .....	386
Inserting Master Records.....	388
Cascading Referential Integrity Constraints.....	388
<b>ON DELETE NO ACTION</b> Option.....	388
<b>ON UPDATE NO ACTION</b> Option .....	388
<b>ON DELETE CASCADE</b> Clause.....	389
<b>ON UPDATE CASCADE</b> Clause .....	389
<b>ON DELETE SET NULL</b> Clause.....	389
<b>ON UPDATE SET NULL</b> Clause.....	389
<b>ON DELETE SET DEFAULT</b> Clause.....	389
<b>ON UPDATE SET DEFAULT</b> Clause .....	389
Cascading Updates .....	390
Cascading Deletes .....	391
Triggering External Processing Actions .....	392
Overriding Validation .....	392
Archiving.....	394
Maintaining Cross-Database Referential Integrity .....	395
CLR Triggers.....	395
Templates .....	396
<b>Immediate Solutions .....</b>	<b>397</b>
Creating Triggers to Maintain Cross-Database Referential Data Integrity .....	397
The Employee-Address Relationship .....	397
The Employee-Address Type Relationship .....	398
The Employee-Title Relationship .....	401
The Employee Notification-Preference Relationship .....	404
The Employee-Department Relationship .....	407
Creating <b>INSTEAD OF</b> Triggers for Inserts and Updates to a View .....	410

Inserting Address Information .....	410
Deleting Address Information .....	412
Updating Address Information .....	412
Implementing DDL Triggers .....	415
Using a Database-Scoped DDL Trigger .....	417
Using a Server-Scoped DDL Trigger .....	417
Implementing CLR User-Defined Triggers .....	418
CLR Trigger – an Example .....	418
<b>Chapter 11: Metadata in SQL Server 2005 .....</b>	<b>423</b>
<b><i>In Depth</i> .....</b>	<b>425</b>
Fundamentals of Metadata .....	425
Metadata is Abstract .....	425
Metadata has a Context .....	426
Metadata has More Than One Use .....	426
Metadata View .....	427
Compatibility Views .....	427
Catalog Views .....	428
Dynamic Management Views and Functions .....	433
Information Schema Views .....	438
Replication view .....	440
<b><i>Immediate Solutions</i> .....</b>	<b>443</b>
Using Metadata Views .....	443
<b>Chapter 12: Improving Performance .....</b>	<b>445</b>
<b><i>In Depth</i> .....</b>	<b>447</b>
Optimization Considerations .....	447
Server Optimization .....	447
Speed vs. Concurrency .....	448
Database Design .....	448
Legacy Systems .....	451
Testing and Documentation .....	452
Team Optimization .....	454
Optimization Tools .....	455
SQL Server Management Studio .....	455
SQL Server Profiler .....	456
Database Engine Tuning Advisor .....	461
Third-Party Tools .....	462
Optimizing for Speed .....	463
Indexes and Statistic Sets .....	463
Autogenerated Statistics .....	464
Covering Indexes .....	465
Inequality .....	466
Optimizer Hints .....	466
Dealing with NULLs .....	468

## Table of Contents

---

Pseudonormalization and Temporary Denormalization .....	469
Changing the Query Plan .....	469
Stored Procedures vs. Dynamic SQL.....	470
Manual Checkpoints.....	471
Temporary Tables vs. Permanent Tables .....	471
Joins .....	472
Cross Database/Cross Server Joins .....	473
<b>UNION vs. UNION ALL</b> .....	473
<b>IN vs. EXISTS vs. JOIN</b> .....	473
<b>NOT IN vs. NOT EXISTS vs. LEFT JOIN</b> .....	475
Cursors.....	477
Functions .....	477
<b>GROUP BY</b> and <b>ORDER BY</b> Operations .....	477
<b>INSERT, UPDATE, and DELETE</b> Operations .....	477
<b>COALESCE</b> Function.....	478
<b>Text in Row</b> Option.....	478
Optimizing for Concurrency .....	479
Types of Locks .....	479
Lock Escalation.....	480
Optimizer Hints .....	481
Transactions .....	482
Replication for Offline Reporting.....	482
Using Data-Bound Controls in Client Applications.....	483
Performance Enhancements.....	483
Performance Monitor Correlation.....	483
Using Statistics for Correlated <b>DATETIME</b> Columns .....	484
Improving Performance of Ordering for Tertiary Collations .....	486
<b>Immediate Solutions</b> .....	<b>488</b>
Examining an Execution Plan in the Query.....	488
Creating a Trace Template for Optimization.....	489
Running Traces for Optimization.....	492
Using Optimizer Hints to Control Behavior.....	493
Improving Query Performance Using a Covering Index.....	495
Changing the Execution Plan of a Query .....	496
Documenting Test Results.....	497
<b>Chapter 13: Security in SQL Server 2005.....</b>	<b>501</b>
<b>In Depth</b> .....	<b>503</b>
Understanding Authentication Modes.....	503
Windows Authentication Mode .....	503
SQL Server Authentication Mode .....	504
Mixed Authentication Mode .....	504
Surface Area Configuration.....	504
Remote Connections.....	504

