

Table of Contents

Preface	iii
---------------	-----

INTRODUCTION

1. Introduction to Multimedia and Web Designing	1
Defining Web Designing	2
Scope of Multimedia in Web Designing	2
Principles and Best Practices for Web Designing	3
Web as the Hosting Medium	3
Consistency in Website Design	4
Usability and Accessibility Considerations	6
Prerequisites to Design a Website	7
Designing a Website	7
Exploring the Requirements	9
Designing the Web page Layout	10
Designing the Navigation Plan	11
Publishing and Testing Websites	11
Exploring Multimedia and Web Design Tools and Technologies	11
Photoshop CS4	12
Flash CS4	12
InDesign CS4	12
After Effects CS4	12
Sound Forge Pro 10.0	12
Dreamweaver	13
HTML	13

CSS	13
JavaScript	13
AJAX	13
XML	14
Summary	14

PHOTOSHOP CS4

1. Introduction to Photoshop CS4	15
Launching the Photoshop Application	17
Exploring the User Interface	19
The Application bar	19
The Control panel	20
The Document Window	20
The Tools Panel	20
Panels	24
Exploring Screen Modes	27
Creating a New Document	29
Saving Files	32
Reverting Files	33
Closing Files and Quitting Photoshop	35
Summary	36
2. Working with Graphics	37
Exploring Different Image Formats for Web	38

Placing Images	39
Resizing the Image using Pixel Logic	42
Editing Images	44
Flipping an Image	44
Rotating an Image	45
Cropping an Image	48
Applying Effects	49
Applying the Drop Shadow Effect	49
Applying the Opacity Effect	51
Summary	52
3. Using Photoshop for Web Designing	53
Working with Color Modes	54
Using Color Picker	55
Using Eyedropper Tool	55
Creating a Website Design	56
Designing a Website Background	56
Designing a Website Template	61
Slicing a Template	69
Creating Rollover Images	72
Optimizing Images for Web	77
Summary	80

FLASH CS4

1. Introduction to Flash CS4	81
Launching Flash CS4	82
Creating a New Flash File	84
Exploring the Flash CS4 Interface	85
The Application Bar	86

The Stage and Work Area	87
The Tools Panel	88
The PROPERTIES Panel	88
The LIBRARY Panel	89
The TIMELINE Panel	90
The MOTION EDITOR Panel	90
Working with Workspace	91
Creating a Customized Workspace	91
Navigating to a Different Workspace	93
Managing a Workspace	94
Setting the Stage	97
Saving the Flash File	99
Closing the Flash File	101
Summary	102
2. Working with Videos and Animation for Websites	103
Working with Objects	104
Drawing Objects	104
Adding Images	105
Adding Text	106
Converting an Object into Symbol	108
Using Motion Tween	110
Creating an Animation Slide	112
Exporting the Flash Movie File	132
Summary	134
3. Working with ActionScript	135
Introducing ActionScript 3.0	136
Exploring the ACTIONS Panel	136
Script Pane	137

Actions Toolbox	137
Script Navigator	138
The Script Assist Mode	138
Adding ActionScript to Frames	138
Using ActionScript with Buttons	141
Summary	146

INDESIGN CS4

1. Introduction to InDesign CS4	147
Getting Started with InDesign CS4	148
Exploring the InDesign Workspace	150
The Document Window	151
The Application Bar	152
The Menu Bar	152
The Control Panel	153
The Tools Panel	153
The Panel Group	153
Customizing a Workspace	154
Working with Ruler Guides	157
Saving the InDesign Document as a PDF and Quitting the Application	158
Summary	162

AFTER EFFECTS CS4

1. Introduction to After Effects CS4	163
Getting Started with After Effects CS4	164
Starting a New Project	166
Creating Folders in the Project Panel	166

Assigning a Name and Saving the Project	168
Exploring the After Effects CS4 Interface	170
The Tools Panel	171
The Project Panel	171
The Composition Panel	172
The Timeline Panel	172
The Layer Panel	173
The Footage Panel	173
The Info Panel	174
The Preview Panel	174
The Audio Panel	174
The Effects & Presets Panel	174
The Effects Controls Panel	174
Customizing the Workspace	175
Exploring Adobe Bridge	177
Summary	180
2. Creating Animations in After Effects	181
Working with Compositions	182
Creating a Composition	182
Changing the Background Color of the Composition	184
Importing Footage into a Composition	185
Adding Animation to the Composition	189
Keyframing a Layer	189
Modifying the Motion Path	194
Adding a Background layer to an Animation	197

Working with Multiple Layers in Animation	198
Animating through the Rotation Property	201
Animating through the Scale Property	203
Rendering the Animation	205
Summary	208

SOUND FORGE PRO 10.0

1. Introduction to Sound Forge Pro 10.0	209
Exploring MIDI and Digital Audio Files	210
Exploring Sound Forge Pro 10.0	211
Launching Sound Forge Pro 10.0	213
Opening an Existing Audio File	214
Exploring the Sound Forge Pro 10.0 Interface	215
Title Bar	216
Menu Bar	216
Toolbars	216
Status Bar	216
Workspace	217
Data Window	217
Channel Meters Window	218
Exploring Transport Controls	218
Working with Markers	219
Inserting Markers	219
Navigating between Markers	221
Saving an Audio File	223

Getting Help in Sound Forge Pro 10.0	224
Closing an Audio File	226
Summary	228
2. Working with Sound	229
Recording	230
Automatic Retake Recording	230
Multiple Takes Recording	235
Punch-In Recording	237
Editing Sound	239
Using the Edit Tool	239
Using the Magnify Tool	239
Using the Pencil Tool	241
Using Envelope Tool	241
Applying Effects	241
Pitch	241
Delay/Echo	245
Reverb	247
Summary	248

