Introduction.....	xii
<b>Chapter 1: Introduction to Computer Systems.....</b>	<b>1</b>
1.1 Defining the Computer.....	2
1.2 Exploring the History of Computers .....	3
Abacus .....	3
Pascaline.....	3
Difference Engine .....	4
ENIAC and EDVAC .....	4
IBM Personal Computer .....	5
1.3 Exploring the Generations of Modern Computer .....	6
First Generation Computers (1940-1956).....	6
Second Generation Computers (1956-1963) .....	6
Third Generation Computers (1964-1971).....	7
Fourth Generation Computers (1971-Present) .....	7
Fifth Generation Computers (Present and Beyond) .....	7
1.4 Categorizing Computers .....	8
Computers for Individuals .....	8
Desktop Computer .....	8
Handheld Computer or Personal Digital Assistant .....	9
Laptop Computer .....	9
Tablet PCs .....	9
Smart Phones.....	10
Computers for Organizations.....	10
Mainframe Computers .....	11
Super Computer .....	11
Minicomputers .....	12
Microcomputers .....	12
Self-Destructing Computer .....	13
1.5 Exploring the Basic Parts of a Computer .....	13
1.6 Exploring the Basic Structure of a Computer.....	14
System Unit .....	15
Basic Input-Output System .....	19
Memory.....	20
Cards.....	24
Switched-Mode Power Supply.....	25
Registers .....	25
Bus Architecture .....	27
Instruction Set .....	29

	Storage Systems.....	30
1.7	Describing Computer Hardware.....	33
	Input Devices .....	33
	Output Devices.....	36
1.8	Describing Computer Software .....	40
	System Software .....	40
	Application Software.....	41
1.9	Understanding Computer Ethics and Ethical Issues .....	44
	Computer Crime and Security .....	45
	Privacy and Anonymity.....	45
	Computer Reliability .....	46
1.10	Exploring Areas of Computer Application .....	46
	e-Business .....	46
	Bio-Informatics.....	47
	Medicine .....	47
	Remote Sensing and GIS .....	47
	Meteorology and Climatology .....	48
	Gaming.....	48
	Multimedia and Animation .....	49
	Summary.....	49
	Exercise .....	50
	Multiple Choice Questions .....	50
	Short Answer Type Questions .....	51
<b>Chapter 2: Operating Systems .....</b>		<b>55</b>
2.1	Defining an Operating System .....	55
2.2	Exploring the Types of OS.....	56
2.3	Describing the Functions of OS .....	57
	Managing Processor .....	57
	Managing Memory.....	62
	Managing Devices.....	63
	Managing Information.....	64
2.4	Exploring File Management.....	64
	File Organization.....	65
	File-Access Methods .....	66
2.5	Defining a Process.....	66
2.6	Exploring Computer Processing Techniques .....	67
	Batch Processing.....	67
	Online Processing .....	68
	Real-Time Processing (Transaction Processing) .....	68
	Offline Processing.....	69
	Multiprogramming.....	70
	Multiprocessing.....	70
	Time Sharing.....	70

---

Virtual Storage .....	70
2.7 Exploring Memory Management.....	72
Single Contiguous Allocation .....	72
Partitioned Allocation.....	73
Summary .....	75
Exercise .....	76
Multiple Choice Questions .....	76
Short Answer Type Questions .....	78
<b>Chapter 3: Introduction to Programming Languages .....</b>	<b>81</b>
3.1 Exploring the Basic Model of Computation.....	81
Defining a Problem .....	82
Analyzing a Problem .....	82
Designing a Program .....	82
Coding a Program.....	82
Testing a Program.....	83
Maintaining a Program.....	84
3.2 Exploring the Programming Languages .....	84
Generations .....	84
Characteristics of a Programming Language.....	87
Categorization .....	88
3.3 Programming Paradigms .....	88
History .....	88
Multi-Paradigm Programming Language.....	89
3.4 Introducing the C++ Language .....	89
C: Procedure-Oriented Programming.....	89
C++: Object-Oriented Programming .....	90
Summary .....	90
Exercise .....	91
Multiple Choice Questions .....	91
Short Answer Type Questions .....	91
<b>Chapter 4: Getting Started with C++ .....</b>	<b>93</b>
4.1 Defining the Terminologies in C++ .....	93
4.2 Exploring the Basic Components of C++ .....	94
Keywords.....	95
Identifiers .....	95
Data Types.....	96
Variables.....	108
Constants .....	110
Operators .....	112
Expressions .....	131
4.3 Structuring a C++ Program .....	132
Compiling a Program .....	134