Dedicated Administrator Connection .....	505
Database Mirroring.....	505
.NET Framework.....	505
Database Mail.....	506
SQLMail.....	506
Service Broker.....	507
HTTP Connectivity.....	507
Web Assistant.....	507
<b>xp_cmdshell</b> Procedure.....	507
Ad Hoc Remote Queries.....	508
OLE Automation XPs.....	508
SMO and DMO XPs.....	508
Principals and Securables .....	509
Principals.....	509
Securables.....	514
Permissions .....	516
Types of Permissions.....	516
Problems with Permissions.....	518
Code Access Security.....	521
Imperative and Declarative CAS.....	521
Using CAS.....	522
Application Roles.....	524
Password .....	525
Encryption.....	526
Encryption Hierarchy in SQL Server 2005.....	526
Antivirus Protection .....	530
Certificates and Web Services.....	530
<b>Immediate Solutions .....</b>	<b>531</b>
Granting and Revoking Permissions.....	531
Granting Permissions.....	531
Revoking Permission.....	539
Changing and Resetting Passwords .....	540
<b>Chapter 14: Error Handling in SQL Server 2005.....</b>	<b>545</b>
<b>In Depth.....</b>	<b>547</b>
Error Handling Approach.....	547
Error Handling Stored Procedure.....	548
Error Escalation.....	552
Centralized Error Management.....	553
Using Alerts and Operators.....	553
User-Defined Error Numbers.....	554
Implementing TRY/CATCH for Error Handling.....	554
<b>Immediate Solutions .....</b>	<b>556</b>
Creating an Error Handling Stored Procedure .....	556

## Table of Contents

---

Loading the Registry Table with Error Handling Key Values .....	557
Creating an Error Processing Stored Procedure .....	558
Implementing Error Handling in Stored Procedures and Triggers.....	562
Creating an Operator.....	564
Creating an Alert.....	565
Creating User-Defined Error Numbers .....	566
Using <b>RAISERROR</b> .....	567
Writing Error Information to the Event Log.....	568
<b>Chapter 15: Integrating .NET with SQL Server .....</b>	<b>569</b>
<b><i>In Depth</i></b> .....	<b>571</b>
Introducing .NET Integration .....	571
Need for CLR Hosting in SQL Server 2005.....	571
When to Use CLR Routines .....	573
Architectural Overview of .NET Hosting in SQL Server 2005 .....	573
.NET Programming Model in SQL Server 2005.....	574
New ADO.NET Features for SQL Server Hosting .....	574
New .NET Namespace for SQL Server 2005.....	574
Programming a CLR Stored Procedure.....	575
Starting SQL Server Project in Visual Studio 2005 .....	575
CLR Stored Procedure Anatomy .....	579
Adding Parameters to Stored Procedures .....	580
Defining the Problem .....	580
Using <b>SqlPipe</b> .....	581
Coding the Stored Procedure Body .....	581
<b><i>Immediate Solutions</i></b> .....	<b>583</b>
Testing and Debugging the CLR Stored Procedure .....	583
Testing the CLR Stored Procedure.....	583
Debugging the CLR Stored Procedure .....	584
Throwing Exceptions in CLR Routines .....	585
Implementing CLR User-Defined Types.....	586
Implementing the CLR User-Defined Functions .....	589
Implementing CLR User-Defined Aggregates.....	592
Deploying CLR Routines .....	596
<b>Chapter 16: Replication, SMO, and RMO .....</b>	<b>599</b>
<b><i>In Depth</i></b> .....	<b>601</b>
Introduction to Replication .....	601
Articles.....	601
Publications.....	601
Subscriptions.....	602
Filtering Data in Replication .....	603
Benefits of Replication.....	605
When and Why to use Replication.....	605
Databases Involved in Replication Process .....	606