DREAMWEAVER CS4

1. Introduction to Dreamweaver CS4	249
Getting Started with Dreamweaver CS4	250
Creating a New Document	251
Defining Website Structure	253
Exploring the Dreamweaver Interface	254
The Application Bar	254

The Document Window	254
The PROPERTIES Inspector	255
The Panel Group	256
Working with the Workspace	259
Saving a Document and Quitting Dreamweaver	262
Summary	264
2. Working with Websites	265
Creating a Website	266
Managing a Website	272
Duplicating a Website	272
Exporting a Website	273
Working with Text	275
Setting Text Properties	275
Inserting Special Characters	278
Working with Graphics	280
Inserting an Image	280
Setting the Properties of an Image	283
Creating a Rollover	285
Creating Image Maps	288
Working with Hyperlinks	291
Creating Hyperlinks	291
Creating Email links	294
Editing and Deleting Hyperlinks	296
Working with Dreamweaver Templates	297
Creating a Template	298
Deleting a Template	301
Summary	302

HTML

1. Introduction to HTML	303
Exploring the HTML Tags	304
Basic Tags	304
Required Tags	305
Exploring Attributes	305
Creating an HTML Document	305
Saving the HTML Document	307
Viewing the HTML Document in a Web Browser	308
Exploring Block Oriented Elements	310
Defining a Paragraph	310
Inserting Line Breaks	312
Inserting Spaces	313
Formatting the text	315
Working with the Font Tag	320
Changing the Background Color	323
Working with Lists	324
Ordered Lists	324
Unordered Lists	326
Definition Lists	328
Working with Hyperlinks	329
Working with Images	331
Adding Images	331
Adding a Border to an Image	332
Working with the Embed Tag	333
Working with Tables	335
Adding a Border to a Table	339
Formatting a Table	340
Spanning Columns and Rows	341

Aligning a Table	342
Working with Frames	343
Viewing the Document in a Web Browser	344
Summary	346

CASCADING STYLE SHEET

1. Introduction to CSS	347
Exploring the Concept of CSS	348
Working with the CSS Syntax	349
Grouping Selectors and Declarations	349
Using the Class Selector	349
Using the id Selector	350
Using CSS Comments	350
Incorporating a CSS in an HTML Document	351
External Style sheet	351
Internal Style Sheet	353
Inline Style Sheet	355
Working with Describing CSS Properties and Text Attributes	355
Setting the Color Attribute	355
Setting the Alignment Attribute	357
Setting the Decoration Attribute	358
Setting the Transformation Attribute	360
Setting the Indent Attribute	361
Setting the Letter-Spacing and Word-Spacing Attributes	362
Setting the White- space Attribute	363
Setting the Line-Height Attribute	365
Setting the Direction Attribute	366

Setting the Unicode-bidi Attribute	366
Working with Describing Padding Properties	367
Using Padding Properties	368
Setting Padding on all Sides	368
Setting Padding for an each Individual Side	369
Working with List Properties	371
Setting the list-style-image Property	371
Setting the list-style-position Property	373
Setting the list-style-type Property	373
Setting the list-style Property	373
Working with Exploring CSS Positioning Properties	373
Using Relative Positioning	373
Using Absolute Positioning	374
Using Fixed Positioning	374
Using the Cursor Property	374
Summary	376

JAVASCRIPT

1. Introduction to JavaScript	377
Defining JavaScript	378
Describing the Development Environments for JavaScript	378
Using JavaScript in HTML Documents	379
Integrating JavaScript under the <head> Tag	379

Integrating JavaScript under the <body> Tag	379	Creating Check Boxes	422
Importing an External JavaScript File	379	Creating Radio Buttons	423
Creating a JavaScript Program	380	Creating List Boxes	425
Exploring the Elements of JavaScript	383	Validating a Mandatory Text Field	428
JavaScript Classes	383	Validating a Numeric Field	431
JavaScript Statements	387	Validating an Email Address	434
JavaScript Statement Blocks	387	Validating User Forms	437
JavaScript Comments	388	Creating Form Validation	437
Summary	388	Displaying an Inline Error Message	442
		Summary	446
2. Working with Web Pages, Frames, and Form Components 389		AJAX	
Retrieving Browser Details using JavaScript	390	1. Introduction to AJAX	447
Using JavaScript in Web Pages	394	Explaining Traditional and AJAX Web Applications	448
Opening a Web Page	395	Relationship between JavaScript and AJAX	449
Displaying an Alert Message Box with Custom Message	396	Exploring XMLHttpRequest Object	450
Displaying a Confirmation Message Box	398	Exploring the Properties of XMLHttpRequest Object	451
Displaying a Prompt message box	400	Exploring the Methods of XMLHttpRequest Object	452
Working with Frames using JavaScript	402	Creating a Simple AJAX Application	454
Creating Basic Frames	402	Summary	458
Altering the Contents of Two Frames	407	XML	
Using Frames to Store Information	412	1. Introduction to XML	459
Exploring HTML Forms	420	Describing Components of an XML Document	460
Creating Text Fields	420		

Processing Instruction	460
Tags	460
Elements	461
Content	461
Attributes	461
Entities	461
Comments	462
Creating an XML Document	462
Viewing the XML Document in a Browser	465
Defining XSL	467
Inserting an XSL Style Sheet into an XML Document	467
Summary	470

PUBLISHING AND TESTING

1. Publishing and Testing a Website	471
Testing the Website	472
Testing Browser Compatibility	472
Managing Hyperlinks	472
Publishing a Website	472
Summary	476
About the CD	477
Project Description	483