	Debugging a Program .....	135
	Running a Program.....	135
4.4	Exploring Data Input and Output Processes .....	135
	Using the getchar() and putchar() Functions.....	136
	Using the scanf() and printf() Functions .....	136
	Using the gets() and puts() Functions .....	138
	Using the cout and cin Objects .....	139
4.5	Working with Conditional Statements .....	140
	Using the if Statement .....	140
	Using the if-else Statement .....	141
	Creating the Nested if Statements .....	142
	Using the if-else Ladder .....	144
	Using the switch Statement .....	144
	Creating Nested switch Statements .....	146
4.6	Working with Iteration Statements .....	148
	Using the while Loop .....	148
	Creating Nested while Loop.....	150
	Using the do-while Loop .....	150
	Using the for Loop.....	152
	Creating Nested for Loop .....	153
4.7	Working with Jump Statements .....	154
	Using the break Statement.....	154
	Using the continue Statement .....	154
	Using the goto Statement .....	155
4.8	Usage of the exit () and abort () Functions .....	157
	Summary .....	158
	Exercise .....	158
	Multiple Choice Questions .....	158
	Short Answer Type Questions .....	160
<b>Chapter 5: Object-Oriented Programming with C++ .....</b>		<b>163</b>
5.1	Features of OOP .....	164
	Abstraction .....	164
	Encapsulation .....	164
	Inheritance.....	165
	Polymorphism .....	165
5.2	Merits of OOP .....	166
5.3	POP versus OOPS .....	167
5.4	Exploring the Basic Concepts of Object-Oriented Programming .....	168
	Object.....	168
	Class .....	168
	Method.....	169
	Message Passing .....	169
5.5	Working with Classes and Objects .....	169

---

	Defining a Class .....	170
	Creating an Object .....	171
	Creating Data Members .....	173
	Using Access Specifiers .....	173
	Creating Member Functions .....	174
5.6	Working with Constructors and Destructors .....	180
	Declaring and Using Constructors .....	181
	Declaring and Using Destructors .....	192
	Invoking Global Constructor and Destructor .....	194
5.7	Overloading .....	195
	Function Overloading .....	195
	Operator Overloading .....	197
	Summary .....	213
	Exercise .....	213
	Multiple Choice Questions .....	213
	Short Answer Type Questions .....	214
<b>Chapter 6:</b>	<b>Working with Arrays and Functions.....</b>	<b>217</b>
6.1	Arrays .....	217
	One-Dimensional Array .....	220
	Two-Dimensional Array .....	222
	Three-Dimensional Array .....	224
6.2	Function .....	225
	Discussing the Types of C++ Functions .....	226
	Declaring a Function Prototype .....	228
	Defining a Function .....	229
	Calling a Function .....	229
	Passing Arguments to a Function .....	230
	Returning a Value from a Function .....	231
	Describing Function Returning Void .....	232
	Specifying Default Argument .....	233
	Describing Call by Value and Call by Reference .....	234
	Passing Array to a Function .....	236
	Passing Function Argument as const .....	237
	Passing String to a Function .....	238
	Using Recursion .....	239
	Creating Inline Function .....	240
	Using String Library Functions .....	241
6.3	Scope of Variable .....	244
	Local Variable .....	245
	Global Variable .....	245
	Summary .....	247
	Exercise .....	247
	Multiple Choice Questions .....	247
	Short Answer Type Questions .....	249

