

# Table of Contents

<b>Introduction.....</b>	<b>xxxix</b>
--------------------------	--------------

## **Part I: .NET Framework 4.0 and Visual Studio 2010**

<b>Chapter 1: Getting Started with .NET Framework 4.0.....</b>	<b>1</b>
Evolution of .NET.....	2
Overview of .NET Framework 4.0 .....	2
CLR.....	3
.NET Framework Class Library .....	5
CTS.....	6
Metadata and Assemblies.....	6
Windows Forms.....	8
ASP.NET and ASP.NET AJAX.....	9
ADO.NET.....	9
Windows Workflow Foundation.....	10
Windows Presentation Foundation.....	11
Windows Communication Foundation .....	12
Windows CardSpace .....	13
LINQ.....	14
Exploring New Features of .NET Framework 4.0.....	15
Improved Application Compatibility and Deployment Support .....	15
Dynamic Language Runtime.....	15
Managed Extensibility Framework .....	16
Parallel Computing.....	16
Improved Security Model.....	16
Networking Improvements.....	17
Improved Core ASP.NET Services .....	17
Improvements in WPF .....	17
Improved Entity Framework.....	17
Integration of WCF and WF .....	18
Summary.....	18
<b>Chapter 2: Introducing Visual Studio 2010 .....</b>	<b>19</b>
Exploring New Features of Visual Studio 2010.....	20
Enhanced Window Docking Feature.....	21
The Code Editor Zoom Feature.....	21

**Table of Contents**

---

The Box Selection Feature .....	22
The Navigate To Feature.....	22
The Highlighting References Feature.....	23
Generate Stub .....	23
IntelliSense Modes .....	24
Multiple Monitor Support .....	24
New Extension Manager.....	25
Unified Modeling Language (UML) Modeling.....	25
Enhanced Support for Multi-Targeting.....	26
Visualization Tools to Track Changes.....	27
Facilitation of Faster Code Generation.....	27
Export or Import Breakpoints .....	28
Breakpoint Labels Support .....	28
Dotfuscator Changes .....	30
New Web Profile Setting.....	30
New Controls in WPF in Visual Studio 2010.....	31
Improvements in Add Reference Dialog Box.....	31
Web Form Individual Close Button.....	32
New Project Templates .....	32
Work on SQL Server 2008 from IDE.....	33
Installing Visual Studio 2010 .....	33
Editions of Visual Studio .....	33
System Requirements for Visual Studio 2010.....	34
Exploring the Visual Studio 2010 IDE .....	40
Start Page .....	43
Menu Bar.....	43
Toolbars.....	43
Toolbox.....	44
Code Editor.....	44
IntelliSense.....	45
Designers.....	46
Solution Explorer .....	49
Properties Window.....	49
Object Browser .....	51
Class View .....	51
Server Explorer.....	52
Component Tray .....	54
Manage Styles tool.....	54
Output Window .....	55
Task List .....	55
Error List .....	56
Command Window .....	57
Help Viewer Window .....	57
Performing Basic IDE Operations .....	58

Creating a New Windows Forms Application.....	58
Saving Code on the Toolbox.....	59
Docking the Windows.....	61
Switching between the Windows .....	62
Specifying the .NET Framework Version for Projects.....	63
Exporting and Importing IDE Settings .....	65
Changing the IDE Font and Color .....	70
Building and Debugging the Projects.....	72
Summary.....	74
<b><u>Part II: Visual Basic Programming Language and OOPs</u></b>	
<b>Chapter 3: Introducing Visual Basic 2010.....</b>	<b>75</b>
<b><i>In Depth</i>.....</b>	<b>76</b>
Exploring New Features in Visual Basic 2010 .....	76
Support for Dynamic Data Type.....	76
Covariance and Contravariance.....	76
Support for Implicit Line Continuation .....	77
Auto-Implemented Properties .....	77
Collection Initializers.....	78
Multi-line Lambda Expressions .....	78
New Command-Line Option for Specifying a Language Version.....	78
Type Equivalence Support.....	78
Identifiers and Keywords.....	78
Visual Basic Statements .....	80
Statement Syntax .....	80
The Option and Imports Statements.....	82
The Option Statement.....	82
The Imports Statement .....	82
Namespaces .....	83
Data Types .....	85
Variables and Constants.....	86
Declaring Variables.....	86
Declaring Constants .....	89
Data Type Conversion.....	90
Operators.....	91
Arrays .....	95
Standard Arrays.....	95
Dynamic Arrays .....	96
Enumerations.....	96
Strings.....	96
<b><i>Immediate Solutions</i>.....</b>	<b>98</b>
Creating a Console Application .....	98
Using the Option Statement.....	99
Using the Imports Statement .....	99

**Table of Contents**

---

Creating Aliases for Namespace Classes.....	99
Declaring Variables and Constants.....	100
Converting Data Types.....	100
Creating Standard Arrays.....	102
Creating Dynamic Arrays.....	102
Creating Enumerations.....	103
Working with Strings.....	104
Using the Val and Str Functions.....	105
Commenting Your Code.....	106
Summary.....	106
<b>Chapter 4: Flow Control and Exception Handling in Visual Basic 2010.....</b>	<b>107</b>
<b><i>In Depth</i>.....</b>	<b>108</b>
Control Flow Statement.....	108
Selection Statements.....	108
Iteration Statements.....	110
The Jump Statements.....	112
The With Statement.....	113
Sub Procedures and Functions.....	113
Understanding Scope.....	115
Block Scope.....	116
Procedure Scope.....	116
Module Scope.....	117
Namespace Scope.....	117
Exception Handling.....	118
Structured Exception Handling.....	119
Unstructured Handling.....	120
<b><i>Immediate Solutions</i>.....</b>	<b>122</b>
Using the If Else Statement.....	122
Using the Select Case Statement.....	122
Using the While Statement.....	123
Using the Do While Statement.....	124
Using the For Statement.....	125
Using the For Each Statement.....	126
Using the With Statement.....	127
Jumping to the Label Statement.....	128
Breaking Out of a Loop.....	129
Using the Continue Statement.....	130
Creating Sub Procedure.....	131
Passing Variable Number of Arguments to a Procedure.....	132
Specifying the Optional Procedure Argument.....	132
Creating the Functions.....	133
Using the On Error Resume Next Statement.....	133
Using the On Error Statement.....	134

Capturing an Exception.....	135
Throwing an Exception .....	135
Summary .....	136
<b>Chapter 5: Object-Oriented Programming in Visual Basic 2010 .....</b>	<b>137</b>
<b><i>In Depth</i>.....</b>	<b>138</b>
Classes and Objects .....	138
Constructor and Destructor.....	138
Shared Members .....	139
Access Modifiers .....	139
Structure and Modules .....	140
Encapsulation .....	141
Inheritance.....	141
Inheritance Modifiers .....	142
Extension Method .....	142
Polymorphism .....	143
Compile Time Polymorphism/ Overloading.....	143
Runtime Polymorphism/ Overriding.....	144
Shadowing .....	145
Abstraction.....	145
Abstract Classes .....	146
Abstract Method .....	146
Interface .....	147
Syntax of Interface .....	147
Implementation of Interface .....	148
Interface and Inheritance .....	148
<b><i>Immediate Solutions</i> .....</b>	<b>150</b>
Creating Class.....	150
Creating Constructor .....	150
Creating an Object.....	151
Creating Shared Members.....	152
Using the Is and IsNot Operators to Compare Two Objects .....	154
Creating Destructor.....	155
Using the Finalize Method.....	155
Using the Dispose Method .....	155
Creating Structures .....	156
Implementing Inheritance.....	157
Creating an Extension Method.....	158
Implementing Early Binding/ Overloading.....	159
Implementing Late Binding/ Overriding .....	160
Implementing Shadowing.....	161
Using the MyBase Keyword .....	161
Using the MyClass Keyword .....	162
Creating Abstract Classes and Abstract Methods.....	163

