

Table of Contents

Introduction	xvii
Chapter 1: Multidimensional Analysis	1
Introducing Multidimensional Data Analysis	2
Exploring the Need of Multidimensional Data Analysis	2
Exploring Dimensions	3
Using Dimensions to Perform Multidimensional Data Analysis	4
Exploring Data Characteristics	4
Exploring Hierarchy in the Data	5
Exploring Sequential Property of Data	5
Exploring Dependency Relationship in Data	5
Determining the Limitations of Spreadsheet in Multidimensional Analysis	6
Introducing Classical Multidimensional Analysis	6
Exploring the Types of Classical Multidimensional Analysis	6
Exploring the Role of Data Mining	9
Defining Predictive Data Mining	10
Models Used in Predictive Data Mining	10
Conclusion	12
Chapter 2: Multidimensional Modeling	13
Introducing Hierarchy	14
Exploring Variables and their Characteristics	16
Time Dimension	16
Variable and Partial Dimensions	17
Dimension Modeling	17
Advantages of Dimension Modeling	18
Case Studies in Dimension Modeling	18
Education	38
Water Management	39
Electricity Management	40
Police	41
Crop Management	41
Export / Import	42
Village Planning	43
Living Conditions and Social Science	43
Food Retailer	44

Table of Contents

Chapter 3: Report Building and Visualization of Multidimensional Data	47
Need of Multidimensional Reports.....	48
Lacuna in Conventional Reporting Tools	49
Internal Data Reports and Hierarchies	49
Report building and Data Querying Systems.....	52
Data Visualization.....	52
Two Dimensional Views.....	53
Adding Columns and Rows.....	53
Axis Rotation.....	54
Drill Down Facility	54
Multidimensional Data View.....	54
Graphs	58
Line Graph.....	58
Bar Chart.....	59
Stack Chart	59
Pie chart	60
X-Y Chart	60
Chapter 4: Analysis of Multidimensional Data	61
Analysis Using Hierarchies.....	62
Aggregation.....	62
Top-N / Bottom-N Analysis.....	68
Range Analysis	69
Analysis using Sequential Property.....	69
Moving Annual Total.....	69
Moving Quarter Total	69
Moving Average.....	70
Year to Date.....	71
Quarter to Date	71
Growth.....	71
Advanced Analysis	72
ABC analysis	72
Applications of ABC analysis	73
Growth of Market Share	75
Components of Growth Analysis (CGA).....	75
Concentration Index.....	77
Chapter 5: Dependency Analysis and Predictions	79
Introducing Dependency Analysis	80
Using Regression Analysis.....	81
Exploring Data Used in Regression.....	81
Using Performance Measures	81
Applying Mathematical Treatment.....	82
Performing What-if Analysis	85
Addressing Issues in Regression	85
Defining Artificial Neural Network.....	86
Designing Neural Network Layout.....	86
Training in Neural Network	88
Exploring Transfer Functions.....	89

Exploring Optimization Techniques	90
Addressing the Limitations of Neural Networks	90
Exploring Case Studies	91
Case Study I: Building a Model to Estimate Market Potential.....	91
Case II: Preparing Regression Model for Retail Sales	95
Case Study III: Building a Model to Classify Doctors.....	98
Case IV: Effect of Resource Allocation on Production.....	101
Chapter 6: Mining Frequent Patterns and Association Rules.....	105
Mining Frequent Patterns	106
Data Format for Mining Frequent Sets	108
Frequent Sets.....	109
Association Rules	110
Applications of Frequent Sets and Association Rules	110
Case Studies	110
Analyzing Doctors Prescriptions.....	110
Analyzing Data of Customers of Vehicle	111
Credit Risk Analysis.....	112
Analyzing Data of Customers Visiting Retail Shop	112
Application in Transaction and Billing Analysis.....	113
Application in Retail Shelf Space Optimization	115
Application in Customer Segmentation	115
Chapter 7: Clustering	119
Introduction	120
Distance between Data Points	120
Clustering Methods	121
Measuring the Performance of Clustering.....	121
Applications of Clustering	121
Case Studies	122
Case I.....	122
Case II.....	123
Case III	126
Case IV	129
Case V	130
Chapter 8: Classification Trees	133
Introduction	134
Order of Attributes.....	134
Applications of Classification Trees.....	136
Case Studies	137
Case I: Analyzing visits of Medical Representatives to Doctors.....	137
Case II: Analyzing Loan Defaulters	139
Case III: Analyzing Crop Patterns in the States.....	141
Case IV: Application of Classification Tree and Segmentation in Banking	142
Chapter 9: Concept of Hypothesis Testing.....	145
Introduction	146
Exploring Hypothesis Testing	146
Methods of Hypothesis Testing.....	148

Table of Contents

Method I	148
Method II	148
Examples	149
Example 1	149
Example 2	149
Chapter 10: Parametric Tests	151
Introduction	152
Exploring Parametric Tests	152
Paired Sample t-test (One-Tail Test)	152
Example	152
Exercises.....	154
Two Independent Samples t-Test.....	157
Example	157
One Sample t-test	162
Example	162
Exercises.....	164
One Sample Test of Proportion (Two-Tailed).....	167
Example	167
One Sample Test of Proportion (One-Tailed)	168
Example	168
Exercises.....	169
Two Sample Test of Proportion.....	170
Example	170
Exercises.....	171
Chapter 11: Non – Parametric Tests	173
Introduction	174
Mann-Whitney U Test	174
Example	174
Exercises.....	177
Kruskal-Wallis Test.....	180
Example	181
Exercises.....	183
Friedman Test.....	185
Example	186
Exercises.....	188
Signs Test.....	190
Example	191
Exercises	193
Wilcoxon Signed Rank Test	194
Chapter 12: Correlation Tests.....	195
Introduction	196
Chi-Square Test of Independence	196
Example	196
Exercises.....	198
Spearman Rank Correlation.....	199
Example	199
Exercises.....	201

