

Table of Contents

Introduction	xxix
Chapter 1: Getting Started with Web Applications in Java	1
Introduction to Web Applications	2
Benefits of Web Applications	5
Technologies used in Web Applications.....	5
Describing JDBC.....	5
Exploring the JDBC Architecture.....	6
Describing Java Servlets	7
Advantages of Java Servlets	8
Describing JSP.....	8
Request Processing of a JSP Page	9
Describing the JSP Life-cycle.....	9
Introduction to Web Architecture Models	10
Describing the Model-1 Architecture	10
Limitations of the Model-1 Architecture	11
Describing the Model-2 Architecture	11
Advantages of the Model-2 Architecture	12
Introduction to the MVC Architecture.....	12
Describing the Model Component.....	13
Describing the View Component	13
Describing the Controller Component	13
Summary.....	14
Exercise	14
Chapter 2: Getting Started with JDBC	15
Introducing ODBC.....	16
Defining ODBC	16
Listing Features of ODBC	17

Table of Contents

Describing the ODBC Components	17
The Application Component.....	18
The DriverManager Component	18
The Driver Component	18
The Datasource Component.....	19
Describing the ODBC Architecture.....	19
The Single-tier ODBC Architecture	19
The Multiple-tier ODBC Architecture.....	20
Introducing JDBC	20
Describing Components of JDBC.....	22
Listing Features of JDBC	22
Listing New Features in JDBC 4.0.....	24
Exploring the JDBC Architecture.....	25
The Type-1 Driver	26
Advantages of the Type-1 Driver	27
Disadvantages of the Type-1 Driver	27
Situations to Use the Type-1 Driver	27
The Type-2 Driver (Java to native API).....	27
Advantages of the Type-2 Driver	28
Disadvantages of the Type-2 Driver	28
Examples of the Type-2 Driver	28
Situations to Use the Type-2 Driver	28
The Type-3 Driver (Java to Network Protocol/ All Java Driver).....	29
Advantages of the Type-3 Driver	29
Disadvantages of the Type-3 Driver	29
Examples of the Type-3 Driver	29
Situations to Use the Type-3 Driver	30
The Type-4 Driver (Java to Database protocol).....	30
Advantages of the Type-4 Driver	30
Disadvantage of the Type-4 Driver	30
Examples of the Type-4 Driver	31
Summary.....	31
Exercise	32
State True or False	32
Chapter 3: Working with JDBC APIs	33
Introducing JDBC API.....	34
Explaining the Types of JDBC APIs.....	35
The JDBC Core API	35
The JDBC Extension API.....	36

Listing the New APIs Added to JDBC 4.0.....	37
Describing the Major Classes and Interfaces	38
The DriverManager Class.....	38
The Driver Interface	39
The Connection Interface.....	40
The Statement Interface	42
Communicating with Databases by using JDBC APIs.....	45
Step 1: Obtaining a Connection.....	46
Obtaining an Connection using Driver object.....	46
Step 1.i: Registering a Driver object with DriverManager.....	47
Step 1.ii: Establishing a Connection using DriverManager.....	48
Step 2: Creating a JDBC Statement Object	49
Step 3: Executing SQL Statements.....	49
Step 4: Closing the Connection.....	49
Creating a Simple Application.....	50
Configuring the Application.....	51
Creating a Table	51
Creating a DSN.....	51
Understanding Various JDBC Drivers.....	53
The OCI8 Driver for Oracle.....	54
The IDS Driver.....	54
Installing the IDS Server	54
Configuring IDS Driver	57
The Thin driver for Oracle	57
Summary.....	58
Exercise	58
Fill in the blanks with appropriate words or phrases:.....	58
Chapter 4: Implementing JDBC Statements and ResultSets	59
Describing JDBC Statement.....	60
Working with the Statement Interface.....	60
Exploring the Methods of Statement	60
The executeUpdate (String sqlStatement) Method.....	61
The executeQuery (String query) Method.....	61
The execute (String sqlStatement) Method.....	61
The getResultSet () Method	62
The getUpdateCount () Method	62
Using Statement	62
Creating a Table.....	62
Inserting a Row	64