**Table of Contents**

---

Using the NotInheritable and NotOverridable Keywords ..... 164  
Creating and Implementing Interface ..... 165  
Summary ..... 166

**Part III: Windows Forms and WPF**

**Chapter 6: Windows Forms in Visual Basic 2010 ..... 167**

***In Depth*..... 168**

Exploring Windows Forms ..... 168  
Displaying Messages ..... 172  
    The MsgBox Function..... 172  
    The MessageBox.Show Method ..... 173  
Handling Common Events for Windows Forms and Controls ..... 175  
    Handling Mouse Events..... 175  
    Handling Keyboard Events ..... 175

***Immediate Solutions* ..... 177**

Creating Windows Forms Applications ..... 177  
Adding Controls to Windows Forms ..... 178  
Disabling and Enabling Windows Forms ..... 179  
Changing the Title of Windows Forms ..... 180  
Setting a Border of Windows Forms ..... 181  
Displaying and Hiding the Maximize, Minimize, and Close Buttons of Windows Forms ..... 182  
Specifying the Initial Position of Windows Forms ..... 183  
Creating Multiform Windows Application ..... 184  
    Setting the Startup Form ..... 187  
Using the MsgBox Function..... 188  
Using the MessageBox.Show Method ..... 188  
Using Windows Forms to Create Dialog Boxes ..... 190  
    Creating a Dialog Box..... 190  
    Displaying and Reading Data from Dialog Boxes ..... 191  
    Creating the Accept and Cancel Buttons ..... 191  
Creating Owned Windows Forms ..... 192  
Creating Always-On-Top Windows Forms ..... 193  
Performing Some Common Operations on Controls..... 194  
    Hiding and Displaying Controls..... 194  
    Disabling and Enabling the Controls ..... 196  
    Specifying the Tab Order of Controls..... 197  
    Specifying Access Characters for Controls ..... 200  
    Moving and Resizing Controls..... 201  
    Adding a Control at Runtime ..... 202  
Handling Keyboard and Mouse Events ..... 203  
Specifying the Mouse Cursor for Windows Forms and Controls ..... 206  
Summary ..... 210

<b>Chapter 7: Windows Forms Controls – I .....</b>	<b>211</b>
<b><i>In Depth</i>.....</b>	<b>212</b>
The Control Class .....	212
The Button Control .....	217
The Label Control.....	217
The TextBox Control.....	219
The RichTextBox Control .....	220
The MaskedTextBox Control .....	222
<b><i>Immediate Solutions</i> .....</b>	<b>225</b>
Using Button Control.....	225
Setting the Caption of Buttons .....	225
Setting the Background and Foreground Colors of Buttons .....	226
Adding an Image to a Button .....	227
Handling the Click Events of Buttons .....	230
Handling Button Releases.....	231
Using the Label Control .....	231
Formatting the Text in Labels.....	232
Handling the Click and Double-Click Events of Labels.....	233
Using Labels to Specify Access Key for Other Controls .....	233
Using the TextBox, RichTextBox, and MaskedTextBox Controls.....	234
Adding Text in TextBox, RichTextBox, and MaskedTextBox Controls.....	234
Accessing the Text of TextBox Controls.....	235
Creating Multiline TextBox Controls .....	237
Aligning the Text in TextBox Controls.....	238
Selecting and Replacing Text in a TextBox.....	239
Copying and Retrieving the Selected Text to and from the Clipboard.....	240
Restricting Characters in TextBox Control .....	242
Accessing the Text of RichTextBox Control.....	242
Formatting the Text in RichTextBox Controls.....	244
Saving and Loading the Text of RichTextBox Controls .....	247
Controlling the User Input with MaskedTextBox Controls .....	249
Summary .....	250
<b>Chapter 8: Windows Forms Controls – II .....</b>	<b>251</b>
<b><i>In Depth</i>.....</b>	<b>252</b>
The RadioButton Control .....	252
The CheckBox Control.....	253
The ListBox Control .....	255
The CheckedListBox Control.....	257
The ComboBox Control .....	259
<b><i>Immediate Solutions</i> .....</b>	<b>262</b>
Using the Radio Button Control.....	262
Setting the Text for the Radio Button Controls .....	262
Retrieving and Setting the Check State of Radio Button Controls.....	263

**Table of Contents**

---

Creating Toggle Buttons .....	264
Using the CheckBox Control.....	265
Setting the Text for CheckBox Controls .....	266
Retrieving and Setting the Check State of the CheckBox Controls.....	266
Creating Three-State CheckBox Control .....	267
Using the ListBox Control.....	268
Adding Items to the ListBox Control .....	269
Retrieving Indexes of Items from the ListBox Controls .....	270
Retrieving the Number of Items in the ListBox Controls .....	271
Sorting Items in the ListBox Control .....	272
Retrieving Selected Items of ListBox Controls .....	272
Creating the ListBox Controls with Multiple Columns .....	273
Creating Multiselect ListBoxes.....	273
Handling the SelectedIndexChanged Event.....	274
Removing Items from the ListBox Controls .....	275
Using the CheckedListBox Control.....	276
Adding Items to the CheckedListBox Control .....	277
Setting the Check State of Items in CheckedListBox Control.....	278
Retrieving the Check State of Items in the CheckedListBox Control .....	278
Handling the ItemCheck Event of the CheckedListBox Control .....	279
Using the ComboBox Control.....	280
Adding Items in the ComboBox Controls.....	281
Setting the Drop-down Style of the ComboBox Controls.....	281
Displaying the Selected Items of a ComboBox Control .....	283
Retrieving a Number of Items in the ComboBox Controls.....	283
Sorting the Items in a ComboBox Control .....	284
Sorting Objects in the ComboBox Control.....	285
Using the AddRange Method.....	286
Handling the TextChanged and SelectedIndexChanged Events.....	287
Summary .....	288
<b>Chapter 9: Windows Forms Controls - III.....</b>	<b>289</b>
<b><i>In Depth</i></b> .....	<b>290</b>
The ListView Control.....	290
The TreeView Control .....	292
The ImageList Control.....	295
The PictureBox Control .....	296
The Panel Control.....	298
The GroupBox Control .....	299
The TabControl Control .....	301
<b><i>Immediate Solutions</i></b> .....	<b>303</b>
Using the ListView Control .....	303
Adding Items to a ListView Control .....	303
Working with Selected Items of a ListView Control .....	304

Removing Items from ListView Controls .....	305
Displaying Check Boxes in a ListView Control .....	306
Setting the View of a ListView Control.....	306
Using the TreeView Control .....	307
Adding Nodes to a TreeView Control .....	308
Handling the AfterSelect Event.....	309
Displaying Check Boxes in a TreeView Control .....	310
Using the ImageList Control.....	310
Adding Images to an ImageList Control.....	311
Using Image Lists with Controls that Have the ImageList and ImageIndex Properties .....	313
Using Image Lists with Controls That Have the Image or BackgroundImage Property .....	314
Using the PictureBox Control .....	315
Setting Images in a PictureBox Control.....	316
Controlling the Position and Size of an Image in a Picture Box Control .....	318
Creating Image Maps in Picture Box Controls with the MouseDown Event.....	318
Using the Panel Controls.....	319
Grouping Other Controls in a Panel Control .....	320
Using Border with the Panel Control.....	321
Adding Scroll Bar to Panel Controls.....	321
Using the GroupBox Control to Group Other Controls .....	322
Using the TabControl Control .....	323
Adding a New Tab to a TabControl Controls .....	324
Adding Other Controls to the Tabs .....	325
Displaying Images in Tabs.....	326
Working with the Selected Tab .....	327
Summary .....	328
<b>Chapter 10: Windows Forms Controls - IV .....</b>	<b>329</b>
<b><i>In Depth</i>.....</b>	<b>330</b>
The SplitContainer Control.....	330
The ScrollBar Control.....	332
The TrackBar Control .....	333
The ToolTip Control .....	335
The NotifyIcon Control .....	337
The MonthCalendar Control.....	338
The DateTimePicker Control .....	341
The Timer Control.....	343
The ProgressBar Control .....	344
<b><i>Immediate Solutions</i>.....</b>	<b>347</b>
Using the SplitContainer Control.....	347
Making Splitter based User Interfaces with SplitContainer Control.....	347
Changing the Orientation of SplitContainer Controls .....	349
Using the ScrollBar Controls.....	350
Specifying the Range of ScrollBar Controls .....	350

