

# CONTENTS

<b>Chapter 1 ■ Introducing 3ds Max 2013</b>	<b>1</b>
Exploring the New and Improved Features of 3ds Max 2013 .....	2
Exploring System Requirements for Installing 3ds Max 2013 .....	4
Launching 3ds Max 2013 .....	4
Exploring the 3ds Max 2013 User Interface .....	8
The Application Button.....	9
The Quick Access Toolbar.....	12
The Title Bar.....	13
The InfoCenter Toolbar.....	13
Window Controls.....	13
The Menu Bar .....	13
The Graphite Modeling Tools Ribbon .....	28
The Command Panel .....	28
Rollout .....	32
Viewports .....	32
The Time Slider.....	32
Prompt Line and Status Bar Controls .....	33
The Coordinate Display Area .....	34
Animation Keying Controls.....	34
Viewport Navigation Controls .....	35
Creating a New Scene .....	36
Docking and Floating Toolbars .....	39
Reverting to Startup Layout.....	41
Using the Help Feature.....	42
Viewing the Essential Skills Movies .....	44
Quitting the 3ds Max 2013 Application .....	45
<b>Chapter 2 ■ Getting Started with Interface</b>	<b>47</b>
Exploring the Viewports in 3ds Max.....	47
The ViewCube Tool.....	48
The Steering Wheel Tool .....	50
The Quad Menu .....	51
Using the Viewport Navigation Controls.....	53
Zooming a View .....	54
Panning a View.....	55
Walking through a View.....	56
Rotating a View.....	57
Refreshing the Viewport.....	58

Using Grids .....	59
Working with the Pivot Point.....	61
Setting Preferences for Units Setup.....	63
Exploring the Display Modes of 3ds Max 2013.....	64

**Chapter 3 ■ Working with Objects 69**

Getting Familiar with the Project Workflow .....	70
Exploring Geometry Primitives Categories .....	70
Standard Primitives .....	71
Extended Primitives.....	72
Architectural Objects.....	73
Compound Objects.....	76
Dynamics Objects .....	77
Creating and Selecting Objects.....	78
Creating an Object.....	78
Making Object Selections.....	80
Transforming Objects .....	82
Moving an Object.....	82
Rotating an Object.....	84
Scaling an Object .....	85
Cloning an Object .....	86
Mirroring an Object.....	87
Setting Properties for an Object.....	89
Organizing Objects.....	90
Grouping and Ungrouping an Object .....	91
Linking and Unlinking an Object .....	93
Hiding and Freezing an Object .....	95
Working with Splines (2D Shapes) .....	98
Drawing a Spline .....	98
Editing a Spline .....	99
Rendering a Spline.....	102
Creating an Object using a Spline .....	104
Exploring Layers.....	105

**Chapter 4 ■ Working with Modifiers and MassFX 107**

Working with Modifiers.....	107
Exploring Modifier Types.....	108
Object-Space Modifiers .....	108
Understanding the Modifier Stack .....	109
Applying Modifier.....	109
Using Hair and Fur (WSM) Modifier.....	110

Using the Cloth Modifier .....	113
Working with MassFX.....	119
Simulating a Cloth on a Static Rigid Body of MassFX.....	120

<b>Chapter 5 ■ Modeling in 3ds Max 2013</b>	<b>125</b>
---	------------

Exploring Modeling Concepts.....	126
Polygons.....	126
Primitives .....	126
Mesh Objects and Sub-objects .....	126
Working with Editable Poly Objects.....	127
Converting Primitives into an Editable Poly Object.....	127
Applying the Edit Poly Modifier.....	128
Editing the Vertex Sub-Object .....	130
Using the Remove Command.....	131
Using the Break Command.....	132
Using the Extrude Command.....	134
Modifying Editable Poly Object.....	137
Selecting the Sub-Objects of an Editable Poly Object.....	137
Using the Soft Selection Feature .....	138
Extruding a Polygon.....	140
Beveling a Polygon .....	142
Creating Arrays of Objects.....	144
Understanding the Freeform Tab.....	145
Understanding the Selection Tab.....	146
Understanding the Object Paint Tab .....	146
Working with NURBS Modeling .....	147
Understanding NURBS Objects and Sub-Objects.....	147
Creating a Sub-Object of NURBS Curve .....	148
Creating a Sub-Object of a NURBS Surface .....	150
Converting an Object to a NURBS Object .....	151
Editing a NURBS Object.....	153
Working with Subdivision Modeling .....	154
Using the MeshSmooth Modifier .....	155
Using the TurboSmooth Modifier .....	156

<b>Chapter 6 ■ Mastering Materials and Maps in 3ds Max 2013</b>	<b>159</b>
---	------------

Introducing Material Properties .....	160
Using the Slate Material Editor .....	160
Using Standard Materials.....	162
Understanding Shader Types.....	165
Exploring Compact Material Editor.....	165

Exploring Types of Maps.....	166
2D Maps .....	167
3D Maps .....	167
Compositor Maps.....	169
Color Modifier Maps.....	169
Miscellaneous Maps .....	169
Understanding the Maps Rollout.....	170
Applying a Map to a Material .....	171

<b>Chapter 7 ■ Working with Animation, Inverse Kinematics, and Character Studio</b>	<b>177</b>
---	------------

Understanding the Concepts of Animation in 3ds Max 2013 .....	178
Exploring the Time Configuration Dialog Box.....	178
Exploring the Auto Key Mode.....	181
Exploring the Set Key Mode.....	183
Learning to Create and View Previews.....	187
Exploring Kinematics .....	189
Using the IK Methods .....	189
Understanding Character Studio.....	194
Working with Biped.....	194
Creating a Biped .....	195
Manipulating a Biped .....	196
Animating a Biped .....	199
Understanding Physique.....	207
Exploring Crowd Systems .....	208

<b>Chapter 8 ■ Exploring Lights and Cameras</b>	<b>217</b>
---	------------

Exploring Lights.....	218
Categories of Lights.....	218
Properties of Light .....	219
Working with Lights.....	221
Creating Standard Lights.....	221
Creating Photometric Lights.....	224
Creating Sunlight and Daylight Systems .....	226
Introducing Shadows .....	230
Working with Cameras .....	230
Creating a Camera .....	231
Creating Cameras from a Specific View .....	232
Exploring Camera Attributes .....	233
Animating a Camera .....	234

<b>Chapter 9 ■ Working with Particle Systems and Space Warps</b>	<b>237</b>
Working with Particle Systems .....	237
Understanding the Types of Particle Systems .....	238
Creating a Particle System for Rainfall Effect .....	245
Working with Space Warps .....	248
Creating an Animation Using a Space Warp .....	249
Exploring the Space Warp Categories.....	252
<b>Chapter 10 ■ Rendering in 3ds Max 2013</b>	<b>257</b>
Introducing the Scanline Renderer .....	258
Exploring the Options Group.....	259
Exploring the Antialiasing Group.....	259
Exploring the Global SuperSampling Group .....	260
Exploring the Motion Blur Group .....	260
Exploring the Auto Reflect/Refract Maps Group.....	261
Exploring the Color Range Limiting Group.....	261
Exploring the Memory Management Group .....	262
Rendering a Scene .....	262
Introducing Ray Tracing .....	266
Introducing Advanced Lighting .....	266
Introducing the Mental Ray Renderer.....	268
Defining Global Illumination.....	271
Defining Caustics.....	271
Introducing the VUE File Renderer.....	271
Using Texture Baking.....	272
Introducing the Quicksilver Hardware Renderer.....	276
Introducing the Iray Renderer .....	276
Exploring the Rendered Frame Window.....	277