Table of Contents

Working with the PreparedStatement Interface	65
Comparing Statement and PreparedStatement Objects	66
Describing the setXXX methods of PreparedStatement	67
Listing the Advantages and Disadvantages of PreparedStatement	69
Using PreparedStatement	69
Creating a PreparedStatement Object	69
Setting the Values for Parameters.....	70
Executing the PreparedStatement	70
Using PreparedStatement with Parameters.....	70
Exploring the Usage of the PreparedStatement Object	73
Working with the CallableStatement Interface.....	73
Describing Stored Procedures	73
Listing the Benefits of Working with a Stored Procedure	74
Using CallableStatement	74
Creating the CallableStatement object	74
Setting the Values of the Parameters.....	75
Registering the OUT Parameter Type	75
Executing the Stored Procedure or Function	75
Retrieving the Parameter Values	75
Using CallableStatement with Parameters	75
Executing a Stored Procedure with IN Parameters.....	75
Executing a Stored Procedure with OUT Parameters.....	77
Calling Functions by Using CallableStatement.....	79
Using Cursors in CallableStatement	81
Comparing Procedure and Function	82
Working with the ResultSet Interface	82
Describing the Methods of ResultSet.....	83
Using ResultSet.....	85
Moving the Cursor Position	86
Reading the Column Values.....	86
Retrieving All the Rows from a Table	89
Retrieving a Particular Column Using ResultSet.....	91
Handling NULL Values	94
Working with the ResultSetMetaData Interface	95
Describing ResultSetMetaData	95
Using ResultSetMetaData	96
Creating SQLEditor in Java	98
Creating the Command-Based SQLEditor.....	98
Creating the Windows-Based SQLEditor.....	100

Using Advanced Concepts of ResultSet	104
Exploring Characteristics of the ResultSet Object	104
ResultSet Types	104
ResultSet Concurrency	105
ResultSet Holdability	106
Setting the ResultSet Type and ResultSet Concurrency	106
Using ResultSet Objects to Manipulate Data	112
Using the ResultSet Object to Update Data	112
Using the ResultSet Object to Delete a Row	114
Using a ResultSet Object to Insert a Row	116
Closing the Connection	118
Closing the Statement and ResultSet	118
Working with the DatabaseMetaData Interface	119
Retrieving Database and Driver Details	121
Retrieving Table Description	122
Retrieving Column Details	124
Retrieving Data from a Microsoft Excel Sheet	125
Summary	128
Exercise	129
Chapter 5: Describing Advanced JDBC Concepts.....	131
Exploring the SQL 99 Data Types	132
The BLOB Data Type	132
Storing BLOB Values	133
Reading BLOB Values	135
The CLOB Data Type	136
Storing CLOB Values	137
Reading CLOB Values	138
The Struct (Object) Data Type	140
Using User-Defined Object Types in Java to Represent Database Object Types	140
Creating a JDBC UDT	141
Mapping the JDBC UDT	141
Implementing UDT	141
Using the java.sql.Struct Interface	145
The Array Data Type	146
The Ref Data Type	151
Working with the ROWID Type	151
Working with Batch Updates	152
Using Batch Updates with the Statement Object	153
The Batch Update Methods	153

Table of Contents

The BatchUpdateException Exception.....	154
Using Batch Updates with the PreparedStatement Object	156
Describing SQL/XML and XML support.....	157
Retrieving Auto Generated Keys.....	158
Working with RowSets in JDBC	161
The Connected RowSets.....	161
The Disconnected RowSets	161
Using the RowSet at Design Time.....	162
Setting the Properties of the RowSet Instance	162
Working with RowSet Events	162
Using RowSets at Run Time	162
Setting Parameter Values of a RowSet Object.....	163
Executing RowSets	163
Traversing a RowSet.....	163
Exploring Connection Pooling.....	163
Working with Connection Pool	165
Working with Transactions.....	166
Describing ACID Properties	166
Atomicity	167
Consistency.....	167
Isolation.....	167
Durability.....	167
Types of Transactions.....	167
Performing Transaction Management.....	168
Describing the Wrapper Interface	171
The isWrapperFor() Method.....	171
The unwrap() Method	171
Describing SQLException.....	171
Summary.....	173
Exercise	174
Chapter 6: Understanding Java Servlet.....	175
Understanding the Need for Server-Side Extensions	176
Introducing CGI.....	176
Introducing Java Servlet	178
Advantages of a Servlet.....	178
New Features of Servlet 2.5.....	178
Exploring the Servlet Container	180
Describing the Request Processing Mechanism.....	180
Describing the Types of Servlet Container Configurations	180