**Table of Contents**

---

Specifying the Movement of ScrollBar Controls on Clicking .....	350
Setting and Retrieving the Current Value of ScrollBar Controls .....	351
Handling the Scroll Event of ScrollBar Controls.....	351
Displaying Images with ScrollBar Controls.....	353
Using the TrackBar Control .....	354
Setting and Retrieving the Maximum and Minimum value for the Slider.....	355
Handling Track Bar Events.....	356
Using the ToolTip Control .....	357
Setting the Tool Tips for Controls.....	357
Setting the Delay in Displaying the ToolTip Control .....	358
Using the NotifyIcon Control .....	358
Using the Icon Designer.....	359
Hiding the NotifyIcon .....	360
Using the MonthCalendar and DateTimePicker Controls .....	361
Handling the Events of MonthCalendar Control .....	362
Setting and Retrieving a Date using DateTimePicker Control.....	362
Specifying the Format for DateTimePicker Controls .....	363
Using the Timer Control.....	364
Setting the Interval of Timer Control .....	365
Enabling and Disabling Timer Control .....	365
Handling the Tick Event .....	365
Using the ProgressBar Control.....	367
Specifying the Range of ProgressBar Controls.....	368
Setting the Current Value of ProgressBar Controls .....	368
Setting the Style of ProgressBar Controls .....	368
Summary .....	368
<b>Chapter 11: Windows Forms Controls – V.....</b>	<b>369</b>
<b><i>In Depth.....</i></b>	<b>370</b>
The ToolStrip Control .....	370
The ToolStripItem Class .....	373
The MenuStrip Control.....	376
The ToolStripMenuItem Class .....	377
The ContextMenuStrip Control.....	378
The StatusStrip Control .....	379
The Dialog Box Controls .....	380
The FolderBrowserDialog Control .....	381
The OpenFileDialog Control .....	382
The SaveFileDialog Control.....	383
The FontDialog Control .....	384
The ColorDialog Control.....	385
The Printing Controls.....	386
<b><i>Immediate Solutions.....</i></b>	<b>394</b>
Using the ToolStrip Control.....	394

---

Adding Items to the ToolStrip Control .....	394
Handling the Click Event of the ToolStripButton Control .....	396
Setting the Tool Tips for ToolStrip Items .....	396
Using the TAB Key to Navigate through the ToolStrip Items .....	397
Using the MenuStrip and ContextMenuStrip Controls .....	397
Adding Menu Items .....	398
Adding Submenus .....	399
Disabling and Enabling Menu Items .....	400
Hiding and Displaying Menu Items .....	402
Displaying Checkmarks on Menu Items .....	403
Displaying a Separator between the Menu Items .....	403
Setting Access Keys for Menu Items .....	404
Setting the Shortcut Keys for Menu Items .....	405
Adding Images to the Menu Items .....	406
Creating Context Menus .....	407
Associating a Context Menu with another Controls .....	408
Adding Text Boxes and Combo Boxes to Menus and Context Menus .....	409
Linking Menu Items with the ToolStrip Button .....	411
Using the StatusStrip Control .....	412
Adding a Label to a StatusStrip Control .....	413
Displaying an Icon in the StatusStrip Control .....	414
Adding Split Buttons and Progress Bars in StatusStrip Controls .....	414
Handling the ItemClicked Event .....	416
Using the Dialog Box Controls .....	416
Using the FolderBrowserDialog Control to Browse Through Folders .....	416
Using the OpenFileDialog Control to Open Files .....	418
Using the SaveFileDialog Control .....	419
Using the FontDialog Control to Select Fonts .....	421
Using the ColorDialog Control to Select Colors .....	422
Using the Printing Controls .....	423
Summary .....	428
<b>Chapter 12: Introducing Windows Presentation Foundation .....</b>	<b>429</b>
<b><i>In Depth</i></b> .....	<b>430</b>
New Features of WPF 4.0 .....	430
New WPF Controls .....	431
Support for Development of Touch-Enabled Application .....	432
Easing Functions for Enhancing Animations .....	432
Visual State Manager (VSM) .....	433
Selection and Caret Brushes .....	433
New WPF Text Rendering Stack .....	434
Improvements in XBAPs .....	434
Integration with Windows 7 Taskbar .....	434
WPF 4.0 Architecture .....	434
PresentationFramework .....	435

## Table of Contents

---

PresentationCore .....	435
WindowsBase .....	435
MIL or Milcore .....	435
WPF 4.0 Class Hierarchy .....	436
The System.Windows.Threading.DispatcherObject Class .....	436
The System.Windows.DependencyObject Class .....	437
The System.Windows.Freezable Class .....	437
The System.Windows.Media.Visual Class .....	437
The System.Windows.UIElement Class .....	438
The System.Windows.FrameworkElement Class .....	438
The System.Windows.Controls.Control Class .....	438
The System.Windows.Controls.Panel Class .....	438
The System.Windows.Shapes.Shape Class .....	439
The System.Windows.ContentElement Class .....	439
WPF 4.0 Application Model .....	439
Types of WPF Applications .....	439
The Application Class .....	446
Exploring the WPF 4.0 Designer Interface .....	448
Design View .....	449
XAML View .....	453
Split View Bar .....	454
Tag Navigator .....	455
Solution Explorer .....	456
Properties Window .....	456
Toolbox .....	457
Document Outline Window .....	458
Using XAML in WPF 4.0 Applications .....	458
XAML Elements .....	459
Namespaces and XAML .....	460
XAML Property Syntax .....	461
Markup Extensions .....	462
WPF Properties .....	463
Dependency Properties .....	463
Attached Properties .....	471
WPF Events .....	473
Routed Events .....	473
Attached Events .....	478
Lifetime Events .....	478
Working with Dialog Boxes in WPF Applications .....	480
The MessageBox Class .....	481
The OpenFileDialog Class .....	481
The SaveFileDialog Class .....	481
The PrintDialog Class .....	481
Compiling and Running WPF 4.0 Applications .....	482

<b>Immediate Solutions .....</b>	<b>485</b>
Working with WPF Windows .....	485
Adding Rows and Columns to a Grid Through XAML .....	489
Creating a Dialog Box in a WPF 4.0 Application.....	490
Using a Message Box .....	491
Using the Print Dialog Box .....	492
Working with Custom Routed Events.....	494
Summary .....	496
<b>Chapter 13: Working with WPF 4.0 Controls, Resources, Styles, Templates, and Commands .....</b>	<b>497</b>
<b>In Depth.....</b>	<b>498</b>
WPF 4.0 Controls.....	498
Container Controls .....	498
Simple Controls.....	506
Content Controls.....	514
Headered Content Controls.....	525
Items Controls .....	528
Headered Items Controls.....	537
Miscellaneous Controls .....	540
Resources.....	548
Static Resources.....	549
Dynamic Resources .....	549
Styles and Templates .....	549
Styles in WPF 4.0.....	550
Templates.....	550
Triggers .....	551
WPF Commands .....	553
Interoperability between Windows Forms and a WPF 4.0 Application .....	554
<b>Immediate Solutions .....</b>	<b>555</b>
Using WPF Controls .....	555
Adding Controls through the XAML Code.....	555
Adding Controls through the Code-Behind File.....	556
Using Dynamic Layout of Controls.....	557
Setting the Absolute Position of Controls.....	559
Adding Borders to Controls .....	560
Using the PasswordBox Control .....	560
Creating a Scrollable Area in a WPF Application.....	561
Using the Slider Control.....	562
Using the ViewBox Control .....	562
Assigning the Access Key for Controls .....	563
Using the Expander Control.....	564
Using the NavigationWindow and Frames Controls.....	565
Using the Calendar and DatePicker Controls .....	566