Publisher .....	606
Subscriber .....	606
Distributor .....	606
Understanding Replication Process .....	607
Planning for Replication .....	607
Agents in Replication .....	608
Snapshot Agent .....	608
Distribution Agents .....	608
Log Reader Agent .....	609
Merge Agent .....	609
Queue Reader Agents .....	609
Types of Replication .....	610
Snapshot Replication .....	610
Transactional Replication .....	611
Merge Replication .....	613
Replication Models/Topologies .....	614
Central Publisher .....	614
Central Subscriber .....	615
Central Publisher with Remote Distributor .....	615
Multiple Publishers and Multiple Subscribers .....	616
Replication Security .....	617
Authentication .....	617
Authorization .....	617
Encryption .....	617
Implementing Replication .....	618
Configuring Replication .....	618
Publishing Data and Database Objects .....	618
Subscribing to Publications .....	618
Generating and Applying Initial Snapshots .....	619
Modify Replicated Data .....	619
Synchronize and Propagate Data .....	619
Introduction to SQL Server Management Object (SMO) .....	619
System Requirements .....	620
Installing SMO .....	620
SMO and SQL DMO .....	620
Connections in SMO .....	621
Classes in SMO .....	622
Assemblies in SMO .....	622
SMO Object Model .....	623
<b>StoredProcedure</b> Object .....	627
<b>Table</b> Object .....	629
<b>Column</b> Object .....	630
<b>Alert</b> Object .....	630

## Table of Contents

---

<b>Database</b> Object .....	631
<b>DatabaseOptions</b> Object .....	632
<b>Configuration</b> Object .....	633
Introduction to Replication Management Object (RMO) .....	633
Programming with RMO .....	636
<b>DistributionArticle</b> Object .....	637
<b>DistributionDatabase</b> Object .....	638
<b>DistributionPublication</b> Object .....	640
<b>DistributionPublisher</b> Object .....	641
<b>DistributionSubscription</b> Object .....	642
<b>MergeArticle</b> Object .....	643
<b>MergePublication</b> Object .....	645
<b>RegisteredSubscriber</b> Object .....	648
<b>ReplicationDatabase</b> Object .....	649
<b>ReplicationServer</b> Object .....	652
<b>SubscriberSubscription</b> Object .....	655
Connecting to Replication Server .....	656
Implementing RMO .....	656
<b>Immediate Solutions</b> .....	<b>658</b>
Creating SMO Application .....	658
Login and Connecting to SQL Server .....	659
Performing Common Database Tasks .....	661
Creating a New Database using SMO .....	662
Renaming Database using SMO .....	663
Backup Database using SMO .....	666
Restoring Database using SMO .....	669
Deleting Database using SMO .....	674
Retrieving Tables' Information using SMO .....	676
Retrieving Security Information using SMO .....	677
Retrieving Views' Information using SMO .....	678
Retrieving Synonyms Information using SMO .....	680
<b>Chapter 17: Implementing Integration Services</b> .....	<b>681</b>
<b>In Depth</b> .....	<b>683</b>
Integration Services .....	683
Integration Services Architecture .....	683
Objects of Integration Services .....	685
Package .....	685
Tools and Utilities in Integration Services .....	693
Integration Services and Studio Environments .....	693
SSIS Designer .....	693
Integration Service Wizards .....	694
Command Prompt Utilities .....	694
Query Builder .....	696

Expression Builder .....	696
<b>Immediate Solutions .....</b>	<b>697</b>
Creating a Custom Integration Services Package .....	697
Creating Integration Services Package using SSIS .....	697
Creating Integration Services Package using the Import and Export Wizard.....	704
Deploying a Custom Integration Services Package.....	710
Creating Package Configurations.....	710
Creating the Deployment Utility .....	714
Using Packages in Integration Services.....	715
Exporting Integration Services Package .....	715
Importing Integration Services Packages.....	718
<b>Chapter 18: Bulk Copy Program in SQL Server .....</b>	<b>723</b>
<b>In Depth .....</b>	<b>725</b>
Starting Simple .....	725
<b>BCP OUT</b> Command .....	726
<b>BCP IN</b> Command.....	727
Entering the Big Leagues .....	727
Authentication Switches .....	728
Cross-Version Migration Switches.....	729
Switches for Error Handling .....	729
Switches for Partitioning the Data .....	730
Input and Output File Format Switches.....	730
Optimization Switches .....	731
Special Insert Handling.....	731
Using Hints .....	732
Miscellaneous Switches.....	733
<b>QUERYOUT</b> Command .....	733
BCP Errors.....	734
Format Files.....	734
<b>BULK INSERT</b> Statement.....	737
<b>BULK INSERT</b> Default File Format .....	739
<b>BULK INSERT</b> Permissions .....	739
Executing the <b>BULK INSERT</b> Statement.....	740
<b>BULK INSERT</b> and Integration Services.....	740
Performing High-Speed BCP Operations .....	741
<b>Immediate Solutions .....</b>	<b>743</b>
Dropping and Creating Indexes .....	743
Creating a Login Data File with BCP.....	747
Deploying Logins on a New Server .....	749
Using <b>QUERYOUT</b> .....	752
Using Format Files .....	753