The Standalone Container	181
The In-Process Container	181
The Out-Process Containers	182
Introducing the Servlet API.....	182
Describing the javax.servlet Package.....	183
Describing the javax.servlet.http Package.....	184
Implementing a Servlet Object.....	185
The javax.servlet.Servlet Interface.....	185
The javax.servlet.ServletConfig Interface<H2>.....	185
Understanding the Servlet LifeCycle	186
Describing the Stages of the Servlet LifeCycle	186
Loading a Servlet	186
Initializing a Servlet.....	187
Handling Request	187
Destroying a Servlet (End of service).....	189
Exploring the Servlet Life Cycle Methods	189
The init () method	189
The service() Method.....	189
The destroy () Method.....	190
Developing the First Servlet Application	190
Creating the home.html Page	190
Creating the LifecycleServlet.....	191
Creating the Deployment Descriptor	191
Deploying Web Application	192
Running the Lifecycle Application	193
Understanding the Request Processing Workflow	194
Request Navigation.....	195
Request Delegation	196
Working with the GenericServlet Class.....	197
Exploring Methods of the GenericServlet Class	198
Using the GenericServlet Class	199
Creating the Home.html Page.....	199
Developing the HelloServlet.java Servlet.....	200
Deploying and Running the Application	200
Summary.....	201
Exercise	202
Chapter 7: Understanding Request Processing and HTTP	203
Implementing the ServletRequest Interface	204
Managing the Servlet Object as a Throwaway Object.....	204

Table of Contents

Managing the ServletRequest Object Pool.....	204
Working with Request Parameters.....	205
Creating the Login Form.....	206
Creating the LoginServlet Servlet.....	206
Creating the Deployment Descriptor File.....	208
Running the Application.....	209
Working with Initialization Parameters.....	210
Exploring the Need for Initialization Parameters.....	211
Retrieving Initialization Parameters.....	211
Handling Servlet Initialization Parameters.....	212
Creating the Home.html File.....	212
Creating the InitParamsServlet Servlet.....	212
Creating the Deployment Descriptor File.....	213
Running the Application.....	214
Working with Context Initialization Parameters.....	216
Retrieving Context Initialization Parameters.....	216
Using Context Initialization Parameters.....	216
Creating the Home.html File.....	217
Creating the Login.html File.....	217
Creating the Register.html File.....	218
Creating the RegistrationServlet Servlet.....	219
Creating the LoginServlet Servlet.....	221
Creating the Deployment Descriptor File.....	223
Running the Application.....	225
Understanding ServletResponse.....	227
Understanding Request Dispatching.....	228
Navigation.....	229
Delegation.....	230
Dispatching the Request.....	230
Getting a RequestDispatcher object.....	230
The getRequestDispatcher() Method of ServletContext.....	230
The getNamedDispatcher() Method of ServletContext.....	231
The getRequestDispatcher() Method of ServletRequest.....	231
Comparing the getRequestDispatcher() Methods of ServletContext and ServletRequest.....	231
Comparing the getRequestDispatcher() & getNamedDispatcher() Methods.....	232
Understanding the include() and forward() Methods of RequestDispatcher.....	232
Describing the include() Method.....	232
Describing the forward() Method.....	234
Comparing the include() and forward() Methods.....	235

Considering the Situations to use the include() and forward() Methods	236
Working with RequestDispatcher	236
Creating the Home.html File	236
Creating the TestServlet1 Servlet	237
Creating the TestServlet2 Servlet	238
Creating the Deployment Descriptor File	239
Running the Application	240
Describing Request Attributes	242
Working with Request Attributes	242
Creating the Home.html File	243
Creating the ValidationServlet Servlet	243
Creating the AddServlet Servlet	244
Creating the SubServlet Servlet	244
Creating the ResponseServlet Servlet	245
Creating the Deployment Descriptor File	246
Running the Application	247
Describing HTTP Basic	249
Describing HTTP Status Codes	249
1XX – Informational	249
2XX – Success	249
3XX – Redirection	249
4XX – Client Error	250
5XX – Server Error	250
Describing the HttpServletRequest & HttpServletResponse Interfaces	250
Working with HttpServletRequest	251
Working with HttpServletResponse	251
Exploring the Methods for Response Headers	252
Exploring the Methods for Buffering	253
Comparing RequestDispatcher forward and sendRedirect	253
Handling the HttpServletRequest and HttpServletResponse Interfaces	254
Creating the Home.html File	254
Creating the HttpServletRequestEx Servlet	254
Creating the Deployment Descriptor File	255
Running the Application	256
Describing HttpServlet	258
The HttpServlet Lifecycle	259
Summary	259
Exercise	260