**Table of Contents**

---

Using the Resources, Styles, and Templates.....	567
Accessing Resources from Code.....	567
Using Dynamic Resources.....	568
Setting Styles through Resources.....	569
Extending an Existing Style.....	570
Using DataTemplate to Change the Appearance of the Content of Control.....	570
Using the ControlTemplate Template.....	571
Using the DataTemplate Template.....	572
Handling Events in Styles using the EventSetter Class.....	573
Using Triggers.....	574
Setting the Value of Properties using Triggers.....	574
Performing Actions using Triggers.....	575
Using WPF Commands with Controls.....	577
Hosting a Windows Forms Control in a WPF Application.....	578
Hosting a WPF Control in a Windows Forms Application.....	579
Summary.....	580
<b>Chapter 14: Using Graphics and Multimedia in Windows Forms and WPF.....</b>	<b>581</b>
<b><i>In Depth</i>.....</b>	<b>582</b>
New Features in Graphics and Multimedia in WPF 4.0.....	582
Graphics in Windows Forms Applications.....	582
GDI+ Managed Class Interface.....	583
Basic GDI+ Managed Classes.....	583
Graphics, Animation, and Multimedia in WPF 4.0.....	588
2-D Graphics.....	589
3-D Graphics.....	599
Animation in WPF 4.0.....	603
Multimedia in WPF 4.0.....	612
<b><i>Immediate Solutions</i>.....</b>	<b>618</b>
Using Graphics in Windows Forms.....	618
Using 2-D Graphics in WPF 4.0.....	619
Using 2-D Shapes.....	620
Creating Stretchable Shapes.....	621
Drawing Geometry.....	622
Combining Multiple Geometries.....	623
Transforming Shapes.....	624
Using the Path and PathGeometry Classes.....	625
Using Brushes.....	626
Changing the Tile Size and the Pattern of Brushes.....	630
Creating Reflections using VisualBrush.....	631
Preserving the Aspect Ratio of Image.....	632
Using 3-D Graphics in WPF 4.0.....	633
Creating 3-D Models.....	633
Using DrawingBrush to Apply Material on 3-D Models.....	634

Adding Cameras .....	636
Adding Lights .....	638
Transforming 3-D Models.....	642
Using Animation in WPF 4.0 .....	646
Creating Animations Using Storyboards.....	647
Changing the Speed of Animations.....	650
Reversing the Animation .....	651
Controlling the Behavior of Animation .....	652
Specifying the Behavior of Animation after Ending.....	653
Running Multiple Animations Simultaneously .....	654
Controlling Storyboards Interactively.....	655
Using DoubleAnimation to Transform Controls.....	658
Creating Local Animations.....	660
Using the Key-Frame Animation.....	661
Animating Geometries .....	665
Using Animation with 3-D Models .....	666
Using Multimedia in WPF 4.0 .....	670
Displaying Images using the Image Control.....	670
Transforming Images .....	671
Stretching Images.....	672
Using the MediaElement Class to Control the Media Playback .....	673
Adding Media Using the MediaPlayer Class .....	675
Using Storyboard to Control the Media Playback .....	676
Playing a Media on a User Event.....	677
Transforming a Video in MediaElement.....	680
Summary .....	682

## **Part IV: ASP.NET 4.0**

<b>Chapter 15: Introducing ASP.NET 4.0 and Web Forms .....</b>	<b>683</b>
<b><i>In Depth</i>.....</b>	<b>684</b>
New Features in ASP.NET 4.0 .....	684
ASP.NET Core Services.....	684
ASP.NET Web Forms .....	685
Dynamic Data.....	686
ASP.NET Chart Control.....	686
Microsoft AJAX Functionality .....	687
Support for MVC based Web Applications .....	687
Improved CSS Compatibility .....	687
Types of Location for ASP.NET Web Application.....	688
File-System Based .....	688
HTTP .....	689
FTP-Based .....	692
Structure of an ASP.NET Web Site .....	693
ASP.NET Application Folders.....	693

**Table of Contents**

---

File Types in ASP.NET Web Sites .....	695
Structure of an ASP.NET Web Application .....	697
The Application Domain.....	697
The Application Lifetime .....	698
The Application Directory Structure .....	698
The ASP.NET Life Cycle.....	699
ASP.NET Application Life Cycle on IIS 7.5 .....	699
ASP.NET Page Life Cycle .....	701
Different Stages of an ASP.NET Page.....	701
ASP.NET Pages Life Cycle Events .....	702
The Preinit event .....	702
The Init event.....	702
The Load event.....	702
Compilation in ASP.NET 4.0 .....	702
Dynamic Compilation in ASP.NET 4.0.....	703
Compiling on First Request .....	704
Recompiling on Change.....	704
Compilation Dependencies .....	704
Compilation Output .....	704
Multiple Language Support .....	705
Optimizing Dynamic Compilation .....	705
Disadvantages of Dynamic Compilation .....	705
ASP.NET 4.0 Coding Models.....	705
Single-File Page Model.....	705
Code-Behind Page Model .....	707
The System.Web.UI.Page Class .....	709
ASP.NET Web Page Syntax .....	711
Web Page Directives.....	711
Form Elements .....	713
Web Server Controls.....	714
<b>Immediate Solutions .....</b>	<b>715</b>
Creating a New Web Site .....	715
Using File System based Location .....	715
Using HTTP-based Location .....	717
Using FTP-Based Location.....	719
Creating a Web Application Project .....	719
Setting the Title Bar Text of a Web Form.....	720
Adding a Background Color to a Web Form .....	721
Adding a Background Image to a Web Form .....	722
Adding Controls to a Web Form.....	723
Hiding and Displaying Controls.....	724
Disabling and Enabling Controls.....	724
Setting the Captions and Fonts of Controls .....	725
Setting the Tab Order of a Control .....	726

Setting the Styles of Controls.....	727
Adding Tool Tips to Controls.....	728
Specifying Access Characters for Controls.....	729
Running a Web Application .....	729
Creating a Multiform Web Application .....	730
Displaying the Life Cycle of a Page .....	731
Handling Events.....	733
Web Forms Navigation and Cross-Page Posting .....	735
Summary .....	738
<b>Chapter 16: Standard Web Server Controls .....</b>	<b>739</b>
<b><i>In Depth</i>.....</b>	<b>740</b>
The Control Class .....	740
The WebControl Class.....	741
The Button Control .....	743
The TextBox Control.....	744
The Label Control.....	745
The HyperLink Control.....	745
The HiddenField Control .....	746
The FileUpload Control.....	746
The CheckBox Control.....	747
The CheckBoxList Control .....	747
The RadioButton Control .....	748
The RadioButtonList Control.....	748
The ListBox Control .....	749
The DropDownList Control.....	749
The Image Control .....	750
The Calendar Control .....	750
<b><i>Immediate Solutions</i>.....</b>	<b>753</b>
Using the Button Control .....	753
Using the TextBox Control.....	754
Using the Label Control .....	755
Using the HyperLink Control.....	756
Using the HiddenField Control.....	757
Using the FileUpload Control.....	758
Using the CheckBox Control.....	760
Using the CheckBoxList Control.....	762
Using the RadioButton Control .....	763
Using the RadioButtonList Control .....	765
Using the ListBox Control.....	767
Using the DropDownList Control.....	768
Using the Image Control .....	769
Using the Calendar Control .....	771
Summary .....	772