Pearson Correlation Coefficient	203
Example	203
Exercises.....	205
Correlation Matrix.....	208
Example	208
IDASM Result	209
Covariance	210
Example	210
Covariance Matrix.....	211
Chapter 13: Data Preparation and Description.....	213
Introduction	214
Frequency Analysis.....	214
Example	214
IDASM Result	215
Descriptive Statistics	216
Example	216
IDASM Result	217
Ranking of Data.....	218
Example	218
IDASM Result	218
Data Transformation.....	219
Coding	220
Chapter 14: Forecasting	221
Introduction	222
Syndicated Audit Data and Forecasting.....	222
Requirements of Forecasting Systems	223
Why Forecast?.....	224
Which Forecast is Better?.....	224
Single Function vs. Multiple Function Forecasts.....	225
Multidimensional Data Forecasting.....	226
Processing Time	226
Aggregation.....	227
Treatment of Scarce or Fragmented Data	227
Choice of Methods.....	227
Data Integration.....	228
Statistics	228
Indices	228
Validations.....	228
Building Executive Opinion or Eventing Procedures in Forecasting.....	228
Reporting.....	229
Validating Forecasts.....	229
Limitations of Forecasting.....	230
Integrated Analytics and Forecasting.....	230
Future Share Analysis	231
Cost Data Integration	231
Employee Productivity	231
Optimal Forecasting Techniques.....	232

Table of Contents

Chapter 15: Methods of Forecasting	233
Introduction	234
Regression Analysis	234
Procedure of Prediction in Linear Regression.....	235
Determining Measures of Errors	235
Experiment Set.....	239
Normal Regression.....	240
Logarithmic Regression	242
Inverse Regression.....	243
Square Root Regression	245
Cyclic Regression.....	247
Time-Series Analysis.....	248
Cyclic Variation	249
Seasonal Variation	251
Smoothing Techniques	252
Moving Averages	252
Exponential Smoothing Techniques.....	252
Exponential Smoothing.....	255
Optimal RMSE.....	257
Optimal R2	258
Forecasting in Multidimensional Data Models	259
Aggregated Forecasts.....	260
Same Level Forecasts	260
Applications of Forecasting	260
Chapter 16: Multidimensional Planning	263
Introducing Multidimensional Planning.....	264
Exploring Practical Aspects in Sales Budgeting	264
Hierarchical Allocation	264
Basis of Allocation	264
Allocation Period	264
Allocation Methodology	265
Interpolation.....	265
Allocation Targets	265
The Users of Budgeting	265
Exploring Budgeting Procedure	266
Exploring Planning and Allocation Methods	268
Top-Down Planning.....	268
Bottom-Up Planning	270
Variance Budgeting	272
Contemplating the Future of Planning.....	273
Chapter 17: Analytics – A Changing Scenario	275
Introduction	276
Consulting Agencies.....	276
The Current Perspective	277
Changing Roles.....	277
Future Trends.....	278
Market Research and Data Collection	278

Data Collection in Organized Market	278
Data Collection in Unorganized Markets	279
Limitations of Audited Market Research Data	279
Moving towards Strategic Solutions	279
Statistical Solution Providers	280
Reporting Agencies	280
Enterprise Resource Planning	281
Integrated Multidimensional Simulation Systems	281
Data Integration Processes	281
Simulation Processes	282
Using Non-Numeric Data	282
Conclusion	283
Chapter 18: Case Studies Using Multidimensional Analysis	285
Introduction	286
Retailer Chains	286
Data Visualization	287
Data Analysis	290
Forecasting	293
Clustering	295
Concentration Index	297
Statistical Analysis	298
Dependency Analysis	301
Planning	302
Pharmaceutical Organizations	303
Data Visualization	304
Data Analysis	304
Forecasting	306
Statistical Analysis	307
Planning	308
Banks	310
Data Visualization	311
Advanced Data Analysis	312
Statistical Analysis	313
Forecasting	314
Planning	314
Electricity Distribution Company	315
Data Visualization	316
Data Analysis	317
Water Management	319
Data Visualization	319
Data Analysis	320
Forecasting	321
Agribusiness and Seed Companies	321
Data Visualization	322
Data Analysis	323
Forecasting	324
Statistical Analysis	325
Hotels	325

Table of Contents

Data Visualization	326
Data Analysis	327
Statistical Analysis.....	328
Insurance	329
Data Visualization	329
Data Analysis	330
Forecasting	330
Classification	331
Planning.....	332
News Papers and Dailies.....	332
Data Visualization	333
Data Analysis	334
Literacy Program Management.....	335
Data Visualization	335
Data Analysis.....	337
Education	337
Data Visualization	338
Statistical Mining.....	338
Vehicle Dealers	339
Data Visualization	340
Data Analysis	340
Satellite Imaging and Crop Pattern Management.....	341
Data Visualization	342
Data Analysis	343
Police and Crime Control Departments	344
Data Visualization	344
Data Analysis	345
Appendices Introduction IDASM	347
Appendix A: IDASM – Forecasting Module.....	351
Appendix B: IDASM – Neural Networks	365
Appendix C: IDASM – Regression Module	375
Appendix D: IDASM – Reports & Templates.....	383
Appendix E: IDASM – ABC Analysis	395
Appendix F: IDASM – Clustering Module.....	403
Appendix G: IDASM – Business Analyzer	407
Appendix H: IDASM – Association Module.....	439
Appendix I: IDASM – Segmentation Analysis Module	445
Glossary.....	451
Abbreviations	457
Index	459