Chapter 8: Handling Sessions in Servlet	261
Introducing Session Tracking	262
Describing URL Rewriting	263
Using Query String for URL Rewriting.....	263
Using Path Info for URL Rewriting	263
Listing the Disadvantages of URL Rewriting.....	264
Considering Situations to use URL Rewriting	264
Exploring Hidden Form Field.....	264
Listing the Advantages and Disadvantages of Hidden Form Field	265
Considering the Situations to use Hidden Form Fields	265
Working with URL Rewriting and Hidden Form Field	265
Creating the SiteHome.html Page.....	265
Creating the Login.html Page.....	266
Creating the Send.html Page	266
Creating the DriverConnection.java File.....	266
Creating the UserDAO.java File.....	267
Creating the LoginServlet.java Servlet	267
Creating the Mail.java File	269
Creating the MailsDAO.java File	270
Creating the InboxServlet.java Servlet	271
Creating the ViewMailServlet.java Servlet	272
Creating the SendReplyServlet.java Servlet.....	274
Creating the Deployment Descriptor File	275
Creating the Database Tables	276
Creating the Directory Structure.....	277
Running the Application.....	277
Describing Cookies.....	279
Listing the Advantages and Disadvantages of Cookies.....	280
Considering the Situations to use Cookies	280
Using Cookies	281
Creating the Home.html File	281
Creating the AddCookieServlet.java File.....	281
Creating the GetCookieServlet.java File.....	282
Creating the web.xml File	282
Running the Application.....	283
Exploring HttpSession	284
Creating a Session Object	285
Locating a Session Object Associated with the Current Request.....	285
Difference between the getSession() and getSession(Boolean) Methods.....	285

Storing Information in a Session	285
Attaching the Session Identity to the URLs	286
Looking up Information in a Session.....	287
Discarding Completed or Abandoned Sessions.....	287
Listing the Advantages and Disadvantages of HttpSession.....	288
Considering the Situations to use HttpSession	288
Threading Issues of a Session.....	288
Sessions in a Clustered Environment.....	288
Working with HttpSession	288
Creating the Login.html File.....	289
Creating the DriverManager.java File.....	289
Creating the UserDao.java File.....	290
Creating the Product.java File	290
Creating the ProductsDao.java File	291
Creating the LoginServlet.java File.....	291
Creating the UserHomeServlet.java File	292
Creating the GetProductsServlet.java File	293
Creating the AddProductServlet.java File	295
Creating the GetCartDetailsServlet.java File.....	297
Creating the LogoutServlet.java File.....	298
Creating the web.xml File	299
Describing Servlet Context Attributes	304
Context Attributes in a Distributed Container	304
Differences Between Parameters and Attributes	304
Describing Scopes of the Web Application Objects	304
Exploring the Single Thread Model	305
Explaining the Need of Synchronization in Servlets	305
Implementing SingleThreadModel.....	306
Describing the ServletOutputStream Class	307
Using ServletOutputStream.....	307
Summary.....	309
Exercise	310
Chapter 9: Implementing Filters, Listeners, and Wrappers.....	311
Exploring Filters.....	312
Filter Interception Design Pattern.....	312
Filter API	313
The Filter Interface.....	313
The FilterConfig Interface.....	314
The FilterChain Interface	314

Table of Contents

Working With Filters	314
Creating the Home.html Page.....	315
Creating the TestServlet.java File	315
Creating the MyFilter1.java File.....	315
Creating the MyFilter2.java File.....	316
Configuring the Filters Application	316
Running the Application	318
Changes in Servlet 2.4 in Filter Configurations.....	320
Using Filters with the forward() and include() Methods	320
Describing Listeners	321
Need of Event Programming and Importance of Listeners.....	321
Types of Listeners	321
Describing the Listener Interfaces.....	322
The ServletContextListener Interface	323
The ServletContextAttributeListener Interface.....	327
The HttpSessionListener Interface.....	332
The HttpSessionAttributeListener Interface	332
The HttpSessionBindingListener Interface.....	337
The HttpSessionActivationListener Interface	340
The ServletRequestListener Interface.....	340
The ServletRequestAttributeListener Interface.....	341
Describing Wrappers	341
Need of Wrappers	341
Types of Wrapper Classes.....	341
The ServletRequestWrapper Class	342
The ServletResponseWrapper Class.....	342
The HttpServletRequestWrapper Class.....	343
The HttpServletResponseWrapper Class	343
Using Wrappers.....	344
Creating the Home.html Page.....	344
Creating the TestServlet.java File	344
Creating the MyRequestWrapper.java File	345
Creating the MyResponseWrapper.java File.....	345
Creating the MyWrapperFilter.java File.....	346
Creating the Web.xml File	346
Deploying and Running the Application	347
Applet to Servlet Communication.....	348
An Example Using Applet in Servlet.....	348
Summary.....	351
Exercise	351