<b>Chapter 17: Navigation Controls in ASP.NET 4.0</b> .....	<b>773</b>
<b><i>In Depth</i></b> .....	<b>774</b>
Using the TreeView Class .....	774
The TreeView Control .....	776
Adding Nodes to a TreeView Control Dynamically .....	777
Adding Nodes to a TreeView Control Using the DataSource Property .....	777
Adding Nodes to a TreeView Control at Design Time .....	778
Using the Menu Class.....	779
The Menu Control.....	781
Menu Display Properties .....	782
Menu Styles .....	782
Using the SiteMapPath Class.....	782
The SiteMapPath Control .....	784
Data Retrieval Using the SiteMapPath Control .....	784
SiteMapPath Behaviors .....	784
SiteMapPath Style .....	785
SiteMapPath Templates .....	785
<b><i>Immediate Solutions</i></b> .....	<b>786</b>
Creating the TreeView Control .....	786
Generating TreeView from a Database .....	790
Creating Static Menus.....	795
Creating Dynamic Menus .....	798
Creating SiteMapPath.....	800
Summary .....	802
<b>Chapter 18: Login and Web Parts Controls in ASP.NET 4.0</b> .....	<b>803</b>
<b><i>In Depth</i></b> .....	<b>804</b>
Introducing Login Controls .....	804
The Login Control.....	805
The LoginView Control.....	807
The LoginName Control .....	808
The LoginStatus Control .....	809
The PasswordRecovery Control.....	810
The ChangePassword Control .....	812
The CreateUserWizard Control .....	815
Introducing Web Parts Controls.....	819
The WebPartManager Control .....	819
The ProxyWebPartManager Control .....	828
The WebPartZone Control.....	829
The CatalogZone Control.....	831
The DeclarativeCatalogPart Control .....	832
The PageCatalogPart Control.....	834
The ImportCatalogPart Control .....	835
The EditorZone Control .....	836

The LayoutEditorPart Control .....	838
The AppearanceEditorPart Control.....	839
The PropertyGridEditorPart Control .....	840
The BehaviorEditorPart Control .....	841
The ConnectionsZone Control .....	842
<b>Immediate Solutions .....</b>	<b>845</b>
Using the Login and LoginView Controls .....	845
Using the LoginName and LoginStatus Controls .....	852
Using the CreateUserWizard Control.....	853
Using the PasswordRecovery and ChangePassword Controls .....	855
Creating the WebPartManager Control in Code.....	860
Creating the WebPartZone Control in Code.....	862
Creating the CatalogZone Control in Code .....	863
Creating the EditorZone Control in Code.....	865
Creating Custom Web Parts.....	867
Creating the ConnectionsZone Control in Code .....	870
Summary .....	872
<b>Chapter 19: Developing Rich-Interactive Applications with Silverlight 4.....</b>	<b>873</b>
<b>In Depth.....</b>	<b>874</b>
Main Features of Silverlight.....	874
Improved Programming Model.....	875
Comprehensive UI Framework.....	875
Support for Deep Zoom Technology .....	875
Support for 2-D Graphics, Animations, and Multimedia .....	875
Support for Networking .....	876
Support for Higher Quality Video & Audio.....	876
Empowering Richer Experiences .....	876
Improving Rich Internet Application Productivity .....	876
Enhanced Data Support .....	877
Improved performance .....	877
Out of Browser Capabilities .....	877
Architecture of Silverlight.....	878
The .NET Framework for Silverlight .....	878
The Core Presentation Framework .....	879
Installation of Silverlight 4.0 .....	879
New Features of Silverlight 4.0.....	881
Silverlight Applications in Visual Studio 2010 .....	882
Assemblies and Files in Silverlight Applications.....	884
Controls in Silverlight Applications .....	891
<b>Immediate Solutions .....</b>	<b>909</b>
Creating a Simple Silverlight Application .....	909
Using Silverlight Controls.....	911
Using the Calendar Control.....	911

**Table of Contents**

---

Using the DatePicker Control.....	918
Using the GridSplitter Control.....	921
Using the HyperlinkButton Control.....	923
Using the MediaElement Control.....	924
Using the Popup Control.....	927
Using the TabControl Control.....	928
Using the AutoCompleteBox Control.....	933
Using the DataPager Control.....	935
Using the TreeView Control.....	937
Using the RichTextBox Control.....	938
Using Viewbox Control.....	940
Using WebBrowser Control.....	942
Summary.....	944

**Part V: Services and Deployment**

<b>Chapter 20: ASP.NET 4.0 Web Services .....</b>	<b>945</b>
<b><i>In Depth</i>.....</b>	<b>946</b>
Introducing Web Services .....	946
Infrastructure of ASP.NET Web Services.....	947
Web Services Directory .....	947
Web Services Discovery .....	948
Web Services Description .....	948
Web Services Wire Format.....	950
Code Model of ASP.NET Web Services.....	952
The WebService Directive.....	953
The Code-Behind File.....	953
Web Service Properties.....	954
The Application Property .....	955
The Context Property .....	955
The Server Property.....	956
The Session Property.....	956
ASP.NET AJAX and Web Services.....	957
ASP.NET AJAX Client Architecture for Web Services.....	957
ASP.NET AJAX Server Architecture for Web Services.....	958
Securing Web Services.....	959
Encryption and Message-Based Security.....	959
Authentication and Access Controls for Web Services.....	959
<b><i>Immediate Solutions</i>.....</b>	<b>960</b>
Creating a Web Service.....	960
Creating a Web Service Project .....	960
Declaring the Web Service.....	961
Setting the WebService Attribute.....	962
Declaring Methods for a Web Service.....	962
Deploying a Web Service .....	964

Using the WebService Class.....	968
Using the Web Service.....	970
Using the EnableDecompression Property.....	973
Sharing Data across Web Services.....	974
Calling a Web Service from the Client.....	977
Caching with Web Services.....	979
Working with ASP.NET AJAX Enabled Web Services.....	981
Creating the ASP.NET AJAX-Enabled Web Service.....	981
Calling the ASP.NET AJAX enabled Web service from script.....	983
Using the UpdatePanel Control with a Web Service.....	984
Summary.....	986
<b>Chapter 21: Working with Windows Communication Foundation .....</b>	<b>987</b>
<b><i>In Depth</i>.....</b>	<b>988</b>
What's New in WCF 4.0?.....	988
The Routing Service Feature.....	988
Default Configuration.....	988
Support for Discovery Behaviors.....	989
Improved REST Service Development.....	989
Support for the Integration of WCF with WF.....	989
Instancing Model of WCF Services.....	989
Per-Call Instancing Service.....	990
Per-Session Instancing Service.....	991
Sharable Instancing Service.....	992
Singleton Instancing Service.....	993
The WCF Architecture.....	993
The Contracts Layer.....	994
The Service Runtime Layer.....	994
The Messaging Layer.....	994
The Hosting and Activation Layer.....	994
WCF Endpoints.....	995
Endpoint Addresses.....	996
Bindings.....	996
Service Contracts.....	998
Behaviors.....	1000
Configuration of WCF Services.....	1000
WCF Clients.....	1002
WCF Service Identity.....	1002
WCF and ASP.NET AJAX.....	1003
<b><i>Immediate Solutions</i>.....</b>	<b>1004</b>
Creating WCF Services.....	1004
Creating a Service Contract and Defining the Operations.....	1004
Implementing the Service Contract.....	1005
Configuring the Service.....	1006

