

# Table of Contents

<i>Preface</i> .....	<i>v</i>
<b>Chapter 1: Introduction to Engineering Drawing</b> .....	<b>1</b>
1.1 Drawing Instruments .....	2
Drawing Board.....	3
Set-Squares.....	4
Large-Size Compass .....	4
Protractor .....	5
Scales.....	5
French Curves .....	6
Drawing Papers.....	8
Drawing Form .....	10
Drawing Pencils .....	11
Eraser (Rubber) .....	11
Drawing Pins .....	11
Drafting Machine .....	11
1.2 Dimensioning .....	18
Systems of Placing Dimensions .....	18
Chain and Parallel Dimensioning.....	19
Dimensioning of Circular Features .....	20
Dimensioning of Arcs.....	20
1.3 Line Types.....	21
Hidden or Dotted Lines .....	22
Center Lines.....	22
Hatching or Section Lines .....	22
Cutting Plane Lines .....	22
Notations and Terms used in Dimensioning .....	23
Placing Dimensions .....	24
1.4 Arrangements of Dimensions .....	25
Chain Dimensioning.....	25

	Parallel Dimensioning.....	26
	Combined Dimensioning.....	26
1.5	Dimensioning Systems as per Indian Standard (I.S.) Conventions .....	26
	Dimensioning Circles and Cylinders .....	26
1.6	Lettering.....	29
	Summary.....	30

**Chapter 2: Projections.....31**

2.1	Notations Used.....	31
	Locating a Point Situated in the First Quadrant.....	32
	Locating Points Contained in the Reference Planes.....	32
	A Plane Inclined to Both TP/H.P. and FP/V.P. (An Oblique Plane).....	34
2.2	Projections of a Point on Three Reference Planes.....	35
2.3	Projection of a Straight Line .....	35
	Line Parallel to Both the Reference Planes .....	35
	Line Parallel to One Reference Plane and Inclined to the Other .....	36
	Projection of a Line .....	39
	Projection of a line inclined to FP/V.P. and Parallel to TP/H.P. ....	39
	Projection of an Oblique line (A Line inclined to both FP and TP).....	40
2.4	Projections of Solids.....	40
	Right Prism .....	40
	Right Pyramid .....	41
	Right Circular Cylinder.....	41
	Right Circular Cone.....	42
	Cube or Hexahedron .....	42
	Frustum of a Pyramid .....	43
	Frustum of a Cone .....	43
	Sphere.....	43
	Common Steps to Draw Projections of Solids .....	44
	Summary.....	45
	Solved Problems .....	46
	Unsolved Problems .....	78

---

<b>Chapter 3: Sections of a Solid .....</b>	<b>81</b>
3.1 Section Plane .....	81
3.2 Section of Cylinder .....	83
3.3 Section of Prism.....	84
3.4 Section of Pyramid.....	84
3.5 Section of Cone.....	85
Summary .....	86
Solved Problems .....	86
Unsolved Problems .....	116
<b>Chapter 4: Development of Surface .....</b>	<b>121</b>
4.1 Methods of Development .....	121
Parallel Line Method .....	121
Radial Line Method .....	121
4.2 Development of a Prism.....	125
4.3 Development of a Cylinder .....	126
4.4 Development of a Cone.....	127
4.5 Development of a Sphere.....	128
Summary .....	129
Solved Problems .....	129
Unsolved Problems .....	143
<b>Chapter 5: Orthographic Projections.....</b>	<b>147</b>
5.1 The First Angle Projection .....	149
5.2 The Third Angle Projection .....	151
5.3 Multi-view Orthographic Projections .....	153
Axonometric Projection .....	153
Isometric Projection .....	154
Sectional Views .....	155
5.4 Orthographic Symbol .....	156
5.5 Conversion of Pictorial view into Orthographic view.....	157
Summary .....	157
Solved Problems .....	157

Unsolved Problems .....	179
<b>Chapter 6: Sectional Orthographic .....</b>	<b>197</b>
6.1 The Full Section .....	197
6.2 The Half Section .....	200
6.3 The Offset Section .....	201
6.4 Webs/Ribs in Sectional Views .....	201
6.5 Hatching Style .....	202
6.6 The Revolved Section .....	202
Summary .....	203
Solved Problems .....	204
Unsolved Problems .....	246
<b>Chapter 7: Missing Views .....</b>	<b>255</b>
7.1 Understanding the Orthographic Drawing Views.....	255
7.2 Visualize the Given Objects in Space from Given Views .....	256
7.3 Reproduce the Missing Views.....	257
7.4 Converting Views into Sectional Views.....	258
Summary .....	260
Solved Problems .....	261
Unsolved Problems .....	267
<b>Chapter 8: Isometric Projections .....</b>	<b>291</b>
8.1 Isometric Projections .....	291
Isometric Projection/Drawings of Blocks.....	293
Drawing Circles in Isometric.....	294
Isometric Dimensioning.....	296
8.2 Oblique Drawing .....	297
8.3 Perspective Projection .....	298
One Point Perspective .....	298
Two Point Perspective.....	300
8.4 Isometric scale .....	302