Chapter 10: Introduction to JSP	353
Understanding JSP	354
Advantages of JSP over Servlets	355
Introducing the Tag-Based Approach	356
Describing the JSP Architecture	357
JSP Model I architecture.....	357
Describing the JSP Life-Cycle.....	358
The Page Translation Stage.....	358
The Compilation Stage	360
The Loading & Initialization Stage	360
The Request Handling Stage.....	361
The Destroying Stage.....	361
Creating Simple JSP Pages.....	361
Summary.....	364
Exercise	364
Chapter 11: Working with JSP Basic Tags and Implicit Objects	365
Exploring Scripting Tags	366
Types of Scripting Tags	366
The Scriptlet Tag	366
The Declarative Tag.....	367
The Expression Tag	367
Working with JSP Scripting Tags.....	368
Exploring Implicit Objects.....	370
Features of Implicit Objects	370
Types of Implicit Objects.....	370
The request Object	371
The response Object.....	371
The out Object	371
The page Object.....	371
The pageContext Object.....	371
The application Object	371
The session Object.....	371
The config Object	371
The exception Object	371
Working with Implicit Objects	372
Exploring Directive Tags	376
Types of Directive Tags	377
The Page Directive Tag	377
The Include Directive	378

Table of Contents

The Taglib Directive	378
Working with JSP Directive Tags	379
Summary	382
Exercise	382
Chapter 12: Working with JavaBeans and Action Tags in JSP	383
What is JavaBean?	384
Advantages of using JavaBeans	384
Action Tags	384
Describing the Include Tag	385
Difference Between Include Directive and Include Action	385
Describing the Forward Tag	386
Describing the Param Tag	386
name	387
value	387
Describing the useBean Tag	390
Describing the Attributes of the <jsp:useBean> Tag	390
Using the <jsp:useBean> Tag Attributes	391
Generating Servlets with the <jsp:useBean> Tag	392
Describing the setProperty Tag	393
name	393
property	393
value	394
param	394
Describing the getProperty Tag	395
The name Attribute	395
The property Attribute	395
Plugin	395
Params	396
Fallback	396
Attribute	396
Body	397
Element	397
Text	398
Declaring a Bean in a JSP	398
Creating a Bean	398
Declaring the Bean in a JSP	399
Accessing the Bean Properties	399
Generating Dynamic Content within a JSP	400
Deploying and Running Application	401

Summary.....	403
Exercise	404
Chapter 13: Enhancing the JSP Tags Support	405
Custom Tags.....	406
Need of Custom Tags	406
Elements of Custom Tags.....	407
Tag Library Descriptor.....	407
Tag Handler.....	408
The Tag Extension API.....	410
Empty Tags.....	411
Empty Tag Handler Life Cycle.....	412
Using Empty Tags.....	412
Body Content Tag Interface.....	420
Body Tag Handler Life Cycle	420
Using BodyContent Tag	421
Iteration tag Interface	429
Iteration Tag Handler Life Cycle.....	429
Simple Tags	433
Life Cycle of Simple Tag Handlers	433
Differences between Simple Tag and Classic Tag Handlers	435
The TryCatchFinally Interface	435
Summary.....	436
Exercise	436
Chapter 14: Understanding JSP Expression Language	437
Basic Syntax of using EL.....	438
Types of EL Expressions.....	438
Immediate and Deferred Expressions.....	439
Value Expressions.....	439
Method Expressions	440
Tag Attribute Types	440
Resolving EL Expressions	441
Describing the EL Resolver Classes.....	441
EL Operators.....	443
Types of EL Operators	443
An Example of Using EL Operators.....	444
Implicit EL Objects.....	445
Example 1 of Using Implicit EL Objects	447
Example 2 of Using Implicit EL Objects	449