**Table of Contents**

---

Hosting WCF Services.....	1010
Calling the WCF Service.....	1020
Creating a WCF Client .....	1021
Configuring the WCF Client.....	1024
Calling Operations of a WCF Service.....	1025
Calling WCF Services with ASP.NET AJAX.....	1027
Creating an ASP.NET AJAX-Enabled WCF Service.....	1027
Calling WCF Services from Client-Side Scripts.....	1030
Summary .....	1032
<b>Chapter 22: Deploying Windows and Web Applications.....</b>	<b>1033</b>
<b><i>In Depth</i>.....</b>	<b>1034</b>
Deployment Technologies in Visual Studio 2010.....	1034
Windows Installer Deployment Technology.....	1034
ClickOnce Deployment Technology.....	1035
Application Deployment Editors .....	1037
File System Editor.....	1037
Registry Editor .....	1037
File Types Editor .....	1038
User Interface Editor.....	1038
Custom Actions Editor.....	1039
Launch Conditions Editor.....	1040
Including Prerequisites for an Application Deployment .....	1040
XCOPY Deployment .....	1042
Deploying Web Applications and Web Sites.....	1042
Creating Web Deployment Packages.....	1043
Using the One-Click Publishing Feature.....	1043
Transforming the Web.config File .....	1044
Deploying an SQL Server Database.....	1044
Using the Copy Web Site Tool .....	1045
<b><i>Immediate Solutions</i>.....</b>	<b>1046</b>
Deploying a Windows Application Using Windows Installer.....	1046
Creating an Installer File.....	1046
Adding Shortcuts to User Desktop or User Programs Menu.....	1050
Deploying an Application on a Target Computer .....	1051
Deploying a Windows Application Using ClickOnce.....	1054
Building a Self-Updating Application .....	1057
Deploying a Web Application .....	1058
XCOPY Deployment.....	1063
Deploying a WPF Application.....	1063
Deploying an XBAP Application Using Windows Installer .....	1066
Summary .....	1068

**Part VI: ADO.NET and LINQ**

<b>Chapter 23: ADO.NET Entity Framework .....</b>	<b>1069</b>
<b><i>In Depth</i>.....</b>	<b>1070</b>
Exploring ADO.NET Entity Framework.....	1071
Exploring the Features of Entity Framework .....	1073
Understanding the Entity Data Model .....	1075
Data modeling.....	1075
Conceptual Schema Definition Language.....	1076
Storage Schema Definition Language .....	1077
Mapping Specification Language .....	1078
The EDM Types.....	1078
Type Constraints.....	1080
Data Model Tools.....	1080
Understanding Object Services.....	1080
Classes of Object Services .....	1080
Features of Object Services .....	1081
Understanding Entity SQL Language .....	1082
Features of Entity SQL .....	1082
Operators for Entity SQL.....	1085
Understanding the EntityClient Provider.....	1085
ADO.NET Metadata .....	1090
EDM Generator Tool.....	1092
<b><i>Immediate Solutions</i>.....</b>	<b>1095</b>
Using Entity Framework.....	1095
Creating an Entity Data Model.....	1095
Working with Entity Data Model Designer.....	1099
Using the Entity Model Browser Window.....	1099
Using the Mapping Details Window.....	1101
Working with Entity Framework Controls.....	1104
Creating an Entity by Using the Entity Control.....	1104
Creating an Association by Using the Association Control.....	1105
Creating an Inheritance by Using the Inheritance Control.....	1107
Creating an EDM-Based Application .....	1107
Summary.....	1110
<b>Chapter 24: .NET and SQL Server.....</b>	<b>1111</b>
<b><i>In Depth</i>.....</b>	<b>1112</b>
Hosting of .NET Runtime.....	1112
Exploring the Microsoft.SqlServer.Server Namespace.....	1113
Exploring Stored Procedures.....	1114
Exploring Triggers .....	1114
Exploring User-Defined Aggregate Functions .....	1115
Exploring UDFs.....	1116
Exploring UDT .....	1117

**Table of Contents**

---

Using XML Data in SQL Server.....	1117
<b>Immediate Solutions.....</b>	<b>1118</b>
Creating a SQL Server Project.....	1118
Connecting a SQL Server Project with SQL Server 2008.....	1119
Creating and Using Stored Procedures.....	1120
Creating and Using Triggers.....	1123
Creating and Using User-Defined Aggregate Functions.....	1125
Creating and Using UDFs.....	1127
Creating and Using UDTs.....	1128
Handling XML Data in SQL Server and .NET Framework.....	1132
Summary.....	1134
<b>Chapter 25: Data Access with ADO.NET.....</b>	<b>1135</b>
<b>In Depth.....</b>	<b>1136</b>
Understanding Databases.....	1136
Understanding SQL.....	1136
The SELECT Statement.....	1137
The WHERE Clause.....	1137
The LIKE Clause.....	1137
The DISTINCT Clause.....	1137
The Logical Operations.....	1138
The ORDER BY Clause.....	1138
The GROUP BY Clause.....	1138
The DELETE Statement.....	1138
The UPDATE Statement.....	1138
Joining Tables.....	1138
The DROP Statement.....	1139
Understanding ADO.NET.....	1139
Describing the Architecture of ADO.NET.....	1140
ADO.NET Entity Framework.....	1143
<b>Immediate Solutions.....</b>	<b>1145</b>
Creating Connection Strings.....	1145
Creating a Connection to a Database.....	1148
SQL Server Database.....	1148
OLEDB Database.....	1154
ODBC Data Source.....	1160
Creating a Command Object.....	1167
Working with DataAdapters.....	1168
Creating DataSet from DataAdapter.....	1168
Paging with DataAdapters.....	1169
Updating with DataAdapters.....	1170
Adding Multiple Tables to a DataSet.....	1170
Creating DataView.....	1171

---

Using DataReader to Work with Databases .....	1173
Summary .....	1174
<b>Chapter 26: Data Binding in Windows Forms and WPF Applications .....</b>	<b>1175</b>
<b><i>In Depth</i>.....</b>	<b>1176</b>
Basic Data Binding Concepts.....	1176
Types of Data Binding .....	1176
Simple Data Binding.....	1177
Complex Data Binding.....	1177
Data Binding in Windows Forms.....	1177
Data Binding in Windows Presentation Foundation.....	1178
Data Flow Directions in WPF .....	1178
Sources of Data Binding.....	1178
Different Ways of Data Binding in WPF .....	1179
Data Binding in WPF Using WCF Data Services.....	1179
<b><i>Immediate Solutions</i> .....</b>	<b>1180</b>
Implementing Simple Data Binding in Windows Forms .....	1180
Implementing Complex Data Binding in Windows Forms .....	1184
Binding Windows Forms Controls .....	1185
Text Boxes and Labels .....	1185
Check Boxes.....	1186
Combo Boxes .....	1188
List Boxes .....	1189
Checked List Boxes .....	1190
MenuStrip and StatusStrip Controls .....	1190
Using the BindingContext Class.....	1192
Moving to the Next Record .....	1194
Moving to the Previous Record.....	1194
Moving to the First Record.....	1195
Moving to the Last Record.....	1195
Using Parameterized SQL Queries .....	1195
Binding Data in WPF .....	1196
Binding a CLR Object in WPF.....	1198
Binding an ADO.NET object in WPF.....	1200
Binding an XML Object in WPF .....	1202
Using the DependencyObject Constructor in WPF.....	1203
Binding a Web Service in WPF .....	1204
Creating a WCF Data Service.....	1208
Summary .....	1210
<b>Chapter 27: Data Binding in ASP.NET Applications .....</b>	<b>1211</b>
<b><i>In Depth</i>.....</b>	<b>1212</b>
Data Bound Controls in ASP.NET .....	1212
The GridView Control.....	1213
The DataList Control .....	1217