---

<b>Chapter 7: Structures and Unions</b> .....	<b>251</b>
7.1 Working with Structures in C++ .....	251
Accessing and Initializing Structure Elements .....	254
Creating Nested Structure .....	255
Creating Structure inside the Function .....	257
Passing Structure to a Function .....	257
Returning Structure from Function .....	259
Creating an Array in a Structure .....	260
Creating an Array of Structure .....	261
Using Structure Array as a Function Argument .....	263
Using Pointers with Structure .....	265
Passing a Structure Pointer to a Function .....	268
Linked List Using Structure and Pointer .....	269
7.2 Working with Union in C++ .....	274
Creating a Structure Instance as a Union Member .....	276
Creating a Union Instance as a Structure Member .....	277
Summary .....	278
Exercises .....	279
Multiple Choice Questions .....	279
Short Answer Type Questions .....	280
<b>Chapter 8: Inheritance in C++</b> .....	<b>283</b>
8.1 Exploring the Concept of Base and Derived Classes .....	284
8.2 Using the protected Access Specifier .....	285
8.3 Creating a Simple Program of Inheritance .....	286
8.4 Explaining the Various Types of Derivations .....	288
8.5 Overriding Base Class Members .....	290
8.6 Invoking Constructors and Destructors of Base and Derived Classes .....	292
8.7 Creating Container Classes .....	302
8.8 Explaining the Various Forms of Inheritance .....	306
Single Inheritance .....	306
Multilevel Inheritance .....	308
Hierarchical Inheritance .....	311
Multiple Inheritance .....	313
Hybrid Inheritance .....	318
8.9 Describing Problems of Multiple Inheritance .....	322
Overriding Base Class Functions in the Derived Class .....	324
Using the Scope Resolution Operator .....	325
Implementing the Concept of Virtual Base Classes .....	327
Summary .....	330
Exercise .....	331
Multiple Choice Questions .....	331
Short Answer Type Questions .....	332

---

<b>Chapter 9: Working with Database Management System</b> .....	<b>337</b>
9.1 File-Oriented Approach and Database Approach .....	338
9.2 Basic DBMS Concepts.....	338
Relationships .....	340
Keys .....	340
Normalization.....	341
DBMS Facilities .....	342
9.3 DBMS Architecture.....	343
9.4 Data Models .....	344
9.5 Database Models.....	344
Hierarchical Model.....	344
Network Model.....	345
Relational Model.....	345
9.6 Data Independence.....	346
9.7 DBA Role.....	346
9.8 Data Dictionary .....	346
9.9 Data Definition Language .....	347
CREATE Statement.....	347
ALTER Statement.....	347
DROP Statement.....	348
9.10 Data Manipulation Language.....	348
INSERT Statement .....	349
SELECT Statement .....	349
UPDATE Statement.....	350
DELETE Statement.....	350
Summary.....	350
Exercise .....	351
Multiple Choice Questions .....	351
Short Answer Type Questions .....	352
<b>Chapter 10: Introduction to Computer Networking</b> .....	<b>357</b>
10.1 Need for Networking .....	358
10.2 Goals of Networking.....	358
10.3 Exploring the Benefits of Networking .....	359
Sharing Files .....	359
Sharing Resources.....	359
Sharing Programs and Backups .....	360
Enabling Enhanced Communication .....	360
Providing Ease of Connectivity.....	360
Providing Improved Price/Performance Ratios.....	360
Providing Improved Person-to-Person Communication .....	361
10.5 Disadvantages of Computer Networks .....	361
10.5 The ISO-OSI Model .....	361
The Physical Layer.....	363

	The Data Link Layer .....	363
	The Network Layer .....	365
	The Transport Layer .....	365
	The Session Layer.....	367
	The Presentation Layer .....	367
	The Application Layer .....	368
10.6	The TCP/IP Model.....	369
	The Link Layer .....	370
	The Internet Layer.....	370
	The Transport Layer .....	370
	The Application Layer .....	371
10.7	Types of Networks .....	371
	Local Area Network .....	371
	Wide Area Network.....	372
	Metropolitan Area Network .....	373
10.8	Hardware and Software Used for Networking.....	374
	Networking Cables.....	374
	Networking Devices .....	376
	Network Interface Card (NIC) .....	378
	Working Principle of NIC .....	378
	Protocols .....	383
10.9	Introduction to the Internet.....	384
	Internet Protocols .....	385
	Defining E-mail.....	386
	Defining Chatting.....	386
	Surfing and Searching the Internet.....	387
10.10	Introduction to WWW.....	388
	Web Page.....	388
	Web Browser .....	388
	Web Server .....	389
	Website .....	389
10.11	Network Security and E-Commerce.....	389
	Virus and Its Types.....	390
	Antivirus.....	390
	Firewall.....	391
	Exploring E-Commerce .....	391
	Summary.....	399
	Exercise .....	400
	Multiple Choice Questions .....	400
	Short Answer Type Questions .....	401
<b>Index</b>	.....	<b>405</b>