Table of Contents

Introducing Functions with EL.....	451
Using EL Functions	451
Summary.....	453
Exercise	453
Chapter 15: Implementing Internationalization	455
Introducing Internationalization	456
Java and Internationalization.....	456
Describing the Locale Class	456
Parameters of the Locale Object.....	457
Using the Locale Class	457
Describing the ResourceBundle Class	458
The PropertyResourceBundle Class	459
The ListResourceBundle Class.....	461
Internationalizing Web Applications.....	463
Creating the JSP Views	464
Creating the index.html View	464
Creating the Home.jsp View	464
Creating the I18NServlet Class.....	465
Creating the Resource Bundles.....	465
Configuring the Application.....	466
Designing the Application Directory Structure	466
Running the Application.....	467
Summary.....	468
Exercise	468
Chapter 16: Working with JSP Standard Tag Library (JSTL).....	469
Describing JSTL Core Tags	470
General-Purpose Tags	470
The <c:out> tag	470
The <c:set> Tag	472
The <c:remove> Tag.....	473
The <c:catch> Tag.....	473
Conditional and Looping Tags.....	473
Types of Conditional and Looping Tags	473
Using Conditional and Looping Tags	475
Networking Tags.....	480
The <c:import> Tag.....	480
The <c:url> Tag.....	480
The <c:redirect> Tag.....	481

The <c:param> Tag.....	481
Describing the JSTL SQL Tags	481
Types of JSTL SQL Tags	481
The <sql:query> Tag.....	482
The <sql:update> Tag	482
The <sql:param> Tag	482
The <sql:dateParam> Tag.....	483
The <sql:setDataSource> Tag.....	483
The <sql:transaction> Tag	483
Using JSTL SQL Tags.....	483
JSTL Formatting Tags.....	486
Basic Formatting Tags	486
Types of Basic Formatting Tags.....	486
Using Basic JSTL Formatting Tags	488
Number Formatting Tags.....	490
Types of Number Formatting Tags	490
Using Number Format Tags.....	491
Date Formatting Tags	494
Types of Date Formatting Tags.....	494
Using Date Formatting Tags	495
Time Zone Formatting Tags.....	497
Types of Time Zone Formatting Tags	497
Using TimeZone Formatting Tags.....	497
JSTL XML Tags	499
XML Core Tags.....	499
The <x:parse> Tag	500
The <x:out> Tag.....	500
The <x:set> Tag.....	500
XML Flow Control Tags.....	500
The <x:if> Tag	501
The <x:choose> Tag.....	501
The <x:when> Tag.....	501
The <x:otherwise> Tag.....	501
The <x:forEach> tag	501
XML Transformation Tags.....	502
The <x:transform> Tag.....	502
The <x:param> Tag	502
Implementing JSTL Tags	502
Summary.....	506
Exercise	506

Chapter 17: Working with JavaServer Faces	507
Introducing JSF	508
Explaining the Features of JSF	509
Exploring the JSF Architecture.....	510
Describing JSF Elements	511
UI Component	511
Renderer	512
Validators	513
Backing Beans.....	514
Converters.....	514
Events and Listeners.....	515
Action Events	515
Value-change Events.....	516
Data Model Events	517
Phase Events.....	517
Message	517
Navigation.....	518
Exploring the JSF Request Processing Life cycle	518
The Restore View Phase	519
The Apply Request Values Phase	519
The Process Validations Phase	520
The Update Model Values Phase	520
The Invoke Application Phase.....	520
The Render Response Phase	521
Exploring JSF Tag Libraries.....	521
JSF HTML Tags.....	522
The <h:commandButton> Tag	522
The <h:commandLink> Tag	523
The <h:dataTable> Tag	524
The <h:form> Tag.....	525
The <h:graphicImage > Tag	526
The <h:inputHidden> Tag.....	526
The <h:inputSecret> Tag.....	527
The <h:inputText> Tag	527
The <h:inputTextarea> Tag.....	528
The <h:message> Tag.....	528
The <h:messages> Tag	529
The <h:outputFormat> Tag.....	530
The <h:outputLabel> Tag.....	530