**Table of Contents**

---

The DetailsView Control.....	1218
The FormView Control .....	1222
The ListView Control .....	1225
The Repeater Control .....	1228
The DataPager Control.....	1230
The Chart Control.....	1232
The QueryExtender Control .....	1233
Data Source Controls in ASP.NET .....	1234
The SqlDataSource Control .....	1235
The AccessDataSource Control .....	1238
The LinqDataSource Control.....	1240
The ObjectDataSource Control.....	1243
The XmlDataSource Control.....	1246
The EntityDataSource Control .....	1248
The SiteMapDataSource Control .....	1251
Data Binding in Silverlight.....	1253
Types of Data Binding in Silverlight .....	1253
Binding Object.....	1253
Data Context.....	1253
Converters.....	1254
DataTemplate and ObservableCollection.....	1254
Data Binding Using Networking API .....	1254
<b>Immediate Solutions .....</b>	<b>1255</b>
Using the SqlDataSource Control.....	1255
Using the AccessDataSource Control .....	1260
Using the LinqDataSource Control.....	1265
Using the ObjectDataSource Control.....	1269
Using the XmlDataSource Control.....	1272
Using the EntityDataSource Control .....	1275
Using the GridView Control.....	1280
Using the DataList Control .....	1284
Using the DetailsView Control.....	1287
Using the FormView Control.....	1289
Using the Repeater Control.....	1293
Using the ListView and DataPager Controls.....	1295
Using the Chart Control .....	1300
Using the QueryExtender Control .....	1302
Data Binding with Silverlight Application .....	1304
Summary.....	1306
<b>Chapter 28: Working with LINQ .....</b>	<b>1307</b>
<b>In Depth.....</b>	<b>1308</b>
Understanding LINQ Queries .....	1308
Data Sources in LINQ Queries .....	1308
Deferred Query Execution and Immediate Execution .....	1309

LINQ and Generic Types .....	1309
Standard Query Operators.....	1309
The Filtering Operators .....	1310
The Projection Operators .....	1310
The Sorting Operators .....	1311
The Join Operators.....	1311
The Grouping Operators.....	1311
The Quantifier Operators.....	1312
The Partitioning Operators.....	1312
The Set Operators.....	1312
The Element Operators .....	1313
The Aggregate Operators.....	1313
The Conversion Operators.....	1314
The Generation Operators .....	1314
The Zip Operators.....	1314
Introducing LINQ to Objects .....	1315
Strings.....	1315
Reflections.....	1315
File Directories .....	1315
Introducing LINQ to ADO.NET.....	1315
LINQ to DataSet.....	1316
LINQ to SQL.....	1317
Introducing LINQ to XML .....	1317
Difference between LINQ to XML and the DOM Method .....	1318
Working with XML Trees in LINQ.....	1318
The LinqDataSource Control .....	1318
Extension Methods.....	1320
Anonymous Types .....	1320
Lambda Expression.....	1321
Comparing Lambda Expression and Anonymous Methods .....	1321
Introducing PLINQ.....	1321
<b>Immediate Solutions .....</b>	<b>1322</b>
Creating a LINQ to SQL Application .....	1322
Creating a LINQ to Object Application.....	1324
Creating a LINQ to XML Application .....	1325
Creating a Sample Extension Method .....	1327
Using the Where Clause .....	1327
Type Filtering.....	1328
Using the SelectMany Clause .....	1329
Using the Sorting Operators .....	1329
Using the Join Clause.....	1330
Using the Grouping Operators.....	1331
Using the Partitioning Operators .....	1332
Using the Set Operators.....	1333

**Table of Contents**

---

Using the Aggregate Operators.....	1334
Using the Conversion Operators.....	1335
Using the Generation Operator.....	1336
Using the Zip Operators.....	1337
Creating a Simple PLINQ Query.....	1337
Summary.....	1338

**Part VII: Advanced Topics**

<b>Chapter 29: Working with Windows Workflow Foundation .....</b>	<b>1339</b>
---	-------------

***In Depth*..... 1340**

Listing New Features of WF 4.0 .....	1340
Improved Workflow Designer .....	1340
Enhancements in Data Flow Model.....	1341
The Flowchart Control Flow Activity.....	1341
Workflow Activity Model.....	1341
Enhancements in Built-In Activity Library.....	1341
Describing Components of WF 4.0.....	1341
Workflows and Activities .....	1341
Host Process .....	1342
Activity Data Model .....	1342
Base Activity Library.....	1342
Custom Activities.....	1342
Runtime Engine.....	1342
Runtime Services.....	1342
Exploring Activities .....	1343
Describing Types of Workflows .....	1343
Exploring Built-in Activities .....	1343
Understanding Bookmark Activities .....	1345
Handling Runtime Errors.....	1345
Hosting Workflows.....	1346
The WorkflowInvoker Class.....	1346
The WorkflowApplication Class.....	1346
The WorkflowServiceHost Class .....	1347

***Immediate Solutions*..... 1348**

Creating a Simple WF Application .....	1348
Using the If Activity and Variables.....	1350
Creating and Resuming a Bookmark.....	1353
Summary.....	1354

<b>Chapter 30: Threading in Visual Basic 2010.....</b>	<b>1355</b>
--	-------------

***In Depth*..... 1356**

The Thread Class.....	1356
Multithreading.....	1358
Thread Priorities.....	1359

Thread States.....	1359
Thread Synchronization.....	1361
<b>Immediate Solutions.....</b>	<b>1362</b>
Creating a Thread.....	1362
Starting a Thread.....	1362
Putting a Thread to Sleep.....	1363
Stopping a Thread.....	1364
Creating a Multithreaded Application.....	1365
Setting Priority of a Thread.....	1366
Determining the Thread State.....	1367
Joining Threads.....	1368
Synchronizing Threads.....	1370
Summary.....	1372
<b>Chapter 31: Collections and Generics.....</b>	<b>1373</b>
<b>In Depth.....</b>	<b>1374</b>
Understanding Collections.....	1374
Collection Classes in .NET.....	1375
The ArrayList Class.....	1375
The Hashtable Class.....	1376
The SortedList Class.....	1377
The Stack Class.....	1378
The Queue Class.....	1379
The BitArray Class.....	1380
Working with Generic Collections Classes.....	1381
Generic Collections Classes in .NET.....	1382
The List(Of T) Class.....	1382
The LinkedList(Of T) Class.....	1384
The SortedList(Of TKey, TValue) Class.....	1384
The Dictionary(Of TKey, TValue) Class.....	1385
The SortedDictionary(Of TKey, TValue) Class.....	1386
The Stack(Of T) Class.....	1387
The Queue(Of T) Class.....	1387
The HashSet(Of T) Class.....	1387
What's New in Collections and Generics?.....	1388
Covariance and Contravariance in Generics.....	1390
<b>Immediate Solutions.....</b>	<b>1391</b>
Using the ArrayList Class.....	1391
Using the Hashtable Class.....	1394
Using the SortedList Class.....	1397
Using the Stack Class.....	1400
Using the Queue Class.....	1402
Using the BitArray Class.....	1404
Working with Generic Collection Classes.....	1406

**Table of Contents**

---

Using the List(Of T) Class .....	1406
Using the LinkedList(Of T) Class .....	1408
Using the SortedList(Of TKey, TValue) Class .....	1411
Using the Dictionary(Of TKey, TValue) Class .....	1414
Using the SortedDictionary(Of TKey, TValue) Class .....	1416
Using the Stack(Of T) Class .....	1418
Using the Queue(Of T) Class .....	1419
Using the HashSet(Of T) Class .....	1421
Creating Your Own Generic Classes .....	1424
Implementing Covariance and Contravariance in Generics .....	1429
Summary .....	1430
<b>Chapter 32: Working with XML and .NET .....</b>	<b>1431</b>
<b><i>In Depth</i> .....</b>	<b>1432</b>
Support for XML in .NET Framework 4.0 .....	1432
The System.Xml Namespace .....	1432
Working with Streamed XML .....	1433
The XmlReader Class .....	1433
Validation with the XmlReader Class .....	1434
The XmlWriter Class .....	1434
Implementing DOM in .NET Framework 4.0 .....	1434
XPath and XSLT in .NET Framework 4.0 .....	1435
The System.Xml.XPath Namespace .....	1435
The System.Xml.Xsl Namespace .....	1437
Using XML with ADO.NET .....	1437
Implementing Object Serialization with XML .....	1437
<b><i>Immediate Solutions</i> .....</b>	<b>1439</b>
Working with Streamed XML .....	1439
Reading Data .....	1439
Validating Data .....	1442
Writing Data .....	1444
Implementing DOM in .NET .....	1445
Finding Elements by Tag Name .....	1446
Inserting Nodes .....	1447
Navigating and Transforming Data .....	1448
Navigating and Finding Elements by Attributes Values .....	1448
Transforming XML .....	1450
Converting ADO.NET and XML Data .....	1451
Converting ADO.NET Data into XML Data .....	1451
Writing Data into a DiffGram .....	1452
Implementing Object Serialization with XML .....	1454
Serialization with Source Code Access .....	1454
Serialization without Source Code .....	1456
Summary .....	1458