<b>Chapter 19: XML in SQL Server 2005 .....</b>	<b>757</b>
<b><i>In Depth</i> .....</b>	<b>759</b>
Markup Languages .....	759
Overview of XML.....	759
Applications of XML .....	760
XML and SQL Server.....	760
XML Classes.....	761
IIS Virtual Directories.....	763
Using HTTP to Access SQL Server.....	763
Accessing Database Objects .....	764
Introducing SQLXML.....	764
Configuring SQL Server.....	765
<b>OPENXML</b> Function.....	765
SQLXML: XML Views using Annotated XML Schemas .....	770
SQLXML Updategrams.....	772
XML Bulk Load .....	774
<b>SELECT</b> Statement Enhancements .....	775
The Server-Side <b>FOR XML</b> Clause.....	775
The Client-Side <b>FOR XML</b> Clause .....	776
XPath and XMLDOM.....	776
XPath Language Syntax .....	776
Functions of XPath.....	777
What is XMLDOM.....	778
The <b>XPathDocument</b> , <b>XPathNavigator</b> , and <b>XPathExpression</b> Classes .....	778
Programming SQLXML from .NET and COM .....	781
<b>SqlXmlCommand</b> Class .....	781
<b>SqlXmlParameter</b> Object.....	782
<b>SqlXmlAdapter</b> Object .....	782
<b>SqlXmlException</b> Object .....	783
XQuery Support .....	783
Basic XML Query Methods .....	783
Cross-Domain Queries.....	784
Modifying XML Data .....	785
XML Templates .....	785
<b><i>Immediate Solutions</i> .....</b>	<b>786</b>
Using the IIS Virtual Directory Management for SQL Server Utility.....	786
Executing SQL Queries in a URL .....	791
Using the <b>FOR XML</b> Function.....	793
Using XQuery with XML Data Type .....	794
Using the <b>OPENXML</b> Function.....	795
Features of <b>OPENXML</b> Function .....	795
Steps for using <b>OpenXML</b> Function.....	796
Using an <b>XmlTextReader</b> .....	798

Using Parameters with SQLXML .....	799
Programming Updategrams .....	800
Updategrams, Namespaces, Keywords, and Syntax .....	801
Using XML Updategram for Inserting Records in SQL Server 2005 Database.....	802
<b>Chapter 20: Reporting Services in SQL Server 2005 .....</b>	<b>807</b>
<b><i>In Depth</i> .....</b>	<b>809</b>
Reporting Services Enhancements .....	809
Functional Enhancements in Reporting Services.....	809
Design-Time Enhancements.....	810
Expressions Editor .....	810
Report Designer.....	810
Printing .....	811
RDL Enhancement .....	811
Programmability Enhancements .....	811
Reporting Services Architecture .....	811
SSRS Databases.....	812
Authoring Reports .....	816
Creating Reports .....	816
Managing Reports.....	817
Delivering Reports.....	817
Reports in SQL Server 2005 .....	817
Report Manager.....	818
Working with Report Designer .....	819
Working with Report Manager.....	822
Working with Folders and Roles.....	824
Reporting Service Programming .....	824
Using Custom Code.....	825
Integrating Reporting Services into Applications .....	825
Win Forms Integration.....	826
Web Page (ASP.NET) Integration .....	826
Using Web Services with Reporting Service .....	826
URL Access Overview.....	827
Report Definition Language.....	828
<b><i>Immediate Solutions</i> .....</b>	<b>831</b>
Creating a Report using Report Wizard.....	831
Creating Reports using Report Builder .....	839
Deploying Reporting Services .....	841
Using Report Manager.....	842
Using SQL Server Management Studio.....	842
Using Business Intelligence Development Studio (BIDS) and Visual Studio 2005.....	843
Managing Reporting Services .....	845
Managing Report Server Content.....	845