The <h:outputLink> Tag.....	530
The <h:outputText> Tag.....	531
The <h:panelGrid> Tag.....	531
The <h:panelGroup> Tag.....	532
The <h:selectbooleanCheckbox> Tag.....	533
The <h:selectManyCheckbox> Tag.....	534
The <h:selectManyListbox> Tag.....	535
The <h:selectManyMenu> Tag.....	535
The <h:selectOneListbox> Tag.....	536
The <h:selectOneMenu> Tag.....	537
The <h:selectOneRadio> Tag.....	538
The <h:column> Tag.....	539
JSF Core Tags.....	540
The <f:actionListener> Tag.....	541
The <f:valueChangeListener> Tag.....	541
The <f:view> Tag.....	541
The <f:attribute> Tag.....	542
The <f:converter> Tag.....	542
The <f:convertDateTime> Tag.....	543
The <f:convertNumber> Tag.....	544
The <f:facet> Tag.....	544
The <f:loadBundle> Tag.....	545
The <f:param> Tag.....	545
The <f:selectItem> Tag.....	546
The <f:selectItems> Tag.....	546
The <f:subview> Tag.....	547
The <f:validateDoubleRange> Tag.....	548
The <f:validateLength> Tag.....	548
The <f:validateLongRange> Tag.....	548
The <f:validator> Tag.....	549
The <f:verbatim> Tag.....	549
The <f:phaseListener> Tag.....	550
The <f:setPropertyActionListener> Tag.....	551
Exploring Backing Beans.....	551
An Example of Using a Backing Bean.....	551
Using a Backing Bean Method as an Event Handler.....	553
Working with Managed Beans.....	554
JSF Input Validation.....	555
Using the Validator Method.....	556

Table of Contents

Using Validators.....	556
Standard JSF Validators.....	556
JSF Type Conversion.....	557
Handling Page Navigation in JSF.....	558
Configuring JSF Applications.....	559
Setting the web.xml File.....	559
Configuring the faces-config.xml File.....	560
Creating a Simple JSF Application.....	561
Creating the views.....	562
Creating Backing Bean.....	564
Configuring the Application.....	565
Summary.....	568
Exercise.....	568
Chapter 18: Java EE Design Patterns.....	569
Describing the Java EE Application Architecture.....	570
Introducing a Design Pattern.....	571
Discussing the Role of Design Patterns.....	571
Exploring Types of Patterns.....	571
The Front Controller Pattern.....	574
Problem.....	574
Forces.....	574
Solution.....	574
Strategies.....	576
Consequences.....	576
The Composite View Pattern.....	577
Problem.....	577
Forces.....	577
Solution.....	577
Strategies.....	578
Consequences.....	579
The Composite Entity Pattern.....	579
Problem.....	579
Forces.....	579
Solution.....	579
Strategies.....	581
Consequences.....	581
The Intercepting Filter Pattern.....	582
Problem.....	582
Forces.....	582

Solution	582
Strategies.....	583
Consequences.....	583
The Transfer Object Pattern	583
Problem	584
Forces.....	584
Solution	584
Strategies.....	585
Consequences.....	585
The Session Facade Pattern.....	586
Problem	586
Forces.....	586
Solution	586
Strategies.....	587
Consequences.....	587
The Service Locator Pattern	588
Problem	588
Forces.....	588
Solution	588
Strategies.....	589
Consequences.....	590
The Data Access Object Pattern.....	590
Problem	590
Forces.....	590
Solution	590
Strategies.....	592
Consequences.....	592
The View Helper Pattern.....	592
Problem	592
Forces.....	592
Solution	593
Strategies.....	593
Consequences.....	594
The Dispatcher View Pattern.....	594
Problem	594
Forces.....	594
Solution	594
Strategies.....	595
Consequences.....	596

Table of Contents

The Service To Worker Pattern.....	596
Problem	596
Forces.....	596
Solution	596
Strategies.....	597
Consequences.....	597
Summary.....	598
Exercise	598
Chapter 19: Implementing Security in Web Applications.....	599
Exploring JAAS.....	600
Implementing Authentication with JAAS.....	600
Describing Authorization in Web Applications.....	602
Implementing Data Integrity with JAAS API.....	602
Exploring HTTP Authentication Mechanisms.....	602
Describing HTTP Basic Authentication.....	602
Describing Form-Based Authentication.....	603
Describing Client-Certificate Authentication	603
Describing HTTP Digest Authentication	604
Securing Web Applications.....	604
Describing Declarative Security	604
Using Declarative Security	604
Using Form-based Authentication for Declarative Security	612
Describing Programmatic Security	615
Using Programmatic Security	616
Summary.....	626
Exercise	626
Appendix A: Introduction to DBMS	627
Appendix B: Hospital Management System	637
Answers	641
