---

<b>Introduction</b> .....	<b>ix</b>
<b>Chapter 1: Exploring Fundamental Programming Concepts</b> .....	<b>1</b>
1.1 Exploring the Editors .....	2
History of Editors .....	2
Exploring the Types of Text Editors .....	3
Describing the Features of Editors .....	3
Describing the Features of Specialized Editors .....	4
1.2 Introducing the Programming Environment.....	4
The Single System Programming Environment.....	5
The Unix Programming Environment.....	5
The Integrated Programming Environment.....	6
1.3 Exploring the Unix Shell .....	7
The Bourne Shell.....	8
The C Shell.....	8
1.4 Describing Libraries .....	8
Static Libraries .....	9
Dynamic Link Libraries .....	9
1.5 Discussing about Modules.....	9
Summary .....	10
Review Questions .....	10
True or false .....	10
Multiple Choice Questions.....	11
Short Answer Questions .....	12
<b>Chapter 2: Exploring the Programming Features</b> .....	<b>15</b>
2.1 Introducing the Concept of Machine Representation .....	16
Binary Representation of Positive Integers.....	16
The Negative Integer Representation.....	16
2.2 Categorizing the Primitive Types.....	19
Integer Numbers .....	19
Floating-Point Numbers .....	20
Characters .....	20

	Booleans.....	21
	Numeric Data Type Ranges .....	21
2.3	Introducing Variables, Arrays, and Records .....	22
	Declaring Variables .....	22
	Initializing Variables.....	23
	Defining the Arrays .....	24
	Exploring the Types of Arrays.....	25
	Discussing about Records.....	30
2.4	Exploring the Objects in Programming.....	31
	Properties of an Object .....	31
	Object Mechanism.....	31
2.5	Working with Operators and Expressions.....	32
	Defining Operators .....	32
	Introducing the Categories of Operators .....	32
	The Unary Operators .....	33
	The Assignment Operators .....	33
	The Arithmetic Operators .....	34
	The Increment and Decrement Operators.....	36
	The Relational Operators .....	37
	The Logical Operators.....	38
	The Bitwise Operators.....	39
	The Conditional Operators .....	40
	The Special Operators.....	41
	The Shorthand Assignment Operators.....	43
2.6	Introducing the Control Structure .....	44
	Working with the Conditional Statements.....	45
	Working with the Iterative Statements .....	53
	Working with the Jump Statements .....	61
2.7	Exploring Procedures and Functions .....	64
	Difference between Procedures and Functions .....	65
	Overview of Functions .....	65
	Types of Functions .....	68
	Parameter Passing Mechanisms .....	71
	Recursive Functions .....	74
2.8	Understanding the Basic Input Output Processing.....	76
	The Standard Output.....	76
	Standard Input.....	77
	Summary .....	78

---

Review Questions .....	78
True or False.....	78
Multiple Choice Questions.....	79
Short Answers Questions .....	80
Debugging Exercises .....	82
Programs.....	84
<b>Chapter 3: Exploring the Application Programming Problems Concepts .....</b>	<b>87</b>
3.1 Introducing the Algorithm .....	87
3.2 Sample Problems in Engineering.....	88
Solving the Problem Based on Statistical Analysis .....	89
Solving the Problem Based on Statistical Classification .....	90
3.3 Sample Problems in Science.....	94
Solving the Problem Based on Vector Processing .....	94
Solving the Problem Based on Scaling of Graph.....	95
3.4 Sample Problems in Text Processing .....	97
Solving the Problem of Text Line Length Adjustment.....	97
Solving the Problem of Left and Right Justification of Text .....	99
Solving the Problem of Keyword Searching in Text .....	100
Solving the Problem of Text Line Editing .....	102
3.5 Problems in Numerical Methods .....	104
Solving the Problem of Exchanging the Value of Two Variables .....	105
Solving the Problem of Factorial Computation .....	106
Solving the Problem of Reversing the Digits of an Integer.....	108
Summary .....	109
Review Questions .....	110
True or false .....	110
Multiple Choice Questions.....	111
Short Answer Questions .....	112
<b>Chapter 4: Solving Problems Using Algorithms .....</b>	<b>115</b>
4.1 Introducing the Problem Solving Strategy.....	116
4.2 Exploring Programming Styles.....	117
Discussing the Programming Practices .....	117
Describing the Coding Standards.....	118
4.3 Introducing the C Programming.....	120
History of C Language .....	120
Features of C Language .....	121
Basic C Concepts.....	122

