

CONTENTS

Chapter 1 ■ Introduction to Dreamweaver CS3	1
About Dreamweaver CS3 Interface.....	4
Title Bar	4
Menu Bar	4
Insert Bar	5
Document Toolbar.....	5
Coding Toolbar	6
Document Window	7
Properties Inspector.....	7
Panel Groups	8
Creating New Webpages.....	10
Creating New Blank Webpage	10
Creating New Template Webpage.....	13
Saving and Closing a Webpage	14
Summary	16
Chapter 2 ■ Working with Dreamweaver Sites	17
Setting up Dreamweaver Sites	18
About Dreamweaver Sites	18
Understanding Local and Remote Folder Structure	19
Using the Manage Sites Dialog-Box	19
Setting up and Editing the Local Root Folder	21
Setting up Remote Folder	22
Setting up a Testing Server	24
Specifying URL Prefix for Testing Server.....	25
Editing an Existing Remote Site in Dreamweaver	26
Removing a Website from the List of Sites	28
Exporting and Importing a Site	28
Using Site Maps	30
Showing or Hiding Site Map Files	31
Setting the Site Map as an Image	32
Setting the Site Map Layout Preferences	33
Working with a Webpage without Defining a Site	34
Connecting to an FTP Server without Defining a Site	34
Understanding Basic Tab Options	36
Summary	39
Chapter 3 ■ Working with Webpages	41
Designing Your First Webpage	42
Creating a Heading	42
Adding Fonts.....	43

Adding Paragraphs and Line Breaks	43
Adding Images	44
Setting Page Properties	46
Appearance.....	47
Links.....	48
Headings.....	48
Title/Encoding	49
Tracing Image	49
Working with Links.....	49
About Document Location and Paths.....	50
Linking Pages	50
Linking Pages Within a Website.....	51
Setting Links to Named Anchors Within a Webpage	54
Linking to Another Website.....	56
Setting a Link to an E-mail Address	57
Using Jump Menus.....	59
Inserting the Jump Menu	59
Modifying the Jump Menu.....	62
Navigation Bars.....	63
Inserting the Navigation Bar	64
Modifying the Navigation Bar	66
Image Maps	67
Inserting the Image Map.....	67
Modifying the Image Map	69
Using Search and Replace Feature For Text.....	70
Previewing Webpage in Web Browser	72
Previewing the Webpage through Device Central.....	73
Summary	74

Chapter 4 ■ Working with HTML Tables and Frames 75

Creating HTML Tables	76
Creating Tables in Standard Mode.....	79
Merging and Splitting Table Cells.....	79
Formatting Multiple Cells in a Table	82
Controlling Cell Options	85
Sorting Table Data	86
Importing Table Data from Other Program	88
Applying Tables for Spacing and Alignment	92
Applying Tables to Design Forms.....	92
Applying Nested Tables	96
About Framework	98
Understanding HTML Frames.....	99
Creating Frames in Dreamweaver	99

Saving Files in Frameset 101

Setting Targets and Links in Frames 103

 Naming Frames 103

 Settings Links to a Target Frames 104

 Comparing Target Options 106

Changing Frame Properties 106

 Changing Frame Borders 106

 Changing Frame Sizes 107

 Changing Scrolling and Resizing Options 108

 Setting Margins Height and Width 109

Summary 110

Chapter 5 ■ Adding Graphics 111

Selecting the Best Image Format 112

Using Photoshop to Save and Edit Images 113

 Preparing Images for the Web 113

 Modifying JPEG Images in Photoshop 114

 Modifying GIF Images in Photoshop 116

Inserting Images on WebPages 117

Aligning Images on WebPages 119

 Positioning Images in an HTML Table 121

Editing an Image in Dreamweaver 121

 Cropping an Image 122

 Adjusting Brightness and Contrast 123

 Sharpening an Image 125

 Modifying Images in Dreamweaver 126

Inserting a Background Color 128

Summary 130

Chapter 6 ■ Introduction to Cascading Style Sheets 131

Understanding Cascading Style Sheets 132

 CSS Rules 132

 Cascading Styles 132

 Shorthand CSS Properties 133

Understanding CSS Style Panel 134

 Setting CSS Style Preferences 135

Creating a New CSS Rule 136

 Editing the CSS Rule 141

 Adding Property to CSS Rule 142

 Moving CSS Rules 145

Working with External CSS Files 146

 Creating an External Style Sheet 147

 Linking to An External Style Sheet 149

Editing a CSS File	150
Using Design-Time Style Sheet.....	151
Using Dreamweaver Style Sheet.....	152
Formatting CSS Code	153
Working with CSS Layouts	155
Understanding CSS Page Layout.....	156
Creating a Webpage with CSS Layout	158
Working with AP Div Elements	159
Insert an AP Div Element.....	159
Setting Preferences for AP Element.....	162
Setting Properties for AP Elements.....	163
Understanding AP Element Panel Overview.....	165
Editing AP Elements.....	165
Summary	166

Chapter 7 ■ Working with Templates 167

Templates	168
Creating the Dreamweaver Template	168
Creating Blank Templates.....	168
Creating a Template from an Existing webpage.....	169
Using the Asset Panel to Create a Template	171
Creating Editable Regions.....	171
Inserting an Editable Region	172
Change an Editable Region	173
Remove an Editable Region.....	174
Creating Repeating Regions.....	175
Create a Repeating Region in a Template.....	175
Inserting a Repeating Table	177
Set Background Color in Repeating Table	178
Using Optional Regions	180
Inserting a Non Editable Optional Region	180
Inserting an Editable Optional Region	181
Set Values for Optional Region	183
Setting Tag Attributes	185
Making Tag Attribute Editable	186
Make an Editable Tag Attribute Un-editable.....	188
Nested Templates.....	189
Creating Nested Templates.....	190
Prevent an Editable Region Passing Through a Nested Template.....	192
Editing, Updating and Deleting Template Content	196
Rename a Template.....	196
Open a Template for Editing	198
Delete a Template File	199
Exporting a Template-Based Website.....	200

Applying and Removing a Template from an Existing webpage 201
 Apply a Template to an Existing webpage 201
 Detach a Document from a Template 203
 Modify Template Properties 204
 Using Find and Replace Features to Change Tag Attributes 205
 Summary 206

Chapter 8 ■ Working with Active Contents and HTML Forms 207

Dreamweaver and Flash 208
 Inserting SWF File 208
 Creating and Inserting a Flash Button 212
 Inserting a Flash Text Object 214
 Inserting Flash Video 215
 Managing Extensions in Dreamweaver 218
 HTML Form Controls 220
 Inserting Radio Buttons and Check Boxes 220
 Inserting Drop down List 223
 Inserting Text Field and Text Area 226
 Inserting Submit Button and Reset Button 227
 Working with Java Script Behaviors 229
 Events and Actions 229
 Using Behaviors Panel for Binding Events and Actions 229
 Summary 233

Chapter 9 ■ Finalizing the Site 235

Using Browser Compatibility Feature 236
 Testing Site in Specific Web Browser Version 237
 Working with Broken Links 238
 Managing Linked Files 240
 Publishing the Website 243
 Using Dreamweaver's Publishing Tools 243
 Placing your Website Online 246
 Changing Local and Remote Sites 246
 Setting Cloaking Options 250
 Cloaking and Uncloaking Site Folders 252
 Site Management 252
 Using the Testing Server Option 253
 Using the Check In and Check Out Option 253
 Working with the Design Notes Option 254
 Activating Site Map Layout 257
 Using the File View Columns Option 260
 Summary 261