<b>Chapter 21: SQL Server Analysis Services .....</b>	<b>847</b>
<b><i>In Depth</i> .....</b>	<b>849</b>
Analysis Services Architecture .....	849
Unified Dimensional Model.....	850
ASSL and Web Services .....	850
Analysis Services Tools.....	850
The Deployment Wizard .....	851
Instance Rename Tool .....	852
Migration Wizard.....	852
Objects of Analysis Services.....	853
Cubes.....	854
Cells.....	854
Measures and Fact Tables.....	854
Dimensions and Attributes .....	855
Hierarchies .....	855
Data Source Views .....	855
Securing Analysis Services .....	856
Security Architecture.....	856
Configuring the Logon Account for Analysis Services .....	857
Configuring Access to Analysis Services.....	857
Cube Designer .....	857
Cube Structure Tab.....	859
Dimension Usage Tab .....	859
Calculations Tab.....	860
KPIs Tab.....	861
Actions Tab .....	862
Partitions Tab.....	863
Perspectives Tab.....	864
Translations Tab.....	864
Browser Tab .....	865
Defining a Cube.....	866
Deploying an Analysis Service Project.....	867
Processing a Cube .....	867
Full Process .....	868
Incremental Update.....	868
Refresh Data.....	868
<b><i>Immediate Solutions</i> .....</b>	<b>869</b>
Using Data Sources in Analysis Services .....	869
Creating a New Data Source.....	869
Modifying an Existing Data Source .....	873
Deleting a Data Source.....	874
Administering Analysis Services.....	875
Connecting to an Instance of Analysis Services.....	875

Creating an Analysis Services Database .....	875
Working with Cubes.....	877
Creating Cubes .....	877
<b>Chapter 22: Notification Services in SQL Server 2005 .....</b>	<b>883</b>
<b><i>In Depth</i> .....</b>	<b>885</b>
Architecture of Notification Services.....	885
NS Architecture Overview .....	886
Subscribers .....	887
Subscriptions.....	887
Events.....	887
Notifications.....	888
Notification Services Command Prompt .....	888
Securing Notification Services .....	889
Notification Services Security Accounts .....	889
Windows Permissions .....	890
<b><i>Immediate Solutions</i> .....</b>	<b>891</b>
Managing Notification Services.....	891
Creating a New Notification Services Instance .....	891
Registering a Notification Services Instance .....	894
Starting and Stopping Notification Services Instance.....	896
Enabling or Disabling Notification Services Instance.....	898
<b>Chapter 23: Service Broker in SQL Server 2005 .....</b>	<b>899</b>
<b><i>In Depth</i> .....</b>	<b>901</b>
Architecture of SQL Service Broker .....	901
Messages.....	902
Services .....	902
Contracts.....	902
Queues .....	902
Dialog Conversations .....	903
Conversation Groups .....	903
The Service Broker Endpoint .....	903
Remote Service Bindings .....	903
Routes .....	903
Uses of Service Broker.....	904
Asynchronous Triggers.....	904
Reliable Query Processing.....	904
Reliable Data Collection.....	904
Large Scale Batch Processing .....	904
Asynchronous Data Collection.....	904
Anticipatory Scheduling.....	904
Parallel Processing .....	905
<b><i>Immediate Solutions</i> .....</b>	<b>906</b>
Integrating DDL and DML Operations with Service Broker.....	906

## Table of Contents

---

Creating a Message Queue .....	907
Creating a Service Broker Service Instance.....	907
Creating an Event Notification .....	907
Managing Service Broker.....	907
Activating Service Broker in a Database .....	908
Starting and Stopping a Queue.....	908
Creating Certificates for Securing the Service Broker Transport .....	909
<b>Appendix A: Upgrading Databases from Microsoft SQL Server 2000.....</b>	<b>911</b>
<b>Appendix B: SQL Server Assemblies .....</b>	<b>917</b>
<b>Appendix C: Data Warehousing in SQL Server 2005.....</b>	<b>923</b>
<b>Appendix D: SQL Server 2005 Mobile Edition.....</b>	<b>927</b>
<b>Index .....</b>	<b>935</b>
<b>What's on the CD-ROM.....</b>	<b>944</b>