4.4	Exploring the Process of Testing Applications .....	126
	Discussing the Concept of Testing.....	127
	Exploring the Types of Testing.....	128
	Explaining the Levels of Testing .....	133
	Discussing the Testing Process .....	137
4.5	Exploring Debugging.....	140
	Identify the Bug .....	141
	Replicate the Bug .....	141
	Understand the Bug .....	141
	Fix the Bug .....	141
4.6	Describing Code Reviews.....	141
	Over-the-Shoulder Reviews .....	142
	Email Pass-Around Reviews .....	142
	Pair Programming .....	143
	Tool-Assisted Review .....	143
	Summary .....	143
	Review Questions .....	144
	True or False.....	144
	Multiple Choice Questions.....	145
	Short Answers .....	146

**Chapter 5: System Development Methodologies and User Interface Design ..... 149**

5.1	Understanding the Data Processing System.....	150
	The Centralized Data Processing System.....	151
	The Decentralized Data Processing System .....	152
5.2	Exploring the Information System.....	152
	The Integrated Information System .....	154
	The Distributed Information System .....	154
5.3	Discussing the Network/Fileserver System .....	155
5.4	Describing System Development Models .....	156
	The Waterfall Model .....	156
	The Prototyping Model .....	157
	The Iterative Model .....	159
	The Spiral Model .....	160
5.5	Understanding the Concept of UI Design .....	161
	Processes of UI Design .....	162
	UI Design Elements .....	163
	Summary .....	166
	Review Questions .....	166

---

True or False.....	166
Multiple Choice Questions.....	167
Short Answer Questions .....	168
<b>Chapter 6: Exploring Object Oriented Concepts .....</b>	<b>171</b>
6.1 Exploring the Basic Concepts of OOP .....	172
Defining an Object.....	172
Defining a Class.....	173
Explaining Method .....	173
Describing Message Passing .....	173
Explaining Abstraction.....	174
Describing Encapsulation.....	174
Explaining Inheritance .....	174
Describing Polymorphism .....	175
6.2 Introducing the UML Class Diagrams .....	176
Class Diagram .....	176
Relationship between Classes .....	179
6.3 Describing Object-Oriented Methodology.....	181
Identifying Entity Objects .....	182
Identifying Boundary Objects .....	183
Identifying Control Objects.....	183
Modeling Attributes .....	183
Identifying Associations .....	184
Identifying Aggregation .....	184
Modeling Generalization Relationship .....	184
6.4 Exploring the Object-Oriented Design Methodology .....	185
Booch Method .....	185
Shlaer-Mellor Method .....	185
The Coad-Yourdon Method .....	186
The Object Modeling Technique Method .....	187
6.5 Exploring the Alice Tool .....	187
The Alice Interface.....	187
Programming Language Constructs.....	191
6.6 OOC Application Using Alice Tool .....	194
Starting the New World .....	195
Adding Objects to Application .....	195
Positioning the Objects.....	196
Adding Some Actions .....	196
Summary .....	198

---

Review Questions .....	199
True or False.....	199
Multiple Choice Questions.....	199
Short Answers Questions .....	201
<b>Chapter 7: Exploring the Data Processing in RDBMS .....</b>	<b>205</b>
7.1 Understanding the Concept of Database Technology.....	206
7.2 Describing Various Data Models.....	207
The Hierarchical Model .....	207
The Network Model.....	207
The Relational Model .....	208
7.3 Understanding the E-R Modeling Concept .....	208
Entities and Attributes .....	209
Relationship Sets .....	210
Mapping Cardinalities .....	210
Keys .....	212
E-R diagram.....	212
7.4 Exploring Extended E-R Features.....	214
Specialization .....	214
Generalization .....	215
Aggregation.....	216
7.5 Discussing the Concept of Logical Database Design .....	217
7.6 Describing the Various SQL Statements.....	218
DDL Statements .....	218
DML Statements .....	219
DCL Statements .....	220
7.7 Discussing the Various SQL Queries .....	220
7.8 Describing the Various SQL Tuning Techniques .....	223
7.9 Understanding the Concept of Embedded SQL.....	225
7.10 Exploring Online Transaction Processing .....	226
Summary .....	227
Review Questions .....	228
True or False.....	228
Multiple Choice Questions.....	229
Short Answer Questions .....	230
Debugging Exercise.....	233
<b>Index .....</b>	<b>235</b>