<b>Chapter 33: Working with the My Object .....</b>	<b>1459</b>
<b><i>In Depth</i>.....</b>	<b>1460</b>
The My.Computer Object.....	1460
The My.Computer.Audio Object .....	1460
The My.Computer.Clipboard Object.....	1461
The My.Computer.Clock Object .....	1461
The My.Computer.FileSystem Object.....	1462
The My.Computer.Info Object .....	1463
The My.Computer.Keyboard Object .....	1463
The My.Computer.Mouse Object.....	1463
The My.Computer.Name Object.....	1464
The My.Computer.Network Object.....	1464
The My.Computer.Ports Object .....	1464
The My.Computer.Registry Object.....	1464
The My.Computer.Screen Object .....	1465
The My.Application Object.....	1465
The My.Application.Log Object.....	1466
The My.Application.Info Object.....	1466
The My.Forms Object.....	1466
The My.User Object .....	1467
The My.Resources Object .....	1467
The My.WebServices Object .....	1467
<b><i>Immediate Solutions</i> .....</b>	<b>1468</b>
Using the My.Computer Object.....	1468
Using the My.Application Object.....	1471
Using the My.Forms Object .....	1474
Using the My.UserObject .....	1478
Using the My.Resources Object.....	1479
Using the My.WebServices Object .....	1482
Summary .....	1484
<b>Chapter 34: .NET Assemblies.....</b>	<b>1485</b>
<b><i>In Depth</i>.....</b>	<b>1486</b>
.NET Assemblies .....	1486
Assembly Manifest .....	1486
MSIL Source Code .....	1488
Type Metadata.....	1488
Resources .....	1488
Types of Assemblies .....	1488
Shared Assemblies.....	1488
Private Assemblies.....	1489
Attributes of an Assembly.....	1489
Assembly Identity Attributes .....	1489
Informational Attributes .....	1490
Assembly Manifest Attributes.....	1490

**Table of Contents**

---

Strong Name Attributes .....	1490
Assembly Signing.....	1491
Strong Names .....	1491
Delayed Signing .....	1492
Using the Strong Name Utility.....	1492
Storage for Assemblies .....	1493
Global Assembly Cache.....	1493
Assembly Information File.....	1495
Configuration Files for Assemblies.....	1495
Codebase.....	1496
Probing.....	1496
<b>Immediate Solutions .....</b>	<b>1497</b>
Creating a Shared Assembly.....	1497
Strong Naming the Assembly.....	1497
Putting the Assembly in Global Assembly Cache.....	1498
Creating a Simple Client.....	1499
Creating a New Version of the Shared Assembly .....	1500
Using the New Version of Shared Assembly .....	1500
Side-by-Side Execution of Shared Assemblies .....	1502
Creating a Private Assembly .....	1503
Creating a Multifile Assembly.....	1504
Native Image Generation .....	1506
Delayed Signing .....	1507
Configuring Assembly Lookup.....	1508
Configuring Probing.....	1508
Configuring Codebase Setting for Signed Assemblies.....	1510
Configuring CodeBase Settings for Unsigned Assemblies.....	1512
Creating Publisher Policies .....	1512
Summary .....	1512
<b>Chapter 35: Security in .NET 4.0 .....</b>	<b>1513</b>
<b>In Depth.....</b>	<b>1514</b>
Introducing Code Verification and Security in .NET Framework .....	1514
Type-Safe Code .....	1515
Verifiably Type-Safe MSIL Code .....	1515
Security Changes in .NET Framework 4.0 .....	1516
Security Policy Simplification .....	1517
Security Transparency Level 2 .....	1517
Obsolete Permission Requests.....	1517
Conditional APTCA .....	1517
Evidence Objects .....	1517
Evidence Collections .....	1518
Introducing Authentication and Authorization.....	1518
Role-Based Security .....	1519
Principal Object.....	1520

Identity Object.....	1521
Role-Based Security Checks.....	1522
The Roles Class.....	1525
Security through the ASP.NET Configuration File.....	1538
The <authentication> Element.....	1538
The <authorization> Element.....	1540
The <location> Element.....	1541
The <identity> Element.....	1542
The Membership Feature.....	1542
ActiveDirectoryMembershipProvider.....	1543
SqlMembershipProvider.....	1544
The Membership Class.....	1546
The MembershipUser Class.....	1546
<b>Immediate Solutions.....</b>	<b>1547</b>
Determining Whether Code is Verifiably Type Safe.....	1547
Using Role-Based Security to Authenticate and Authorize Users.....	1548
Performing Role-Based Security Checks.....	1555
Managing Roles and Users.....	1559
Using Anonymous Authentication in ASP.NET.....	1563
Using Windows Authentication in ASP.NET.....	1565
Using Forms Authentication in ASP.NET.....	1570
Using Impersonation in ASP.NET Applications.....	1574
Creating User Using the Membership Class.....	1576
Validating and Retrieving a User.....	1579
Understanding Stack Walk.....	1581
Security Caveats.....	1583
Summary.....	1584
<b>Chapter 36: .NET Remoting in Visual Basic 2010.....</b>	<b>1585</b>
<b>In Depth.....</b>	<b>1586</b>
The .NET Remoting Architecture.....	1586
Application Domains.....	1587
Remotable and Non-Remotable Objects.....	1588
Setting Up Remoting Communication.....	1590
Channels.....	1590
Message Sinks.....	1593
Formatters.....	1594
Proxies.....	1597
Hosting of Remote Objects.....	1597
Setting the Lease Time of an Object.....	1598
<b>Immediate Solutions.....</b>	<b>1599</b>
Creating and Using Application Domains.....	1599
Using Objects in Another Application Domain.....	1601
Creating a Remotable Class.....	1602
Creating a Host Application.....	1603

**Table of Contents**

---

Enumerating Registered Channels .....	1606
Unregistering a Channel .....	1606
Registering Objects .....	1606
Specifying Formatters.....	1607
Creating a SingleCall Client Object.....	1608
Creating a SingleTon Client Object.....	1609
Creating a Client Activated Object.....	1614
Summary .....	1616
<b>Chapter 37: Case Study: Sports Website.....</b>	<b>1617</b>
Flow Diagram .....	1618
SDLC of Sports Website Project .....	1619
The Requirement Analysis Phase .....	1619
The Software Design Phase .....	1619
Designing the Front-End User Interface .....	1619
Designing the Back-end Database.....	1620
The Development Phase .....	1622
The Testing Phase .....	1622
The Implementation and Maintenance Phase .....	1622
<b>Appendix A: Introducing SOA.....</b>	<b>1623</b>
<b>Appendix B: Introducing Cloud Computing .....</b>	<b>1627</b>
<b>Appendix C: Syndication .....</b>	<b>1647</b>
<b>Appendix D: Introducing MAF and MEF Frameworks .....</b>	<b>1655</b>
<b>Glossary .....</b>	<b>1663</b>
<b>Index .....</b>	<b>1673</b>
<b>What's on the CD-ROM .....</b>	<b>1686</b>

**Bonus Chapters on the CD**

- Chapter 1: Working with Typography and Documents in WPF**
- Chapter 2: Validation Controls in ASP.NET**
- Chapter 3: Building ASP.NET AJAX Applications**
- Chapter 4: Windows Services**
- Chapter 5: Caching in ASP.NET 4.0**
- Chapter 6: Globalization and Localization of Web Sites**
- Chapter 7: Working with COM+ Applications in Visual Basic 2010**
- Chapter 8: Cryptography in .NET 4.0**
