| | |
|--|----------|
| Preface | v |
| Chapter 1: Programming Concepts and Introduction to C | 1 |
| 1.1 Basic Model of Computation | 1 |
| Phase 1: Defining the Problem..... | 2 |
| Phase 2: Analyzing the Problem..... | 2 |
| Phase 3: Designing a Program..... | 2 |
| Phase 4: Coding a Program..... | 2 |
| Phase 5: Testing a Program..... | 3 |
| Phase 6: Maintaining the Program..... | 3 |
| 1.2 Paradigms of Programming..... | 4 |
| 1.3 Main Programming Structures | 4 |
| 1.4 Steps to Develop a Program..... | 5 |
| Algorithm..... | 5 |
| Flowcharts..... | 6 |
| 1.5 Categories of Programming Languages..... | 9 |
| 1.6 Introduction to the C Language | 10 |
| History of C..... | 10 |
| Features of C..... | 11 |
| 1.7 Basic C Concepts..... | 11 |
| Character Sets | 12 |
| Tokens..... | 13 |
| 1.8 Structure of a C Program..... | 16 |
| Creating a Simple C Program..... | 16 |
| Compiling and Executing a C Program | 17 |
| 1.9 Data Types in C | 18 |
| The char Data Type..... | 19 |
| The int Data Type..... | 19 |
| The float Data Type..... | 20 |
| The double Data Type | 20 |
| The void Data Type..... | 21 |
| 1.10 Data Type Modifiers | 21 |

| | | |
|--|---------------------------------|-----------|
| 1.11 | Constants in C..... | 22 |
| 1.12 | Variables in C..... | 24 |
| | Declaring Variables..... | 24 |
| | Initializing Variables..... | 25 |
| 1.13 | Backslash Constants in C..... | 25 |
| | Summary..... | 26 |
| | Quick Revise..... | 26 |
| Chapter 2: Managing Input and Output Operations..... | | 31 |
| 2.1 | Input/Output Functions..... | 31 |
| 2.2 | The printf() Function..... | 32 |
| 2.3 | The printf() Place Holders..... | 33 |
| | Type-identifiers..... | 33 |
| | Type Prefixes..... | 34 |
| | Field-width..... | 34 |
| | Precision..... | 35 |
| | Flags..... | 35 |
| 2.4 | Escape Sequence..... | 36 |
| 2.5 | The scanf() Function..... | 36 |
| 2.6 | The scanf() Place Holders..... | 38 |
| | Type Indicators..... | 38 |
| | Asterisk (*)..... | 39 |
| | Field-width..... | 39 |
| 2.7 | The getchar() Function..... | 39 |
| 2.8 | The gets() Function..... | 40 |
| 2.9 | The putchar() Function..... | 40 |
| 2.10 | The puts() Function..... | 41 |
| 2.12 | The getch() Function..... | 42 |
| 2.13 | The getche() Function..... | 42 |
| | Summary..... | 43 |
| | Quick Revise..... | 43 |
| Chapter 3: Working with Operators and Expressions in C..... | | 49 |
| 3.1 | Working with Operators..... | 49 |
| | The Unary Operators..... | 50 |
| | The Assignment Operators..... | 50 |

| | |
|--|------------|
| The Arithmetic Operators | 51 |
| The Increment and Decrement Operators..... | 52 |
| The Relational Operators..... | 53 |
| The Logical Operators | 54 |
| The Bitwise Operators | 55 |
| The Conditional Operators | 56 |
| The Special Operators..... | 57 |
| The Shorthand Assignment Operators..... | 58 |
| 3.2 Operator Precedence in C..... | 59 |
| Summary | 60 |
| Quick Revise | 60 |
| Chapter 4: Control Structures | 65 |
| 4.1 Exploring the Syntax of a Control Structure..... | 65 |
| 4.2 Working with Conditional Statements | 66 |
| Using the if Statement..... | 66 |
| Using the if-else Statement..... | 68 |
| Creating Nested if Statements | 69 |
| Using the if-else Ladder..... | 70 |
| Using the switch Statement..... | 71 |
| Creating Nested switch Statements | 73 |
| 4.3 Working with Iterative Statements | 75 |
| Using the while Loop..... | 75 |
| Using the do-while Loop..... | 77 |
| Using the for Loop | 79 |
| 4.4 Working with Jump Statements | 81 |
| Using the break Statement | 81 |
| Using the continue Statement..... | 82 |
| Using the goto Statement | 83 |
| Summary | 84 |
| Quick Revise | 85 |
| Chapter 5: Arrays..... | 111 |
| 5.1 Introducing Arrays..... | 111 |