Summary .....	303
Solved Problems .....	303
Unsolved Problems .....	319

## **Chapter 9: Engineering Curves and Free hand Sketches of Fasteners ..327**

(Section I): Engineering Curves .....	327
9.1 Introduction to Conic Section.....	327
9.2 Conic Sections.....	328
Terminology .....	328
Ellipse .....	332
Applications of an Ellipse .....	337
Parabola.....	338
Hyperbola .....	343
Constructing an equilateral hyperbola .....	344
Applications of a Hyperbola .....	347
9.3 Roulettes.....	348
Cycloidal curves.....	348
Cycloid .....	349
Applications.....	352
Involute .....	352
Application of an Involute.....	355
Construction of Epicycloid, Hypocycloid, and Trochoid (Quick Comparison) .....	356
Spiral.....	356
Types of Spirals .....	356
Logarithmic Spiral .....	358
9.4 Helix.....	359
Applications of Helix.....	360
(Section II): Free Hand Sketches of Fasteners .....	360
9.5 Introduction of Fastners.....	360
Thread Terminology.....	360
Whitworth or British Standard Whitworth.....	362
British Association Thread .....	362
Metric Thread .....	362

	Square Thread .....	363
	Acme thread .....	363
	Knuckle Thread.....	364
	Butters Thread.....	364
	Conventional Representation of Threads.....	364
	External Thread.....	364
	Internal Thread.....	365
	Single Start and Multi-Start Thread .....	365
	Right Hand and Left Hand Threads .....	366
9.6	Screwed Fasteners.....	367
	Nuts .....	367
	Bolts .....	370
	Stud .....	373
9.7	Drilled Hole .....	374
9.8	Set Screw .....	375
9.9	Locking Arrangements for Nut.....	376
	Locking by a lock nut or check nut .....	376
	Locking by split pin .....	376
9.10	Foundation Bolts .....	378
	Eye Foundation Bolt .....	378
	Rag Foundation Bolt.....	378
	Lewis Foundation Bolt .....	379
	Summary.....	379
	Unsolved Problems .....	380
	ELLIPSE.....	380
	PARABOLA.....	381
	HYPERBOLA.....	381
	INVOLUTE .....	381
	CYCLOID.....	382

**Chapter 10: Practical Using AutoCAD .....383**

10.1	Product Modeling in CAD.....	384
	Wireframe Modeling System .....	384
	Solid Modeling System .....	384
	Applications of CAD .....	385

10.2	CAD Software Application.....	386
	Input Devices.....	386
	Keyboard.....	386
	Mouse .....	387
	Output Devices.....	387
	Dot Matrix Printer.....	387
	Laser Printer .....	387
	Benefits of CAD.....	388
10.3	New Features in AutoCAD 2009 .....	389
10.4	Specifications, Installation and Uninstallation of AutoCAD 2009 .....	389
	System Requirements.....	390
	Installing AutoCAD 2009.....	390
	Accessing AutoCAD 2009.....	391
	Uninstalling AutoCAD .....	393
10.5	Introducing the AutoCAD 2009 User Interface .....	394
10.6	Introducing the Command Window.....	400
	Entering Commands on Command Line.....	400
	Resizing the Command Window .....	402
	Hiding the Command Window .....	403
10.7	Working with the Drop-Down Menus.....	404
	Displaying Drop-Down Menus .....	404
10.8	Introducing Workspaces and their Types .....	411
	Switching Between Workspaces .....	411
	Introducing AutoCAD Files .....	413
	Working with User Coordinates and Coordinate Systems.....	413
	Entering 2D Coordinates .....	413
	Entering 3D Coordinates .....	414
	Entering Direct Distances .....	414
	Creating a New Drawing.....	414
	Creating a Drawing from Scratch.....	414
	Setting the Units' Format and Precision .....	416
	Saving a Drawing.....	417
	Opening a Drawing by Using Menu Browser .....	418

10.9	Working with Navigation Tools.....	420
	Using the ViewCube and ShowMotion Navigation Tools.....	420
	Using the SteeringWheels Navigation Tool.....	421
	Using Help.....	422
	Opening the Help Feature.....	422
	Getting Started with AutoCAD Commands.....	423
	Drawing Objects.....	424
	Selecting, Viewing, and Erasing Objects.....	434
	Editing an Object.....	439
	Working with Commands.....	443
	Offsetting, Creating an Array and Mirroring Objects.....	443
	Moving and Rotating Objects.....	451
	Moving an Object Using Two Points.....	451
	Scaling and Stretching Objects.....	456
	Scaling an Object.....	456
	Applying Chamfer and Fillet Commands.....	462
10.10	Working with Text.....	466
	Creating Text.....	467
	Modifying Object Properties.....	478
	Applying Grid and Grid Snaps.....	479
	Working with Layers.....	481
	Working with Linetypes and Lineweights.....	492
10.11	Dimensioning and Drawing.....	499
	Creating a Horizontal or Vertical Dimension.....	500
	Controlling Dimensions.....	510
	Controlling the Dimension Text and Dimension Values.....	521
	Summary.....	530
	<b>Appendix A: Limits and Tolerance.....</b>	<b>531</b>
	<b>Appendix B: Locus of Points and Mechanism.....</b>	<b>535</b>
	<b>Index.....</b>	<b>537</b>