| | | |
|----------------------------------|--|------------|
| 5.2 | Types of Arrays | 112 |
| | One-Dimensional Arrays | 112 |
| | Two-Dimensional Arrays | 115 |
| 5.3 | Limitations of Arrays | 116 |
| 5.4 | Using String Handling Functions..... | 117 |
| | strlen() | 117 |
| | strcmp()..... | 118 |
| | strcat() | 118 |
| | strcpy() | 119 |
| | strrev()..... | 120 |
| | Summary | 121 |
| | Quick Revise | 121 |
| Chapter 6: Pointers | | 139 |
| 6.1 | Understanding Pointers..... | 139 |
| 6.2 | Declaring a Pointer Variable | 140 |
| 6.3 | Using the address of (&) Operator | 141 |
| 6.4 | Initializing a Pointer Variable | 142 |
| 6.5 | Dereferencing a Pointer | 143 |
| 6.6 | Performing Operations on Pointers | 145 |
| | Assignment | 145 |
| | Arithmetic | 146 |
| | Comparison..... | 147 |
| 6.7 | Working with Arrays and Pointers | 147 |
| | Pointers to One-dimensional Arrays | 149 |
| | Pointers to String..... | 150 |
| 6.8 | Working with Pointers to Pointer | 154 |
| 6.9 | Allocating Memory at Runtime..... | 155 |
| | malloc() | 156 |
| | calloc()..... | 156 |
| | free() | 156 |
| | realloc() | 157 |
| | Summary | 158 |
| | Quick Revise | 158 |

| | |
|--|------------|
| Chapter 7: Working with Functions | 163 |
| 7.1 Overview of Functions..... | 163 |
| Function Definition..... | 165 |
| Function Prototype..... | 165 |
| Function Invocation | 166 |
| 7.2 Types of Functions | 167 |
| Built-in Functions | 167 |
| User-defined Functions | 169 |
| 7.3 Functions and Variables | 169 |
| Local and Global Variables | 170 |
| Static and Register Variables..... | 171 |
| 7.4 Parameter Passing Mechanisms | 173 |
| Call by Reference..... | 174 |
| 7.5 Recursive Functions | 175 |
| 7.6 Storage Classes..... | 176 |
| Automatic Storage Class | 177 |
| Static Storage Class | 177 |
| Register Storage Class..... | 178 |
| External Storage Class | 179 |
| 7.7 Function Pointers..... | 180 |
| 7.8 Preprocessor Directives | 180 |
| The File Inclusion Directives..... | 181 |
| Using the Macro Substitution Directives | 182 |
| Using the Compiler Control Directives..... | 184 |
| Summary..... | 185 |
| Quick Revise | 185 |
| Chapter 8: Structures and Unions | 193 |
| 8.1 Structures..... | 193 |
| Declaring Structure Variables..... | 194 |
| Initializing Structure Variables..... | 195 |
| 8.2 Nested Structures | 196 |
| 8.3 Array of Structures..... | 197 |
| 8.4 Use of Structure in a Function | 199 |

| | | |
|---|--------------------------------------|------------|
| 8.5 | Pointer to a Structure | 200 |
| 8.6 | The typedef Statement | 201 |
| 8.7 | The sizeof Operator | 202 |
| 8.8 | Self-Referential Structures | 203 |
| 8.9 | Unions | 204 |
| | Defining a Union | 204 |
| | Declaring Union Variables | 205 |
| | Initializing Union Variables | 205 |
| | Summary | 206 |
| | Quick Revise | 206 |
| Chapter 9: File Handling in C | | 215 |
| 9.1 | Exploring the Concept of Files | 215 |
| 9.2 | Opening and Closing Files | 216 |
| | Reading from Files | 216 |
| | Writing to Files | 218 |
| 9.3 | Accessing Data Files Randomly | 220 |
| | The fseek() Function | 220 |
| | Summary | 224 |
| | Quick Revise | 224 |
| Index | | 229 |
| Model and Recent Question Papers | | 231 |
| What's on the CD-ROM | | 234 |
